## About this Guide

Welcome to the 2014 Connecticut Boater's Guide. This joint venture between the Connecticut Department of Energy & Environmental Protection and Turley Custom Media opens many new doors.

Turley Custom Media, a division of Turley Publications, Inc., a multi-faceted printing company, works to bring creative solutions to expand your audience. Turley Custom Media supports CTDEEP with the design, layout and editing of the Connecticut Boater's Guide, while managing the marketing and advertising sales to companies and organizations relevant to you, the reader.

Advertising revenue not only generates savings, it also lowers production costs, allowing CTDEEP to focus funding on what really matters – keeping Connecticut's waterways safe, clean and fun for all boaters!

We welcome your feedback or advertising interests. Please contact us at 800-824-6548 or [ctboaters@turley.com](mailto:ctboaters@turley.com).

# Education & Certification

### Boats other than Personal Watercraft

Residents of Connecticut, persons owning real property in Connecticut or persons with vessels registered in Connecticut must have either a Safe Boating Certificate or a Certificate of Personal Watercraft Operation to legally operate any boat with a motor, or a sailboat 19 1/2 feet in length or longer.

#### Exceptions:

- On inland bodies of water with a 10 hp limit and between one hour before sunrise and one hour after sunset, no certificate is required for a person operating an electric motor (rated at 106 lbs. of thrust or less). However, the vessel must be registered.
- A person who has a valid operator's license issued by the United States Coast Guard does not require a Safe Boating Certificate to operate a vessel other than a personal watercraft. They must have a copy of the license on board the recreational vessel on which they are operating.
- On inland bodies of water with a 10 hp limit and between one hour before sunrise and one hour after sunset, no certificate is required for a person operating an electric motor (rated at 106 lbs. of thrust or less). However, the vessel must be registered.

#### PWC only

Any person operating a personal watercraft must possess either a Certificate of Personal Watercraft Operation issued by Connecticut or a state recognized by Connecticut. Connecticut recognizes certificates from New York, Massachusetts, New Hampshire and Rhode Island for use upon our waters (see page 13, Reciprocity).

# Safeboat

## EDUCATION & CERTIFICATION

### Non-Resident Certificate Requirements

- Connecticut recognizes a valid Safe Boating Certificate or **Certificate of Personal Watercraft Operation** issued by a reciprocal state (NY, MA, RI or NH) for a non-resident even if they own real property in Connecticut or have a vessel registered in Connecticut waters (because the vessel is in CT waters more than 60 days in a year). Personal watercraft operators MUST have a recognized Certificate of Personal Watercraft Operation to operate legally.

- Pass an approved basic boating course or
- Pass the DEEP's Equivalency Examination.

Note: Save the diploma from the course/exam. You will need it to apply for a Safe Boating Certificate.

A **Certificate of Personal Watercraft Operation (CPWO)** allows an individual to operate any recreational vessel including a personal watercraft. In order to meet the requirements for a Certificate of Personal Watercraft Operation (CPWO), an individual must:

- Pass an approved combination basic boating/personal watercraft course or
- Pass an approved basic boating course and an approved 2 1/2 hour personal watercraft course or
- Pass the DEEP's Equivalency Examination.

### Safe Boating Certificate or Certificate of Personal Watercraft Operation

A **Safe Boating Certificate (SBC)** will allow an individual to operate any recreational vessel, except a personal watercraft on Connecticut's waters. In order to meet the requirements for a Safe Boating Certificate (SBC), an individual must:

# EDUCATION & CERTIFICATION

## Equivalency Examination

The DEEP's Equivalency Examination is a 50-question multiple choice test that is designed for the experienced boater to qualify for a Safe Boating Certificate or a Certificate of Personal Watercraft Operation. The DEEP recommends, however, that all boaters take a class to ensure they are up-to-date with current boating laws.

How do I apply? Examinations are offered only by the DEEP. Applications to register for the examination are available on the DEEP website or by calling the DEEP Boating Division. The examination fee is \$75.00. It may only be attempted once.

## Duplicate Certificate

You can print a duplicate certificate at any time by logging onto <https://www.ctwildlifelicense.com/internetsales/sales> (online Sportsman Licensing system). Log in using your Date of Birth and Conservation ID number. Select "Click here to reprint your license" This is free of charge.

## Temporary Certificate

If you purchase and register a new or used boat other than a personal watercraft in your name, and do not have a Safe Boating Certificate, you may apply for a Temporary Safe Boating Certificate. It is valid for 3 months from the date of vessel registration. Within that time, you must qualify for and obtain a permanent Safe Boating Certificate.

If you purchase and register a new or used personal watercraft in your name and do not qualify for a Certificate of Personal Watercraft Operation, you may apply for a Temporary Certificate of Personal Watercraft Operation after

you have taken an approved 21/2 hour personal watercraft course. The temporary certificate is valid for 3 months from the date of vessel registration. Within that time, you must qualify for and obtain a permanent Certificate of Personal Watercraft Operation.

Where do I apply? Apply in person at any DEEP Processing Office.

What do I bring? For the Temporary Safe Boating Certificate bring your original registration (in your name because the Temporary Certificate is issued to the person whose name is on the registration), a photo ID and a \$50.00 fee. For the Temporary Certificate of Personal Watercraft Operation, you additionally need proof of successful completion of an approved 21/2 hour personal watercraft course

**NOTE: No person shall be issued more than one Temporary Certificate during his or her lifetime.**

## Reciprocity

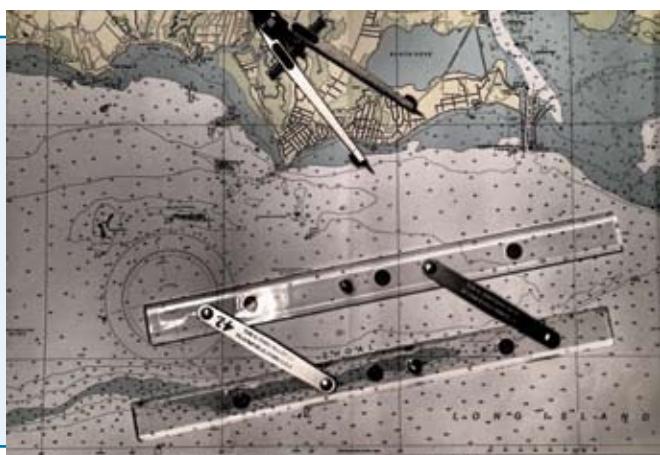

The Connecticut Safe Boating Certificate and the Certificate of Personal Watercraft Operation are accepted in many states. Connecticut recognizes certificates from New York, Massachusetts, Rhode Island and New Hampshire for use upon our waters. Adherence to Connecticut state law remains the responsibility of the boater.

In addition, any new resident who possess a Safe Boating Certificate or a Certificate of Personal Watercraft Operation issued by a state having an agreement of reciprocity with Connecticut must present evidence of the certificate to satisfy the educational requirements for the issuance of a Connecticut Safe Boating Certificate or Certificate of Personal Watercraft Operation. This must be done within 90 days of becoming a Connecticut resident.

## CONNECTICUT COASTAL BOATER ENDORSEMENT PROGRAM

Boaters may obtain a Coastal Boater Endorsement for their Safe Boating or Personal Watercraft Certificate by completing a course in coastal navigation. This class is above and beyond what is taught in a basic boating course which provides an introduction to boating safety.

A navigation course is especially critical for coastal boaters. Some topics include Longitude/Latitude, time, distance, speed calculations, chart plotting, GPS and more. After successful completion the endorsement will be printed on your certificate. For such classes, select "Certification and Registration" on our website, the Connecticut Coastal Boater Endorsement Program.

Any person obtaining a Safe Boating Certificate (SBC) or a Certificate of Personal Watercraft Operation (CPWO) needs to have the certificate on board at all times while operating a vessel. A certificate is valid for the life of the person to whom it is issued and may be issued regardless of age. (See page 30, Age Restrictions for operating boats with engines greater than 10 horsepower and personal watercraft.) The certificate may be suspended upon conviction of operating under the influence of alcohol or drugs.

## Obtaining a Boating Certificate (SBC or CPWO)

### If you have not taken a boating safety course

- Before taking your boating course, you must obtain a Connecticut Conservation Identification Number (ID). If you have a Connecticut Hunting or Fishing License, your Conservation ID will be the same ID number that was assigned with the hunting or fishing license
- If you need a Conservation ID number, go to <https://www.ctwildlifelicense.com/internetsales/sales> (online Sportsman Licensing system) and complete the registration process for "New Customers".
- When you take your class, our instructor/course provider will need the ID number assigned to you. You will need to provide your instructor with your name (as it was entered into the online Sportsman Licensing System) as well as your month and day of birth.

Within a week of completing your course and passing your exam, you should be able to purchase your certificate from your home computer by going to the <https://www.ctwildlifelicense.com/internetsales/sales> (online Sportsman Licensing system). The fee for the Safe Boating Certificate or Certificate of Personal Watercraft Operation is \$50.00.

- Use your Date of Birth and Conservation ID to log in and follow the instructions to purchase the Safe Boating Certificate or Certificate of Personal Watercraft Operation. You will need a printer to print your certificate and sales receipt. The printed certificate is your official document. After signing it, you must carry it whenever you operate your vessel. In the event of printer or user error, you will be allowed to reprint your certificate at any time by logging back into the system.
- For those that do not have access to a computer, you may go to a DEEP processing office or use a computer at a local library.

### If you have already completed a boating safety course

- If you have already completed a boating safety course, you will still need to obtain a Connecticut Conservation Identification Number to purchase your certificate. If you have a Connecticut Hunting or Fishing License, your Conservation ID will be the same ID number that was assigned with the hunting or fishing license.
- To obtain a Conservation ID number, follow the instructions above or you can obtain an ID number from one of our DEEP Processing Offices.
- Bring your diploma to a DEEP Processing Office with the \$50 fee. If you have already applied for the Conservation Identification Number you can simply pay the fee and show your approved diploma.

## EDUCATION & CERTIFICATION

### Approved Boating Courses

There are three types of basic boating courses that are offered throughout the state:

1. Combined basic boating and personal watercraft class. This 8-hour class qualifies you for a CPWO or SBC.
2. Basic boating class. This 8-hour class qualifies for SBC only.
3. Personal watercraft course. This 2 1/2-hour class along with the basic boating class, qualifies you for a CPWO. By itself, the class may qualify you for a temporary CPWO.

One-day classes, for a fee, are available statewide by private providers. There are a number of approved out-of-state basic boating courses that may qualify you for an SBC or CPWO. Call the Boating Division at 860-434-8638 for details.

Most Community Colleges in Connecticut are now offering the DEEP eight-hour combined basic boating and personal watercraft course. For information concerning the date and time of the classes, you should visit our website: [www.ct.gov/deep/boating](http://www.ct.gov/deep/boating).

