

Hot Love Oil

Ingredients

Coriander essential oil

Ginger essential oil

Patchouli essential oil

3 Juniper Berries

A dried red clover blossom

Vitamin E oil

A natural carrier oil such as Jojoba oil, Sweet Almond Oil, or Apricot Kernel oil

a small bottle to put your oil in

and something to label it with

Directions

Pour enough carrier oil into your small bottle to fill it halfway.

Add one drop of Vitamin E oil to prevent the carrier oil from going rancid.

Add one drop each of the Coriander, ginger and Patchouli essential oil to the bottle.

As you add each drop of essential oil, ask it to bring you the love and passion that you are wanting.

Shake the bottle to blend the oils.

At this point, Sample a drop of the blend and see if the scent is too strong or not strong enough and adjust by adding more carrier oil or additional drops of the essential oil one by one, testing it each time.

Hot Love Oil

When you have arrived at the right balance of scent, add the red clover and the juniper berries - also asking them to bring in the love that you are wanting.

Fill the bottle with the carrier oil and shake again to blend.

You can test your oil again at this point by taking out a drop and seeing if the balance is right or if you would like to add more essential oil to make the fragrance stronger.

Once you've made the oil to your liking, place it on your love altar, or place it overnight in a windowsill or outside to soak up some magical moonbeams.

Your oil is then ready to use in all the ways we described in the podcast.