BoatinginConnecticut**

## CORRECT SPACING OF REGISTRATION NUMBER AND DECAL

## CORRECT DISPLAY OF NUMBERS

Registration of your vessel and learning the laws of boating are essential to be safe on the waterways of Connecticut. Just as you must have a vehicle registration of your car, you must have a Connecticut Certificate of Number (registration card with assigned registration number) and two validation decals to legally launch, moor or operate your boat. The only exceptions are:

- Non-motorized boats
- Sailboats less than 19 1/2 feet in length
- Boats registered in other states using Connecticut waters for 60 days or less
- Boats documented with the U.S. Coast Guard using Connecticut waters for 60 days or less
- Boats owned in countries other than the United States.

**Vessel Registration**

When you purchase a vessel, you are responsible for seeing that it is registered. The Department of Motor Vehicles (DMV) is the agency that handles boat registrations. Evidence of ownership must be submitted

at the time of registration. Since Connecticut is not a title state, the bill of sale will suffice. Upon receipt of the application and fee, a Connecticut Registration Number will be assigned. A Connecticut Certificate of Number (registration card) and two Connecticut Validation Decals will be issued. A Certificate of Number is valid until April 30th of the decal year. Owners of boats, which already have been registered, will be sent a renewal notice from the DMV by mail. Connecticut registration numbers stay with the boat as long as it is registered in the state.

A vessel is considered properly registered when you have a valid certificate on board and your numbers and/or current decals are properly displayed. (Exception: Recently registered boats operating under a temporary certificate of number need not display a validation decal until provided by the DMV.)

**Position of Registration Number and Validation Decals**

The Registration Number must be at least 3 inches high, contrasting in color to the hull background and in block form. It must be painted on or attached to both

# REGISTRATION

the port and starboard bow of the vessel and positioned so it is visible and legible from at least 100 feet away. The registration number must read from left to right on both sides of the vessel. A Validation Decal must be placed two inches to the right of and in line with the assigned registration number. No other letters, numbers or validation decals (other than the current ones) may be displayed.

## Vessels Numbered by Other States and Reciprocity

Documented vessels and vessels numbered by another state, which are moored, docked or operated more than 60 days in Connecticut in any calendar year, must obtain a Connecticut Certificate of Decal from DMV and display a current Connecticut validation decal (but not a Connecticut registration number) on both sides of the bow. In addition, the owner must acquire a boating certificate that is recognized by Connecticut in order to operate the vessel on Connecticut waters. Connecticut boat users should check and obey local laws when operating in other states.

Note: Every entity leasing, renting or otherwise providing slips, dock space, dry storage, or moorings for vessels not registered in Connecticut is required to maintain a list of such vessels. Transient vessels need not be listed. The list must be available during normal business hours for inspection by any boating law enforcement officer. The rules for information collected differ slightly for those entities that provide such space by lease and those that provide such space by membership. Any questions, please contact the Boating Division regulatory unit. (CGS Section 15-150a).

## Certificate to Be On Board

A Certificate of Number or Certificate of Decal must be on board the vessel whenever the owner or any person authorized by the owner is aboard, except that rented boats may carry a rental agreement in lieu of a certificate.

## Taxability of Vessels and Trailers

As a general rule, when a Connecticut resident or an individual who maintains a place of abode in Connecticut

buys a vessel or trailer, the 6.35% Connecticut sales or use tax is due.

Out-of-state residents or nonresident entities that have purchased a vessel with the intent of using it in Connecticut waters must pay a Connecticut use tax. This Connecticut use tax liability must be reported on the "Individual Use Tax" line of the purchaser's Form CT-1040 NR/PY Connecticut Nonresident Income Tax Return. This use tax can be offset by documenting that sales or use tax has been properly paid to another state or municipality.

For Further Information: Call the Department of Revenue Services during business hours, Monday through Friday: 1-800-382-9463 (in-state), or 860-297-5962 (from anywhere) TTY, TDD and Test Telephone users only may transmit inquiries anytime by calling 860-297-4911.

## Hull Identification Number (HIN)

The Hull Identification Number (HIN) is a unique, 12 digit number, assigned by the manufacturers to vessels built after 1972. HINs identify one vessel from another. The HIN is usually found on the starboard side of the boat's transom. The HIN should be recorded by the owner and put in a place other than the boat in case warranty problems arise or the vessel is lost or stolen. Owners of registered vessels manufactured after October 1, 1972, that do not have a HIN should call the Boating Division at 860-434-8638.

## Boat Rentals

A rented vessel that is required to be registered must display "BL" numbers. The rental agreement must be carried onboard.

## Change of Address/ Change of Ownership/ Change of Registration Status

If you change your address or sell or otherwise dispose of your vessel, you must, within 15 days and in writing, notify the Department of Motor Vehicles, Marine Vessel Section, 60 State St., Wethersfield, CT 06109. In the case of an address change, keep your Certificate of Number on the boat after updating the address on the back of the certificate.

**A**s a boat operator your fun on the water depends on your behavior. It is your responsibility to have the safety equipment required by law, to keep it on board in good condition, and know how to properly use it. YOU ARE IN COMMAND!

### Connecticut Life Jacket and Personal Flotation Device (PFD) Laws

Because more than 90 percent of boating fatalities could have been avoided by wearing a life jacket:

- There must be a wearable life jacket on board for each person aboard every vessel.
- Each life jacket must be readily accessible.
- Each life jacket must fit the intended wearer.
- If the vessel is required to have a Type IV "throwable" PFD (see page 18), it must be immediately available.

#### Life jackets must:

- Be U.S. Coast Guard approved.
- Have a legible label.
- Be of the correct size and fit for the wearer. A life jacket should fit comfortably snug and never cover your face or ride up past your ears.
- Be in serviceable condition (all straps and buckles must be in good condition and able to perform their jobs; all seams and material must be intact).
- Be worn by children under 13 years old on any vessel that is underway unless the child is below deck or in an enclosed cabin.
- Be worn by anyone operating or riding on a PWC.
- Be worn by anyone being pulled behind a boat (such as tubing or skiing).
- Be worn by anyone in a manually propelled vessel from October 1 through May 31 (must be Type I, II, III, V or V-hybrid), except as noted on next page.

Remember:

- Ski belts are not legal life jackets.
- Inflatable life jackets may not be used by persons engaged in high-speed water sports (such as riding PWCs or water-skiing) and may not be used by persons weighing under 90 lbs. or under 16 years of age.

# Safety Equipment

# SAFETY EQUIPMENT

CONNECTICUT AND U.S. COAST GUARD MINIMUM REQUIREMENTS				
Equipment	Class A Less than 16 feet (less than 4.9 m)	Class 1 16 feet to less than 26 feet (4.9 to less than 7.9m)	Class 2 26 to less than 40 feet (7.9 to 12.2m)	Class 3 40 to less than 65 feet (12.2 to less than 19.8m)
Backfire Flame Arrestor	The device must be suitably attached to the air intake with a flametight connection and is required to be Coast Guard Approved or comply with SAEJ-1928 or UL1111 standards and marked accordingly.			
Ventilation – Boats built before Aug. 1, 1980	At least two ventilator ducts, fitted with cowls or their equivalent, for the purpose of properly and effectively ventilating the bilges of every closed engine and fuel tank compartment of boats constructed or decked over after April 25, 1940, using gasoline as fuel.			
Ventilation – Boats built on or after Aug. 1, 1980	At least two ventilator ducts for the purpose of efficiently ventilating every closed compartment that contains a gasoline engine and every closed compartment containing a gasoline tank, except those having permanently installed tanks which vent outside the boat and which contain no unprotected electrical devices. Also, engine compartments containing a gasoline engine having a cranking motor must be open to the atmosphere or contain power operated exhaust blowers which can be controlled from the instrument panel.			
Personal Flotation Devices	One approved Type I, II, III or V PFD for each person on board or being towed on water-skis, etc. Check label if using Type V.	One approved Type I, II, III or V PFD for each person on board or being towed on water-skis, etc.; and, in addition, one throwable Type IV device. (Type IV not required for canoes and kayaks.) Check label if using Type V.		
Sound-Producing Devices – Whistle See page 20	Must have some means of making an efficient sound signal.	Must have some means of making an efficient sound signal.	Must have some means of making an efficient sound signal.	Must have a whistle audible for at least one-half mile, and a bell.
Visual Distress Signals Required on coastal waters only	Must carry approved visual distress signals for nighttime use when operating at night.	Must carry visual distress signals approved for both daytime use and nighttime use.		
Fire Extinguishers (Must say Coast Guard Approved)	At least one B-1 type approved hand portable fire extinguisher. Not required on outboard motorboats less than 26 feet (7.9 meters) in length and not carrying passengers for hire if the construction of such motorboat will not permit the entrapment of explosive or flammable gases or vapors and if fuel tanks are not permanently installed.	At least two B-1 type approved portable fire extinguishers; OR at least one B-II type approved portable fire extinguisher.	At least three B-1 type approved portable fire extinguishers; OR at least one B-1 type plus one B-II type approved portable fire extinguisher.	NOTE: When a fixed fire extinguishing system is installed in the machinery space(s), it will replace one B-1 type portable extinguisher.

All vessels 16 feet and over, except kayaks and canoes, must also carry a Type IV throwable device in addition to the required number of wearable life jackets.

## Special Rules for Wearing Life Jackets in Manually Propelled Racing Vessels

Persons operating Racing Shells, Racing Canoes, Racing Kayaks and Rowing Sculls and involved in competitive racing or the preparation for competitive racing are not required to wear or carry life jackets **if accompanied at all times by an escort vessel**. The escort vessel may escort up to three racing vessels and must be able to see all escorted vessels at all times and without the assistance of artificial devices other than eyeglasses. The requirement for an escort vessel may be waived during an organized race event where a Marine Event Permit has been approved by the Commissioner and other steps have been taken for the safety of the participants.

## Visual Distress Signals (VDS)

Visual distress signals are to be used to summon assistance when in distress.

In the State of Connecticut no VDS are required anywhere except when boating on Long Island Sound (LIS) and on Fishers Island Sound (FIS).

The following vessels only need to carry VDS on LIS and FIS between sunset and sunrise:

- Recreational vessels under 16 feet;
- Open sailboats less than 26 feet that are not equipped with propulsion machinery; and
- Manually propelled vessels.

All other vessels need to carry 3 daytime and 3 nighttime VDS (or the equivalent) at all times while on FIS and LIS.

- Visual distress signals must be U.S. Coast Guard approved, in serviceable condition and stowed to be readily accessible.

**NOTE:** Exceeding noise levels is a serious problem. Marine Police will be targeting areas, especially on the Connecticut River, to check for compliance. Exceeding noise levels will result in a fine of \$220. Failing to submit to an on-site noise level test will result in a fine of \$435. Subsequent failures to submit will result in a fine of \$535.

# Defender®

Marine Outfitter Of Choice For Boating Enthusiasts Since 1938

## Your Discount **ORION®** Source!

*The Brightest Name in Safety*

**NEW!**

### Coastal Alerter Plus 12-Gauge Launcher w/6 Aerial Signals, Whistle & Mirror

Contains aerial, visual and sound signals. When combined with handheld flares makes the perfect kit for Coastal boaters.

- 12-Gauge Safety Launcher - Corrosion resistant with lifetime warranty and bandolier that can hold up to (6) High Performance Signals
- (6)12-Gauge High Performance Red Aerial Signal - U. S. Coast Guard Approved Day or Nighttime Signal
- (1) SOLAS Approved Whistle w/Lanyard - 116db at 1 meter
- (1) Signal Mirror - Non-corrosive material Includes view finder and lanyard
- Floating Neoprene Storage Case - Highly visible international orange, protects signals during storage

Item 552489 Model 572

**Only \$67.99**

**NEW!**

### Inland Handheld Signal Kit w/ Accessories & Air Horn

This kit is design to meet both your visual and audible Coast Guard requirements.

- (4) Handheld Red Signal Flares Brightness: Up to 700 candela Burn Time: Up to 3 minutes each
- (1) SOLAS Approved Whistle w/Lanyard 116db at 1 meter
- (1) Handheld Orange Smoke Signal - U. S. Coast Guard Approved Daytime Signal Average burn time: Up to 1 minute each
- (1) 1.5 oz. Mini Horn
- (1) Signal Mirror - Non-corrosive material Includes view finder and lanyard
- Floating Neoprene Storage Case - Highly visible international orange, protects signals during storage

Item 552488 Model 543

**Only \$59.99**

# SAFETY EQUIPMENT

- U.S. Coast Guard approved pyrotechnic visual distress signals and associated devices include:
  - Pyrotechnic red flares, hand-held or aerial.
  - Pyrotechnic orange smoke, hand-held or floating (day use only).
  - Launchers for aerial red meteors or parachute flares.
- If VDS are required there must be a minimum of 3 daytime and 3 nighttime signals, or 3 combination day/night signals. Pyrotechnic devices will have an expiration date that must not have passed.
- Non-pyrotechnic visual distress signaling devices include:
  - Orange distress flags.
  - Electric distress signals.
- Other VDS, such as those listed below, are useful and easy to carry and are recognized as distress signals, but do not count toward the requirement to carry approved VDS on LIS and FIS.
  - Signaling mirror.
  - Water dye.
- No person, operator or owner in a vessel shall display or allow the display of a visual distress signal except when assistance is needed because of immediate or potential danger to the vessel or to persons aboard.

## Expired Flare Disposal

- Disposal of marine flares may be done by appointment only, by calling the DEEP Boating Division, 860-434-8638. Ask for the Boating Education Section.
- Take advantage of our "Flare Days." You can dispose of flares and test them out. Watch your local newspapers for site locations and times.

## Fire Extinguishers

- Fires involving burning wood, fabrics and paper (Class A) can be put out with water.
- Most boat fires consist of burning flammable liquids such as oil or gasoline (Class B). Check the table at the beginning of this section to determine how many Type B-1 fire extinguishers you must have on your boat.
- Check frequently to be sure that fire extinguishers are properly mounted where they can be easily reached. Check pressure gauges for proper pressure. Shake dry chemical units to be sure the chemical hasn't solidified and become useless. Replace any questionable extinguishers.

## Backfire Flame Arrestors

Internal combustion engines may backfire. To safeguard against fire, all inboard motorboats with carburetion must have a backfire flame arrestor system on each carburetor. Know where they are and keep them clean.

## Ventilation

Regulations require ventilation of all enclosed engine and fuel tank compartments on gasoline-powered boats. Intake ducting must extend midway to the bilge or at least below the carburetor air intake level. Exhaust ducting must extend from the lower bilge to cowls in the open air. Manufacturers install exhaust blowers in engine compartments so that gasoline fumes can be removed before the engines are started. If your boat is installed with an exhaust blower, it is recommended that you turn it on for at least four minutes before starting the engine.

## Whistle (Horn) and Bell

- Navigation rules (part of Federal Law) require all vessels (including canoes and kayaks) to have audible signaling devices. (See chart on page 18.)
  - Every vessel of 12 meters (39.36 ft.) or less in length must have some means of making an efficient sound signal.
  - Every vessel of at least 12 meters (39.36 ft.) in length but less than 20 meters (65.6 ft.) in length must have a whistle capable of being heard for at least one-half mile, and a bell.

## Mufflers (Noise Levels)

No one shall operate a motorboat on the waters of this state unless the boat is equipped with a muffler or muffler system allowing it to be operated in compliance with state law.

Noise levels range from 90dB(A) for older engines to 88dB(A) for engines made after January 1, 1993. Any marine police who believes a motorboat is being operated in excess of the established noise levels may request the operator to submit the motorboat to an on-site noise level test. No person shall sell a motorboat which does not operate in compliance with the established noise levels. Boaters should contact the Boating Division if they are selling a vessel used only in marine races.

No one shall operate a motorboat on the waters of this state that is equipped with a muffler or muffler system cutout, bypass or similar device that prevents the motorboat from operating in compliance with state noise levels and without authorization from the Commissioner.

## Trailering Your Boat

The DMV has laws relative to boat trailers. Each trailer having a gross weight of three thousand pounds or more shall, when operated on any public highway, be equipped with a braking system operating on all wheels. For trailers having a gross weight of greater than eight thousand pounds, the brakes shall be capable of being controlled or operated from the driver's seat of the towing vehicle.

**NOTE:** Connecticut law limits the width of vehicles and trailers that travel on Connecticut's highways and bridges to 8½ feet. Vehicles or loads wider than this require an oversize vehicle permit. Oversize vehicle permits are available through the Department of Motor Vehicles.

### Courtesy

Boating at high speeds is dangerous in restricted or congested areas. Each skipper is responsible for spotting and avoiding swimmers and slow-moving vessels. This is also important when picking up or dropping off water-skiiers.

### Spill Information

Section 22a-450 of the Connecticut General Statutes requires the master of any ship, boat, barge or other vessel or the operator of any vehicle or trailer or other machine which causes the discharge of oil or petroleum or other substance to the waters of the state to immediately report such facts to:

The Department of Energy and Environmental Protection (DEEP), Emergency Response Unit, 860-424-3338 or toll free 1-866-DEP-SPIL (1-866-337-7745), 24 hours/day. Should these numbers become unavailable for any reason, call 860-424-3333.

You will need to be prepared to report such information as:

- the location;
- the quantity and type of substance, material or waste;
- the date and the cause of the incident;
- the name and address of the owner; and
- the name and address of the person making the report and his relationship to the owner.

Note: Unless specifically requested, the DEEP does not require a written submission when reporting a spill.

### Penalties

Any person who fails to report incidents as required by Chapter 446k, Section 22a-450 may be fined not more than \$1,000 and the employer of such person not more than \$5,000.

## EMPTY/DRIFTING CRAFT = EMERGENCY RESPONSE

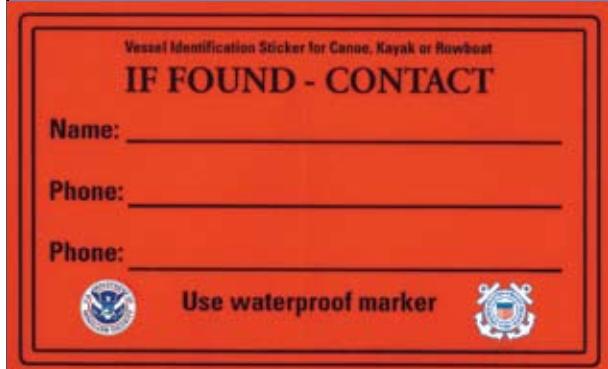

**Cost of response helicopter:**  
**\$11,408 PER HOUR**

**Cost of response boat:**  
**\$3,735 PER HOUR**

**Your cost to prevent unnecessary response:**  
**\$0**

Use an "If Found" sticker to identify your paddle craft. Doing so helps Search and Rescue responders determine if a true emergency exists, prevents unnecessary searches saving tax payers thousands of dollars in associated search cost, and enables the paddle craft to be returned to its rightful owner.

*To get your **FREE** sticker, contact the State of Connecticut Department of Energy and Environmental Protection at:*  
**Phone: 860-434-8638**  
**Email: [deep.boating@ct.gov](mailto:deep.boating@ct.gov)**

# ENVIRONMENTAL AWARENESS

## STOP AQUATIC HITCHHIKERS!

Prevent the transport of nuisance species.  
Clean all recreational equipment.  
[www.ProtectYourWaters.net](http://www.ProtectYourWaters.net)

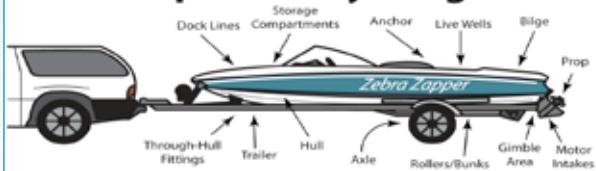

### **BEFORE LEAVING THE LAUNCH:**

- ✓ Clean: remove any visible mud, plants, fish or animals before transporting equipment.
- ✓ Drain: eliminates water from equipment, such as a live well, before transporting.

### **AT HOME PRIOR TO YOUR NEXT LAUNCH:**

- ✓ Dry: anything that comes into contact with water (boats, trailers, anchors, propellers, fishing equipment, clothing, dogs, etc.) for a minimum of one week.
- ✓ If drying isn't possible, wash with hot water (preferably high pressure).
- ✓ Never release plants, fish or animals into a body of water unless they came out of that body of water.
- ✓ Dispose any unused bait in an upland trash.

### **Before leaving and before launching... inspect everything!**

### **HOW CAN I CLEAN MY BOAT TO PREVENT THE SPREAD?**

- ✓ Dry equipment for a minimum of one week (hot/dry weather) and a minimum of four weeks (cool/wet weather) before entering new waters.  
OR.....
- ✓ Wash with hot water, preferable high pressure.
- ✓ Dip equipment into 100% vinegar for 20 minutes prior to rinsing.
- ✓ Use a 1% salt solution and leave on for 24 hours prior to rinsing (2/3 cups of salt to 5 gallons of water).
- ✓ "Wet" with bleach solution (1 oz. per gallon) or soap and hot water (Lysol, boat soap, etc.) for 10 minutes prior to rinsing.

WHAT CAN  
I DO TO  
PREVENT THE  
SPREAD OF  
NON-NATIVE  
SPECIES!

# HELP KEEP Aquatic Invasive Species (AIS) OUT OF CONNECTICUT'S WATERS!

**It is critical that boaters take responsibility for stopping the spread of these plants and animals.**

Failure to remove all vegetation and the listed aquatic invasive species, that are visible and identifiable without optical magnification, is subject to a fine of \$95 for each such violation.

**IT IS ILLEGAL TO TRANSPORT** on a boat or trailer any vegetation and the following aquatic invasive species (as determined by the Commissioner pursuant to CGS Section 15-180; see [www.ct.gov/deep/boating](http://www.ct.gov/deep/boating)):

**Zebra mussel** (*Dreissena polymorpha*)  
**Quagga mussel** (*Dreissena bugensis*)  
**Chinese mitten crab** (*Eriocheir sinensis*)  
**New Zealand mud snail** (*Potamopyrgus antipodarum*)  
**Asian clam** (*Corbicula fluminea*)  
**Rusty crayfish** (*Orconectes rusticus*)

Prevent the transport of nuisance species.

Clean all recreational equipment.

**[www.ProtectYourWaters.net](http://www.ProtectYourWaters.net)**

SEE PAGE 22 for methods to remove AIS

**N**on-native aquatic plants or animals are also known as nuisance or aquatic invasive species (AIS). These species tend to grow at a rate such that they can displace beneficial native species, disrupt the ecosystem and drastically reduce recreational activities, including swimming. Please prevent new introductions of invasive plants and animals:

**Clean, Drain, Dry your boat and gear.**

## FRESHWATER

Plant species such as Eurasian milfoil, variable leaf milfoil and fanwort have been introduced into Connecticut's lakes and ponds, and can impact the ecosystem and reduce recreational activities. Invasive plants can form a dense mat just below the water's surface, which interferes with boating, swimming and other recreational activities.

### 1. Eurasian milfoil:

Submerged, perennial aquatic plant with green feathered type leaves. The stems are brownish-red to light green. Milfoil produces pink flowers between July and August.

## 2. Fanwort:

Submerged plant that ranges in color from grass green to olive and to reddish brown. The leaves are finely divided and strictly opposite arranged. Small white flowers with 6 petals emerge among the floating leaves.

## 3. Zebra mussel:

Zebra mussels are small, striped rigid mussel that grows to a maximum length of 2.5 cm (approximately 1 inch) in length. The shell color is black or brown with variable white to yellow striped or zig zag patterns and they can live up to five years.

Zebra mussels have recently become established in Lakes Lillinonah, Zoar and Housatonic in western Connecticut and for a longer period of time in the Twin Lakes, Salisbury. These mussels can impact the ecosystem, foul boat hulls and engine cooling systems, are sharp to step on and can clog power plant, industrial and drinking water intakes.

## 4. Quagga mussel:

The quagga is slightly larger than the zebra mussel. The shell is striped but is more pale toward the end of the hinge. Color patterns vary widely with black, cream, or white bands. The quagga has a rounded angle and a convex ventral side. Quagga mussels have not been found in Connecticut waters.

## 5. Chinese mitten crab:

The claws are of equal size and appear "furry" with whitish tips. The smooth shell is brown to green with four spines (the fourth can be small) on each side. There is a notch between the eyes. In June, 2012, a juvenile Chinese mitten crab was collected from the Mianus River in Greenwich. This is the first confirmed report of this invasive in CT. This crab reproduces in saltwater but spends most of its life in freshwater.

## 6. New Zealand mud snails:

Relatively small snail that has brown or black cone shaped shell with 7-8 whorls. Between the whorls are deep grooves. This snail has the ability to reproduce quickly and populations can rapidly reach high densities under suitable conditions. New Zealand mud snails have not been found in Connecticut waters.

## 7. Rusty crayfish:

A large crayfish with reddish spots on each side of the body just in front of the tail, grayish green color, smooth mandibles (mouth parts without serrated edge) and black bands on tips of claws. Rusty crayfish are aggressive and can displace native crayfish. They feed heavily on invertebrates that are important food sources for fishes and can destroy aquatic vegetation beds, impacting habitat used by other invertebrates and game fish. Rusty crayfish are often spread via bait buckets. Rusty crayfish can be found in a number of freshwater systems throughout Connecticut.

## 8. Asian clam:

A bivalve that can grow as large as 5 cm (2 inches) wide and live up to 7 years. Asian clams can be identified by the presence of yellow and brown color concentric rings on their shell. The outer side of the shell can flake, revealing white spots. Asian clam excretions encourage algal growth which reduces water quality for native flora and fauna. Asian clams can aggressively colonize the bottom of waterways and can outcompete native species for space. Asian clams can be found in a number of freshwater systems throughout Connecticut.

## MARINE AQUATIC INVASIVE SPECIES

If a vessel sits at a dock for too long, growth can occur on the hull. Invasive species can also collect in bilge areas, live wells, or other places that may collect water. If a vessel moves between seasonal ports, the introduction of an AIS may occur. Many of the fouling species that grow on vessel hulls exist because they are invasive and have no predators. Often the introductions are from ballast water taken on in foreign waters and discharged in US waters. Steps are being taken nationally to minimize these introductions. Local boaters can help by removing the species on their boats and trailers and properly preparing and maintaining their boat's bottom.

## Connecticut's Clean Marina Program

Connecticut's Clean Marina Program is a voluntary program that recognizes Connecticut's marinas, boatyards, and yacht clubs that go above and beyond regulatory compliance as "Certified Clean Marinas." Look for certified marinas flying a Certified Clean Marina Flag at their facility. We are happy to announce that the DEEP and Connecticut Marine Trades Association (CMTA) are currently working together to reinvigorate the Clean Marina Program. Once the guidebook has been revised and new flags are printed, the CMTA will be accepting new applications.

## Connecticut's Clean Boater Program

Using sound environmental boating practices protects our resources and ensures the future health of Connecticut's waters. The Clean Boater Program encourages the state's boaters to use clean boating techniques.

Support marinas that are environmentally responsible. For information about the Clean Boater Program contact the Boating Division at 860-434-8638; for information about the Clean Marina Program contact the Office of Long Island Sound at 860-424-3034 or visit: [www.ct.gov/deep/cleanmarina](http://www.ct.gov/deep/cleanmarina).

## Boat Hull Maintenance

New recommendations for hull-washing are of special interest. Your marina may not allow the cleaning of boat bottoms painted with toxic antifouling paint. Consider hauling your boat to clean it. If your marina does allow underwater hull cleaning, please proceed with caution:

- DO NOT clean boat bottoms painted with ablative paints.
- Use hard bottom paint if you need to clean your boat bottom throughout the season (sailboats).
- Ask your marina operator if there are any specific guidelines you need to follow while cleaning your boat bottom.
- Use only soft material (sponges, not brushes!) to clean growth off the hull.
- Use stainless steel pads and/or brushes only on UNPAINTED surfaces.
- Stop cleaning in the water if colored plumes of paint appear in the water.
- Do not paint zincs. When replacing zinc anodes, bring them ashore for recycling.
- Hire a professional diver and tell them you expect them to minimize pollution.

## MARPOL Regulations

All vessels must obey MARPOL regulations developed in the 1970s to protect the marine environment from operational pollution. Vessels over 26 feet must display a durable placard explaining MARPOL Annex

V disposal regulations. The U.S. legislation that implements MARPOL Annex V, bans the dumping of plastics in all navigable waters of the United States. It also places restrictions on the disposal of other types of shipboard solid wastes.

**NOTE: It is illegal to discard fishing line on land or in state waters.**

## Marine Sanitation Devices (MSDs)

All vessels with an installed toilet are required to have a Coast Guard certified Marine Sanitation Device (MSD) attached to the toilet. See [www.ct.gov/deep/cva](http://www.ct.gov/deep/cva).

A macerator alone is not a certified MSD. A macerator only grinds the sewage. It does not treat it to kill bacteria and viruses. All Coast Guard certified Type I and Type II MSDs have a certification label affixed by the manufacturer. Holding tanks are not required to have a certification label. See the Environmental Protection Agency (EPA) website at: [www.epa.gov/owow/oceans/regulatory/vessel\\_sewage/vsdmsd.html](http://www.epa.gov/owow/oceans/regulatory/vessel_sewage/vsdmsd.html).

The U.S. Coast Guard can issue fines of up to \$2,000 for the illegal discharge of untreated sewage. Section 15-175(a) of the Connecticut General Statutes provides that any person owning or operating a vessel from which untreated sewage is discharged from a MSD or bypass into the waters of this state has committed a class A misdemeanor. A class A misdemeanor is a criminal offense for which a person, if convicted, may be sentenced to a term of imprisonment of not more than one year and be fined an amount not more than two thousand dollars. State conservation officers and municipal marine police may enforce this law.

## No Discharge Areas

It is illegal to discharge untreated sewage from your boat into any of Connecticut's waters.

**Connecticut:** All waters of Fisher's Island Sound and its harbors from the Rhode Island State boundary to Byram Point, Greenwich, as well as the navigable reaches of all Connecticut rivers and tidal streams that drain into Long Island Sound within state boundaries, including the Hammonasset River, Menunketesuck River, Niantic River, Thames River, Housatonic River from the Derby Dam, and Quinnipiac River from the southern border of North Haven. **New York:** Long Island Sound, including the open waters, harbors, bays and navigable tributaries of the Sound and a portion of the East River, from the Hell Gate Bridge in the west to the northern bounds of Block Island Sound in the east. Included in the NDZ are: Poconic Estuary and East Hampton, Mamaroneck Harbor, Huntington-Northport Bay Complex, Port Jefferson Complex, Hempstead Harbor, Oyster Bay/Cold Spring Harbor Complex, and Hudson River.

**Rhode Island:** All waters. See the EPA website at: [www.epa.gov/region01/eco/nodiscrg/](http://www.epa.gov/region01/eco/nodiscrg/) for a list of NDAs in New England waters.

See the EPA website at: [www.epa.gov/region01/eco/nodiscrg/](http://www.epa.gov/region01/eco/nodiscrg/) for a list of NDAs in New England waters.

# ENVIRONMENTAL AWARENESS

The Federal Clean Vessel Act directs excise tax dollars, collected on fishing tackle and motorboat fuel, to construct, operate and maintain pumpout stations for Type III MSDs, and dump stations for portable toilets. A list of pumpout facilities appears on these following pages.

## Pumpout Facilities Directory 2014

Stations below are listed east to west.

● Indicates Clean Vessel Act Funded

### Shoreside station facilities

#### WESTERLY, RHODE ISLAND

- 1 Westerly Yacht Club  
Pawcatuck River  
401-596-7556 or VHF CH 10  
Apr-Oct 7am-6pm; pumpout
- 2 Avondale Boat Yard Inc.  
Pawcatuck River  
401-348-8187 or VHF CH 9  
Apr-Oct 8am-5pm; \$7.50-pumpout

#### STONINGTON, CONNECTICUT

- 3 Norwest Marine  
Pawcatuck River  
860-599-2442 or VHF CH 68  
Apr-Nov 24/7; \$5-pumpout (need token)
- 4 Dodson Boatyard  
Stonington Harbor  
860-535-1507 or VHF CH 78  
May 15-Sept 15 8am-9pm  
Sept 16-Nov 15 8am-7pm  
\$5-pumpout, free with fuel purchase
- 5 Mystic River Marina  
Mystic Harbor  
860-536-3123 or VHF CH 68  
May 1- Nov 1 8am-5pm;  
\$5-pumpout
- 6 Mystic Shipyard East  
Mystic Harbor  
860-536-4882 (no VHF CH)  
May-Oct 24/7  
Free pumpout
- 7 Brewer Yacht Yard at Mystic  
Mystic Harbor  
860-536-2293 or VHF CH 9  
May-Nov 1 (staffed) Sun-Th 8am-5pm  
Fri & Sat 8am-8pm self-service  
after hours

- 8 Mystic Seaport  
Mystic River  
860-572-0711 or VHF CH 68  
Jul-Aug 8am-7pm; May-Jun, Sept-Oct 8am-4pm; Free pumpout

#### GROTON

- 9 Mystic Shipyard, LLC  
Mystic Harbor  
860-536-6588 or VHF CH 9, 68  
Apr-Nov 8am-7pm  
Free pumpout
- 10 Noank Village Boatyard  
Mystic Harbor  
860-536-1770 or VHF CH 72  
May - Jan 1, 8am-4:30pm to  
purchase token; 24/7 with token  
\$5-pumpout (self-service)
- 11 Noank Shipyard  
Mystic Harbor  
860-536-9651 or VHF CH 9  
Apr-Nov 8am-8pm  
\$5-pumpout, free for customers

- 12 Spicer's Noank Marina  
West Cove, Noank  
Apr-Nov call for availability  
860-536-4978 or VHF CH 68  
free at dock

- 13 Shennecossett Yacht Club  
Pine Island Bay  
860-445-9854 or VHF CH 68  
May-Oct: 8am - 8pm, M-Su  
Free pumpout (self-service)
- 14 City of Groton,  
Wastewater Treatment Facility  
Thames River  
860-446-4086 or VHF CH 72  
May 1- Oct 31; M-F 7am-7pm;  
Sa-Su 7am-3pm  
Free pumpout

#### NORWICH

- 15 The Marina at American Wharf  
Thames River, Norwich Harbor  
860-886-6363 or VHF CH 68  
Apr-Oct 15 8am-8pm  
\$5-pumpout
- 16 Crocker's Boatyard, Inc.  
Shaw's Cove  
860-443-6304 or VHF CH 9  
Apr-Nov 8am-4:30pm  
Free with fuel
- 17 Thamesport Marina  
Thames River  
860-437-7022 or VHF CH 9  
Apr 15-Oct 9am-5pm  
\$5-pumpout, free for customers

#### EAST LYME

- 18 Port Niantic Marina  
Niantic River  
860-739-2155 or VHF CH 10  
May 1-Oct 31, 7 days, 8am-4:30pm;  
Apr, Nov, Dec, M-F 8am-4:30pm;  
\$5-pumpout

- 19 Niantic Dockominium Association  
Niantic River  
203-624-7911 or VHF CH 16  
May - Oct; 24/7  
Free pumpout

#### OLD LYME

- 20 CT DEEP Marine Headquarters  
Connecticut River  
860-434-8638 (no VHF CH)  
Memorial Day–last Sun in Oct  
10am-5pm; Free pumpout

#### LYME

- 21 Reynolds' Garage & Marine  
Hamburg Cove  
860-434-0028 (no VHF CH)  
May-Nov, M-F 8am-5pm Sat 9am-4pm;  
\$5-pumpout

#### PORLTAND

- 22 Yankee Boat Yard & Marina  
Connecticut River  
860-342-4735 or VHF CH 68  
Apr-Nov 8am-6pm; free pumpout
- 23 Portland Boatworks  
Connecticut River  
860-342-1085 or VHF CH 9  
May-Nov 8am-4:30pm; \$5 pumpout

By following clean boating practices, we can help improve the quality in Connecticut's waters for swimming, shellfishing, and the enjoyment of our fellow boaters. For more information about pumpouts, call the Office of Long Island Sound Programs at 860-424-3034 or the Boating Division at 860-434-8638.

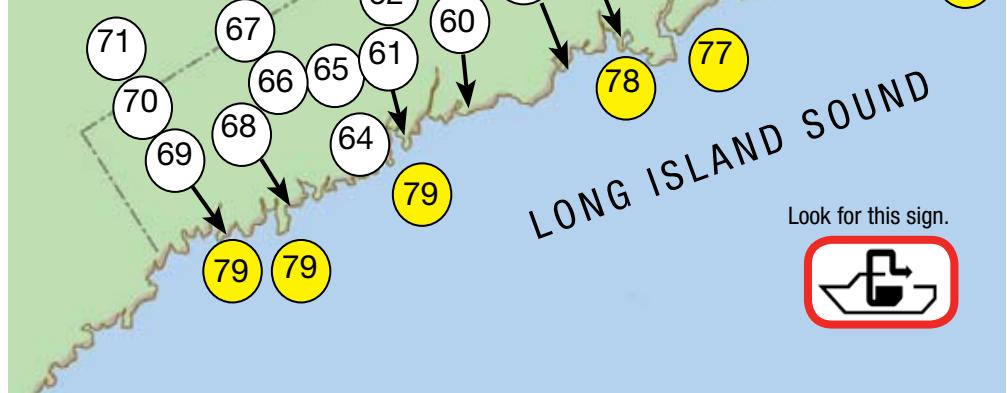

● Pumpout boat

#### NEW LONDON

- 16 Crocker's Boatyard, Inc.  
Shaw's Cove  
860-443-6304 or VHF CH 9  
Apr-Nov 8am-4:30pm  
Free with fuel
- 17 Thamesport Marina  
Thames River  
860-437-7022 or VHF CH 9  
Apr 15-Oct 9am-5pm  
\$5-pumpout, free for customers

\$5-pumpout

# ENVIRONMENTAL AWARENESS

## CHESTER

- **28** Chrisholm Marina  
Connecticut River  
860-526-5147 or VHF CH 9  
Apr 1-Oct 31 24/7; Free at dock
- **29** Hays Haven Marina  
Connecticut River  
860-526-9366 (no VHF CH)  
May 1-Nov 8am-5pm  
Free pumpout/dump station

## DEEP RIVER

- **30** Brewer Deep River Marina  
Connecticut River  
860-526-5560 or VHF CH 9  
May-Oct, M-F 8am-4:30pm; Sa-Su 8am-5pm  
\$5 pumpout/free with fuel

## ESSEX

- **31** Brewer Dauntless Shipyard  
Connecticut River  
860-767-0001 or VHF CH 9  
Apr 15-Nov 30; 7 days; 8am-5pm  
Free pumpout
- **32** Brewer Dauntless Marina  
(formerly The Chandlery)  
Connecticut River  
860-767-8267 or VHF CH 68  
Memorial Day-Labor 8am-8pm  
Labor Day-Nov 15 8am-6pm  
\$5 pumpout for non-members

## OLD SAYBROOK

- **33** Ragged Rock  
Connecticut River  
860-388-1049 or VHF CH 9, Apr-Nov,  
9am-4pm, 7 days; \$5-pumpout
- **34** Saybrook Point Marina  
Connecticut River  
860-395-3080 or VHF CH 9  
May-Oct 8am-dusk; Free pumpout
- **35** Brewers Ferry Point Marina  
Connecticut River  
860-388-3260 or VHF 9  
Apr-Nov M-F 8am - 5pm, Sat 8am -  
12pm; Free pumpout/dump station

## WESTBROOK

- **36** Harry's Marine Repair  
Westbrook Harbor, Patchogue River  
860-399-6165 (no VHF CH)  
Apr-Oct 8am-4pm  
\$5 pumpout; free dump station
- **37** Brewer Pilots Point Marina Inc. (South  
& Pumpout Boat)  
Westbrook Harbor  
860-399-7906 or VHF CH 9  
May-Oct 7am-9pm; Free pumpout/dump  
station (self-service after hours);  
\$5 Pumpout Boat
- **38** Brewer Pilots Point Marina Inc. (North & East)  
Menunketesuck River, Westbrook Harbor  
860-399-5128 or VHF CH 9  
May-Oct 24/7  
Free self-service pumpout/dump station

## CLINTON

- **39** Cedar Island Marina Inc.  
Clinton Harbor  
860-669-8681 or VHF CH 9  
May-Thanksgiving; 24/7  
Free pumpout (self-service)

- **40** Clinton Yacht Haven  
Clinton Harbor  
860-669-7254 (no VHF CH)  
Apr - Dec 1; 24/7  
Free pumpout (self-service)

- **41** Riverside Basin Marina  
Hammonasset River  
860-669-1503 or VHF CH 16  
yr. round (weather permitting)  
Free pumpout/dump station

## GUILFORD

- **42** Guilford Yacht Club  
West River  
203-458-3048 or VHF CH 71  
May 1-Oct 31; 9am-6pm; 7 days  
\$5-pumpout, free for members

## BRANFORD

- **43** Brewer's Bruce & Johnson's  
Branford River  
203-488-8329 or VHF CH 9  
Apr-Nov 8am-4:30pm  
\$5-pumpout, free for customers
- **44** Branford Yacht Club  
Branford River  
203-488-9798 (no VHF CH)  
Apr-Nov 15 Fri-Sun 8am-7:30pm,  
Mon-Thu 8am-4:30pm;  
\$5-pumpout, free with fuel

## NEW HAVEN

- **45** Waucoma Yacht Club  
Quinnipiac River, New Haven Harbor

get more information, visit the CVA website

**B**oating laws and regulations are enacted primarily to protect today's boater. Stay abreast of new rules and regulations; they may change yearly.

### Enforcement

Several law enforcement agencies enforce Connecticut's state statutes and regulations and federal navigational laws. The United States Coast Guard patrols federal waters and enforces federal laws. Municipal police officers, state conservation police officers, town marine officers, lake patrolmen and POST-certified harbormasters are empowered to enforce state boating regulations. In their jurisdiction, enforcement officers have authority to stop and board boats to check for compliance with federal or state law or to search without warrant, upon probable cause that other laws have been violated.

Law enforcement vessels engaged in enforcement activities may display a flashing blue light or audible signal. No flashing lights, except flashing yellow lights on high speed ferries, submarines and air cushion vessels and alternating flashing, yellow and red lights on vessels used for public safety activities, may be displayed by vessels other than law enforcement vessels. No sirens shall be used on vessels other than law enforcement vessels, except that any vessel may be equipped with a theft alarm if it is designed so that it cannot be used as an ordinary warning signal.

If approached by a law enforcement or fire rescue vessel using its lights and audible signal, a vessel operator is required to (1) immediately slow to a speed just sufficient to maintain steerage only; (2) alter course within its ability to not inhibit or interfere with the law enforcement or fire rescue vessel; and (3) unless otherwise directed by an officer onboard such vessels, proceed at a reduced speed until beyond the area of operation of the law enforcement or fire rescue vessel. If someone willfully or negligently obstructs or retards a law enforcement or fire rescue vessel answering an emergency call or pursuing a fleeing law violator, the offender shall be fined up to \$200 or imprisoned for up to seven days, or both.

If a vessel operator passes within 200 feet of a stationary law enforcement vessel using its lights and audible signal or a fire rescue vessel using its lights, the vessel operator is required to slow the operator's vessel to "slow-no-wake" speed until it is more than 200 feet away from the law

# Boating Regulations

# BOATING REGULATIONS

enforcement or fire rescue vessel. If someone fails to slow as required, the offender shall be subject to a fine of between \$50 to \$200.

## Definitions of Terms

The following definitions will prove useful in understanding the rules and regulations related to boating.

**Regulated Navigational Area.** Water area within a defined boundary for which regulations for vessels navigating within the area have been established under 33 CFR Part 165.

**Restricted Visibility.** Conditions in which visibility is restricted by fog, mist, falling snow, heavy rainstorms, sandstorms or any other similar causes.

**Safety Zone.** A water area, shore area, or water and shore area to which, for safety or environmental purposes, access is limited to authorized persons, vehicles or vessels. The Commissioner of the Department of Energy & Environmental Protection is authorized to create temporary safety zones for a period not to exceed 72 consecutive hours, unless an emergency warrants otherwise.

**Security Zone.** An area of land, water, or land and water, which is designated under 33 CFR Part 165 by the United States Coast Guard for such time as is necessary to prevent injury or damage to the area or to secure the observance of the rights and obligations of the United States.

**Slow-No-Wake.** A vessel shall not produce more than a minimum wake and shall not attain speeds greater than 6 miles per hour over the ground unless a higher minimum speed is necessary to maintain steerageway when traveling with a strong current. In no case shall the wake produced by the vessel be such that it creates a danger or injury to persons, or will damage vessels or structures of any kind.

## STATE AND FEDERAL WATERS

- **Federal Waters** Navigable waters of the United States, as defined by 33 CFR 2.36(a), within the territorial limits of the state.

- **State Waters** All waters within the territorial limits of the state except federal waters.

- **Waters of state** All waters, including federal waters, within the territorial limits of the state.

- **Underway.** When a vessel is not moored, anchored, made fast to the shore, or aground.

## Restricted Safety and Security Zones

No person shall operate, allow the operation of a vessel, or anchor any vessel on the waters of the state within a safety or security zone or a regulated navigational area.

## Restricted Operating Distances and Speed Areas

No person shall operate a vessel or cause a water-skier to pass within one hundred feet of a flag, buoy or other device, marking the location of an underwater swimmer or diver.

No person shall operate a motorboat, excluding a personal watercraft, at a speed in excess of Slow-No-Wake within 100 feet of shore, or a dock, pier, float or anchored or moored vessel, unless taking off or landing a water-skier.

No person shall operate a personal watercraft, at a speed in excess of Slow-No-Wake within 200 feet of shore, or a dock, pier, float or anchored or moored vessel, unless taking off or landing a water-skier.

When within 100 feet of buoys marking a restricted swimming area or boat access area, vessels shall be operated at Slow-No-Wake.

## Speed Regulations

When no limits are posted, operate the boat so it will not endanger others. The boat must be able to stop safely within the clear distance ahead. When passing near marinas, fishing areas, swimming areas, a vessel at anchor, or similar places, reduce speed. Operators are responsible for damage caused by their wakes.

In Connecticut, speed is limited by law for certain conditions and areas. Comply with posted regulatory signs and the regulations printed within this chapter.

Every vessel must, under crowded conditions or in reduced visibility, go at a moderate speed with careful regard for existing circumstances and conditions. Actions such as speeding in confined or restricted areas or skiing at prohibited times or in restricted areas can also be construed as reckless or negligent operation.

## Reckless Operation

Reckless operation is the failure to exercise the degree of care necessary to prevent endangering another person or their property.

## Age Restrictions

No person under age 16, issued a Certificate of Personal

Watercraft Operation (CPWO) after 3/9/04 or a certificate approved by the Commissioner, shall operate a personal watercraft without the onboard supervision of a person at least age 18 who has a CPWO. Operators between ages 12-16, issued a Connecticut CPWO on or before 3/9/04, may operate a personal watercraft by themselves, although the DEEP recommends that a person 18 years or older who has a certificate accompany them.

A child under the age of 16 may be permitted to operate a vessel, other than a personal watercraft, without obtaining a SBC or CPWO, if the youth is under the direct supervision of a person at least age 18 who has had a boating certificate for at least 2 years.

A child under the age of 12 who has obtained a SBC or CPWO may not operate a vessel with greater than 10 hp, unless the youth is accompanied on board by a person at least age 18 who has been issued a safe boating certificate.

Owners who knowingly permit an underage child to operate their vessel without a SBC or CPWO when one is required will be held accountable for the actions of the child.

## **Hazardous Conditions**

Enforcement officers can terminate a voyage and require the operator to return to the nearest mooring if they discover a hazardous condition. The operator must then correct this condition before proceeding on his way.

## **Mooring to Buoys**

The only buoys you are permitted to moor to are mooring buoys. Mooring to a navigation buoy or other aid to navigation or regulatory marker is illegal.

## **Overloading**

Never overload your boat with passengers or cargo beyond its safe carrying capacity. Capacity labels are required on all vessels less than 20 feet manufactured after 1972, and are affixed by the manufacturer. Connecticut law forbids altering, defacing or removing the plate.

## **Riding on Decks or Gunwales**

While underway in a vessel under power, do not ride on the bow, gunwale, transom, or in any position which is obviously dangerous. Riding on or hanging over the bow can interfere with stability and may restrict the operator's visibility. No operator of a vessel under power shall allow any person to be on a decked-over bow of such vessel while underway unless the bow of the vessel is equipped with a handrail that encompasses the bow, and all persons on the bow are inward of such handrail. On vessels under power with open bows not decked-over, no

operator shall allow any person to sit or stand on the gunwale at the bow of the vessel while underway. These provisions shall not apply to persons in or on the bow of vessels engaged in anchoring, mooring, or docking activities, and when the vessel is proceeding at a dead slow speed.

## **Diving and Underwater Operations**

In Connecticut, anyone involved in underwater swimming or diving is required to display a clearly visible red flag with a white diagonal stripe. The flag must be two-sided, not less than 13 inches high and 15 inches long. The white diagonal stripe must be reflectorized if the flag is to be used at night. It is extremely dangerous and a violation of the law for a diver to surface or swim more than 50 feet from this flag. No more than four divers may use the same diver flag unless it is displayed from a boat, in which case the number of divers must be limited to the legal capacity of the boat.

The blue/white ALPHA flag is also used to show underwater operations from a vessel in federal waters. It may be used in addition to the state's diver down flag. It is illegal to snorkel or SCUBA dive from a state boat launch. Boaters must not come within 100 ft. of the dive flag.

## **Water-skiing, Parasailing and Wing-In-Ground (WIG) Vessel**

Water-skiing includes the towing of any person behind a vessel under power, such as water-skiing, tubing, wakeboarding, wakesurfing, etc.

In Connecticut, water-skiers are required by law to wear a U.S. Coast Guard approved personal flotation device (life jacket) while engaged in water-skiing, except for those skiers who are engaged in barefoot water-skiing and are wearing a specifically designed "barefoot wetsuit" and those skiers who are engaged in trick water-skiing and are wearing standard double trick skis at least 8 inches wide and not over 46 inches long, and being towed at not more than 20 mph using a tow rope longer than 50 feet long.

A life jacket must be made readily available aboard the tow vessel for each skier electing not to wear one under the above exceptions, in addition to those life jackets normally required to be aboard. Ski belts and inflatable life jackets are not permitted.

The operator of the boat is required to have a responsible observer at least 12 years of age facing the skier to assist the operator and monitor the progress of the water-skier. The water-skier, the observer, and the boat operator shall use hand signals

# BOATING REGULATIONS

for communication. The maximum length of a towline measured from the tow post to the water-skier's tow handle is 100 feet. No elastic component may be part of the towline. Except when the vessel is engaged in towing a water-skier and at least one person onboard the vessel is using it for training purposes, the rigid metal tow pole, often used for barefoot skiing, may either be removed from the boat or must be dismantled or folded and placed inside of the gunwale and parallel to the center line of the boat.

The operator of the vessel and the water-skier are responsible for operating in a manner which does not harm or strike another person or vessel. Water-skiing is forbidden between 1/2 hour after sunset until sunrise or when visibility is restricted to less than 100 yards.

Operation of a vessel at a speed in excess of Slow-No-Wake within 100 feet of shore, or 200 feet for personal watercraft, is illegal. Therefore, water-skiing in a narrow channel or river less than 200 feet wide or 400 feet for personal watercraft is a violation.

Towing of a person or persons on an inner tube without handholds is prohibited.

Kite-skiing and parasailing are prohibited anywhere water-skiing is prohibited or subject to special regulations. Kite-skiers and parasailers shall not fly over or under obstructions such as utility lines and bridges; nor shall they fly over dams, locks, docks, launching ramps, swim areas, marinas or congested areas.

All water-ski jumps and slalom courses require a permit. Contact the Boating Division or visit our website for information.

Self-propelled water-skis and surfboards, and remote control devices which tow water-skiers, are prohibited in Connecticut.

A wing-in-ground (WIG) effect vessel must be approved by the DEEP before operating recreationally and by the U.S. Coast Guard before operating for commercial or for research purposes.

## TUBING SAFETY TIPS

Tubing is a great water sport. Here are some tips to keep it safe. REMEMBER: Riders do not have the directional control that water skiers have. Take these special precautions to ensure fun:

- Riders are required to wear a USCG approved life jacket
- Follow manufacturer's recommendations – regarding capacity in terms of passenger weight, number of riders, age limits and maximum towing speeds
- Securely fasten the line – use a heavy duty line designed for towing tubes; check condition regularly
- Turn off the engine and count to 10 before allowing a person into the water – the propeller continues to spin after the engine is shut off
- Learn how to balance weight – properly position tubers based on the tube's characteristics; some ride better with weight back, some need tubers to ride belly down
- By law you must have a spotter at least 12 years old to watch for tuber safety – make sure the tuber and the spotter understand and communicate hand signals; listen to the tuber; use the spotter – the boat operator should not be watching the tuber
- Know the area ahead of time – maintain a safe distance between the tube and other boats, piers and floating platforms
- Use caution when making turns – tube speed increases during a turn and riders can fall off or be thrown; never have the tuber on the inside of a turn; plan ahead of the turn to make sure tube will have room to safely pass other boats or docks
- Slow the boat speed when needed - when crossing wakes to avoid back injuries; when pulling more than one tube (and be extra vigilant)
- Approach with caution on the operator side of the boat into the wind or current – then turn the engine off
- Never back up to a person or allow them to use the propeller to re-board
- Make sure the vessel operator, spotter and tubers are alert and sober
- Securely stow all gear and tube – at the end of the day before throttling up; never have the spotter coil the line for tube if the boat is in gear and the tube is still in the water or has any chance of flying out of the boat

## Personal Watercraft Restrictions

Personal Watercraft are subject to the following operation restrictions (for age restrictions, see page 30):

- No person shall operate a personal watercraft between sunset and sunrise or during periods of reduced visibility.

- No passenger shall ride in front of the operator on a personal watercraft.

- No passenger shall ride upon a personal watercraft unless the passenger is able to securely hold onto the person in front of them or to the handholds on the personal watercraft, and is able to keep both feet on the deck of the personal watercraft so as to maintain balance while the personal watercraft is in operation.

- All persons aboard a personal watercraft shall wear a United States Coast Guard approved Type I, II, III or V personal flotation device, and no operator of a personal watercraft shall allow any person to be aboard who is not wearing such a device. Inflatable life jackets are not allowed.

- No person shall operate a personal watercraft at a speed in excess of Slow-No-Wake within two hundred feet of shore or of a dock, pier, float or anchored or moored vessel, unless said personal watercraft is approaching such float, dock or shore for the purpose of enabling a person engaged in water-skiing to take off or land.

- No person shall operate a personal watercraft towing a water-skier and no person shall water-ski while being towed by a personal watercraft unless: (1) a capacity label affixed by the manufacturer indicates a carrying capacity of at least three persons: the operator, the observer and the skier, (2) minimum overall length of 119 inches, minimum overall width of 46 inches, minimum horizontal seat length of 39 inches [at least 13 inches additional seat length per person for greater than three person capacity], (3) handholds at or near the rear of the seat suitable for use by a rearward-facing observer, and (4) an observer age 12 or older facing the skier at all times. The boat operator, observer and water-skier must obey all other water-ski rules.

- No person operating a personal watercraft shall cross or jump the wake of another vessel, when within one hundred feet of the vessel creating such wake, in such a manner that the hull of the personal watercraft jumping the wake completely leaves the water.

- A "shut-off lanyard," if so equipped, must be attached to the operator, his clothing, or his personal flotation device in a manner which will shut off the engine in the event the operator is ejected from the personal watercraft while underway.

## Marine Event Permits

On state waters; all marine parades, regattas, races, tournaments, fireworks over water, exhibitions, or other activities requiring exclusive use of a portion of a water body, use of a state boat launch, or modification or suspension of any laws or regulations require a permit issued by the DEEP. Applications must be received by the DEEP Boating Division at least 45 days prior to the event. Go to the DEEP website at [http://www.ct.gov/deep/cwp/view.asp?a=2686&q=322286&deepNav\\_GID=1620](http://www.ct.gov/deep/cwp/view.asp?a=2686&q=322286&deepNav_GID=1620) for details.

NOTE: If your event is on tidal waters, contact the U.S.C.G. website at <http://www.uscg.mil/D1/sectLIS/public/MarineEvent.asp> for details.

# BOATING REGULATIONS

## Marker (Buoy or Beacon) Permits

All markers (buoys or beacons) other than a diver's flag require a permit from the DEEP. This includes markers placed for swim areas, speed zones, navigation, information, and water ski courses or jumps. Go to the DEEP website at [www.ct.gov/deep/boating](http://www.ct.gov/deep/boating) for details.

## Boating Under the Influence (BUI)

No person may operate a boat while under the influence of alcohol or drugs.

A person shall be considered to be under the influence of intoxicating liquor if the ratio of alcohol in the blood is 8-hundredths (.08) of one percent or more of alcohol, by weight, or if the person is under 21 years of age, the level is .02. The penalty for a first violation may be: a fine between \$500 and

\$1,000; one year suspension of boating privileges, 6 months (at least 48 hours of which cannot be suspended or reduced) in jail or suspended plus probation requiring 100 hours community service.

The penalty for a second violation within ten years may be: a fine between \$1,000 and \$4,000; three years suspension of boating privileges, two years (at least 120 days of which cannot be suspended or reduced) in jail and probation requiring 100 hours of community service.

The penalty for a third violation and subsequent violations within ten years may be: a fine between \$2,000 and \$8,000, suspension of boating privileges for life, three years (at least 1 year of which cannot be suspended or reduced) in jail and probation requiring 100 hours of community service. Penalties for refusal to submit to a chemical test are more substantial than failing the test.

## Boating Accidents and Reporting

All operators of vessels involved in an accident must remain at the scene and assist any other vessel or person involved, if possible, without endangering their own vessel or the people aboard. The operator must also give his/her name, address and vessel identification number to the other operator(s) or owner of the damaged property.

Operators involved in a boating accident which results in any of the circumstances noted below shall immediately notify the nearest law enforcement agency with jurisdiction in the area and, not later than 48 hours after the accident, report the matter on a form provided by the Department of Energy & Environmental Protection, (DEEP) Boating Division.

1. The death of any person from whatever cause.
2. The disappearance of any person from on board.
3. The injury of any person sufficient to require medical attention beyond simple first aid.

Any accident in which the total damages to all property affected is in excess of \$500 must be reported by the operator not later than 5 days after the accident on forms provided by the DEEP. The form can be downloaded by visiting the DEEP website: [www.ct.gov/deep/boating](http://www.ct.gov/deep/boating).

The operator of the vessel must make out the report, if they cannot do so, the owner or a survivor of the accident must initiate the report. (Page 35)

**REMEMBER:** The liver removes the equivalent of one ounce of 80 proof alcohol per hour. One ounce of 80 proof alcohol, 12 ounces of beer, or 6 ounces of table wine all have the same effect on the body. As a professional bartender, you **MUST** know your state's Blood Alcohol Content laws!

All states have set their BAC to .08% as federally mandated.

**DISCLAIMER:** Counting drinks is an accepted method of determining a customer's BAC level. The server of alcohol **MUST** make a judgement based on counting drinks, as well as observing the customers behavior and appearance. The above chart will not be accurate if a customer has consumed alcohol prior to your serving them, or if the alcohol is not measured accurately. Professional Bartending Schools of America has developed the above chart as a guideline to help in determining the customers BAC level. The server of alcohol assumes all liability for their decisions in the serving alcohol. Professional Bartending Schools of America accepts no liability for any server's decision based on use of the above chart.

# BOATING ACCIDENT REPORT

PREVIOUS EDITIONS ARE OBSOLETE

Revised 6/2013

## SEND TO:

POLICE DEPARTMENT NAME AND CASE NO. (If any)

## STATE OF CONNECTICUT DEPARTMENT OF ENERGY & ENVIRONMENTAL PROTECTION BUREAU OF OUTDOOR RECREATION

### BOATING DIVISION

P.O. BOX 280, OLD LYME CT 06371-0280  
(860) 434-8638 or FAX (860) 434-3501

The operator of a vessel used for recreational purposes is required to file a report in writing within 48 hours whenever an accident results in loss of life, disappearance from a vessel or injury which requires medical attention beyond first aid. If total damage to all property is in excess of \$500, a report must be filed within 5 days. Reports shall be submitted to the commissioner of Energy and Environmental Protection at the above address. If the operator is unable to report the accident, the boat owner or survivor of the accident should prepare the report. Any person violating these requirements is subject to the penalties prescribed by law.

# BOATING REGULATIONS

## Boat Disposal

If you are the registered owner and have documentation to show this, then you can simply dispose of the boat. CGS Sec. 15-147 requires that you notify the DMV within 15 days of transfer, destruction, theft, loss or abandonment.

Below are some organizations that accept donated boats. You are encouraged to look online for additional organizations

- **Boats with Causes: 1-888-228-7320**  
[www.boatswithcauses.org/ct-boat-donation.htm](http://www.boatswithcauses.org/ct-boat-donation.htm)
- **Teddy Bear Cops: 1-877-327-1229**  
[www.givecars.com/charity-boat-donation.html](http://www.givecars.com/charity-boat-donation.html)

- **Boat Angel: 1-800-227-2643**  
[www.boatangel.org](http://www.boatangel.org)
- **Boats4Causes: 1-888-444-2392**  
[www.cars4causes.net/boat-donation-new](http://www.cars4causes.net/boat-donation-new)
- **BOATS for Veterans: 1-800-409-3274**  
[www.donate-your-boat.org](http://www.donate-your-boat.org)
- **American Lung Association: 1-800-LUNGUSA**  
[www.lungusa.org/associations/charters/new-england/donate](http://www.lungusa.org/associations/charters/new-england/donate)
- **Maritime Education Network: 860-227-0581**  
[maritimeeducation.org](http://maritimeeducation.org) • [maritime-edu@juno.com](mailto:maritime-edu@juno.com)

If you wish to dispose of your vessel at your local transfer station, contact them first to see if they accept vessels. Some require that the vessels be cut into pieces and have all liquids removed. Please properly dispose of all liquids.

If you encounter an abandoned boat, see the guidance on the DEEP - Boating Division website.

A vessel under contract left on commercial property cannot be transferred or disposed of directly unless a lien has been filed with the Secretary of the State. If you have any questions, call the Boating Division or the Secretary of the State's office.

**Violation of other statutes not listed here  
may require a court appearance.  
Consult the statutes or applicable penalties.**

			26-16-1	Prohibited acts at boat launches	75.00	
			26-19	Operation of motorboat in Bantam River	50.00	
			26-21	Defacing, obliterating or destroying posted notice	87.00	

## Boating Education Assistant Program

In 2003, the state stopped charging boaters to park at boat launches after finding it was not cost effective. The Boating Division, instead, invested its resources to provide a valuable service known as the Boating Education Assistant Program.

## Boating Education Assistants (BEA) perform the following duties:

- Conduct Vessel Safety Checks;
- Show boaters how to prevent the spread of invasive

species;

- Discuss clean boating techniques;
- Encourage boaters to pledge to be Clean Boaters;
- Assist with parking;
- Help keep the launches clean; and
- Provide a friendly face at the launch.

If you encounter one of our BEAs, take them up on their offer for a safety inspection - it could save your life. Pledge to be a Clean Boater and receive a free spill kit. To schedule a safety check, call Gwendolynn Flynn at 860-434-8638.

## Ahoy anglers...

**Do you know?...It is illegal to cast into a permitted swim area. It comes with a \$75 fine.**

## Help stop the spread of invasive species, become a volunteer ramp monitor

The DEEP Boating Division is recruiting volunteers to participate in our Invasive Investigator Program in an effort to keep our waters clean and stop the spread of aquatic weeds and animals into the lakes and rivers of Connecticut. Volunteers are needed to work at their local boat ramps to educate boaters on how to find aquatic invasives on their boats and steps to clean and prevent any unintentional spread of these hitchhikers.

All ramp monitors will receive training to recognize local invasive species, learn how to conduct a voluntary inspection and provide instructions regarding data collection. Volunteers will be under the local supervision of the lake or pond organization with whom they register and training will be held locally. For more information, contact Gwendolynn Flynn, Invasive Investigator Program Coordinator at 860-447-4339 or email: [gwendolynn.flynn@ct.gov](mailto:gwendolynn.flynn@ct.gov).

Help DEEP protect Connecticut's waters!

## LOCAL REGULATIONS & ACCESS

### Transient Boater/Tie-Up Available

Finding a place to dock for the evening in coastal Connecticut has gotten easier! The Department of Energy & Environmental Protection (DEEP), through US Fish and Wildlife Service's Boating Infrastructure Grant (BIG) Program, is providing grants to municipalities and private facility owners for transient tie-up opportunities for recreational boats 26 feet and larger. Congress created this program recognizing that infrastructure for large boats was not being addressed with funds generated by Federal excise tax on fishing equipment, trolling motors, import duties on boats and motorboat fuels.

The tax from motorboat fuels is a significant portion of the funds collected under the Sport Fish Restoration and Boating Trust Fund and is now available to transient boaters under this user pay-user benefit program.

Six projects are complete: moorings in Norwalk, New Haven and New London; slips in Chester, New London and Lyme and bathroom facilities and slips in Old Saybrook. Four projects are in the construction phase. See our website for specific locations and more information on the terms of the tie-up. Contact Gwendolynn Flynn at the DEEP Boating Division for program information.

# Brewer Yacht Yards

## *...Something for Everyone*

The Brewer Yacht Yard Group encompasses 22 marina locations in 5 states – as well as a yacht brokerage firm with offices in 14 locations, many in Brewer yards or marinas. The average Brewer yacht yard or marina sits on five acres and is home to about 250 slips. Brewer locations – one to the next – are similar in both appearance and attitude, yet each facility maintains qualities unique to its location. A Brewer yard is a quaint facility with cedar-shingled shops, a pool, and a deck at the head of a river. A Brewer yard is an expansive modern property with heated buildings, a picnic area, and state-of-the art equipment situated on the banks of a beautiful bay. A Brewer yard is a family-friendly, recreational fishing port on a quiet estuary. Whether in New York, Maine, or somewhere in between, there's a Brewer location for everyone! Small boat owners. Wooden boat owners. Mega yacht captains. Gunkholers. Circumnavigators. Sport fishermen. Commercial fishermen. Round-the-can racers. Ocean goers. Brewer Yacht Yards and Marinas come in all shapes and sizes.

"I think many Brewer yards fit or follow the personality of the managers, and the custom of the area," says Doug Domenie, General Manager of Brewer Dauntless Shipyard & Marina. "Boat owners will find certain service and facilities standards at any Brewer yard, but the personalities of the managers and staff can really individualize the experience."

When Brewer Yacht Yards began 50 years ago the focus was on quality yacht service. With time, the Brewer experience grew to encompass creature comforts, with added emphasis on appearance and amenities. This helped to attract not just avid boaters, but their families too. With a commitment to reinvesting in each of its properties, the Brewer family of yards and marinas grew steadily, acquiring a yard almost every other year. The group kept advancing

service capabilities through equipment acquisitions, technical training, and certifications, never losing sight of the desire to improve facilities for both staff and members alike. Today, Brewer Yacht Yards is building on these efforts, with new emphasis on expanding marina activities, thereby adding even more value to being a Brewer customer.

"Brewer yards are all different, but all endeavor to provide outstanding customer service," says Jack Brewer, Founder and CEO.

During the 2013 season, to better meet the needs of boaters, Brewer offered members a variety of programs. These included: rendezvous events for cruisers; picnics for families; seamanship seminars; classes just for women; evening concerts; morning coffees; charitable events; mechanical seminars; fishing tournaments; and race preparation seminars...just to name a few.

By reaching out to customers and bringing slip neighbors together, boaters share their knowledge, learn from each others' experiences, get to know one another better and, ultimately, further strengthen the Brewer community, combining quality service with fun for all.

**Visit all 22 Brewer Yacht Yards locations, from New York to Maine. See us online at [byy.com](http://byy.com)**

# LOCAL REGULATIONS & ACCESS

Regulations are in force throughout the year, unless otherwise noted. Regulatory markers may be placed seasonally by the DEEP and private parties as a reminder, however the regulations are in effect regardless. The following pages contain state regulations, laws and local ordinances affecting boating.

Operate your vessel in a manner so as not to interfere with any other vessels, structures or people. Always have due regard for conditions and circumstances such as weather, current, visibility, water depth, width of channel, proximity to shore, water hazards, vessel traffic and water use.

## Prohibited Activities at Boat Launches

### Sec. 26-16-1 of the Regulations of State Agencies:

At any boating access area which is under the control of the Department of Energy & Environmental Protection and is intended to provide public access, or parking related to such access to streams, lakes, ponds or tidal waters, including Long Island Sound, the following regulations shall apply:

- a. No person shall discard any fish or portion thereof.
- b. No person shall dispose of any litter, as defined in Section 22a-248 of the Connecticut General Statutes, except into a receptacle provided for such purpose, and no person shall dispose at such facility of any litter not generated at such access area.
- c. No person shall wash or clean any vehicle except a boat trailer. A vessel or boat trailer may be cleaned only with plain water. No person shall use any detergent or chemical agent to clean a vessel or boat trailer.
- d. No person shall park a vehicle except in an area designated by the Commissioner for parking.
- e. No person shall kindle a fire.
- f. No person shall engage in camping.
- g. No person shall engage in disorderly conduct.
- h. No person shall damage any building, equipment, poster or vegetation.
- i. No person shall use any such facility for purposes other than:
  1. fishing, where permitted;
  2. parking where permitted for the purpose of fishing, boating, hunting, or observing wildlife;
  3. launching of boats or;
  4. the observation of wildlife from constructed observation decks.

j. No person shall use any such facility for any purpose when it is posted closed by the Commissioner.

k. No person shall tie up, moor or anchor a vessel in a manner that may obstruct or interfere with the launching of any other vessel except when actively launching or retrieving a vessel.

l. No person shall leave any vessel unattended in the water or on land, or tied to any state dock or pier.

m. No person shall moor or anchor a vessel or leave a vessel on land at any such facility.

n. No person shall engage in any commercial activity at such facility unless so authorized by the DEEP.

o. No person shall erect or post any notice or sign unless authorized in writing by the Commissioner.

p. No person shall consume any alcoholic liquor. "Alcoholic liquor," as used in this subsection, shall have the same definition as in section 30-1 of the Connecticut General Statutes.

q. No person shall engage in sport fishing from the courtesy docks or from the ramp surface when said sport fishing interferes with boating activities. "Courtesy docks" means, in this subsection, floating or non-floating platforms that are located adjacent to a launch ramp for use by boaters to facilitate the loading or unloading of boats.

r. No person shall engage in bathing, swimming, snorkeling or SCUBA diving.

## Local Regulations and Public Boat Launches

**NOTE:** Floating docks, where provided, will be installed no later than April 15th and the removal process will begin no earlier than November 15th, weather conditions and water levels permitting. Unless otherwise noted, the boat launches are open 24 hours a day, seven days a week. Boat Launch photos and additional information is available at:

<http://www.depdata.ct.gov/maps/boating/boatingmap.htm>

**NOTE:** State boat launches are not plowed.

In addition, when a state boat launch parking lot is full, the launch is closed and the additional launching/retrieval of vessels may not be allowed.

# LOCAL REGULATIONS & ACCESS

## TIDAL WATERS (Listed by Town)

### Branford - Branford River

#### 38 Goodsell Point Road, Branford

**Regulations:** Stony Creek, 6 mph in the established channel from the reef extension of Linden Point northward. Branford Harbor, Slow-No-Wake in all waters north of the line from Indian Neck Point to Lovers Island. All tidal marshes, marsh channels and estuaries, slow-no wake. All shores, 6 mph within 100 yards of any shore. **Launch:** Turn south off Rte. 1 onto Rte. 142 (Short Beach Rd.), then left on Stannard Ave. to Goodsell Point Rd. Crowded on weekends, steep ramp. Parking: 50 cars.

### Bridgeport - Seaside Park

**Regulations:** Bridgeport Harbor Breakwater to point between Tongue Point and Pleasure Beach Pier: 12 mph. From that point to inner harbor including Johnson's Creek, Yellow Mill River and Poquonock River: 5 mph and no wake. Entrance to Black Rock Harbor at Green Can 19 to head of Cedar Creek Channel and Burr Creek: 5 mph and no wake.

**Launch:** Located in Seaside Park. I-95 South, Exit 27, continue straight onto South Ave. At end of South Ave., turn left onto Barnum Dyke. Turn right at Waldemere Ave. into park. Bear right at the monument, launch is at the end. I-95 North, Exit 26, go straight onto Admiral Street. Turn right onto Iranistan Ave., then next right onto South Avenue. (Follow directions above.) Launch is owned and operated by the City of Bridgeport. Park is open 9:00 a.m. to sunset, \$5 fee for non-city residents. Parking: 60 cars.

### Bridgeport - Brewster St.

**Launch:** I-95 South, Exit 25, left on Fairfield Avenue. Turn left onto Ellsworth Ave., left onto Brewster Street. Launch is on the right. I-95 North, Exit 26, left at end of ramp. Take next left onto Cherry St. to Fairfield Ave. (Follow directions as above.) Launch is owned and operated by the City of Bridgeport. Parking: 5 cars.

### Bridgeport - Newfield Ave.

**Launch:** I-95 North, Exit 29, east on Stratford Ave., right onto Newfield Avenue. Launch is at the end. Launch is owned and operated by the City of Bridgeport. Parking: 4 cars.

### Chester

**Regulations:** Chester Creek - Steerage speed; no anchoring which obstructs channels or fairways. No water-skiing in designated anchorages and mooring areas. No unattended rafting of more than two vessels in Harbor Management Area.

### Clinton

**Regulations:** Slow-No-Wake/6 mph speed limit on the Hammock River, Hammonasset River to Can #11, Indian River from the Rte. 1 bridge to Can #11, and in Clinton Harbor from Can #11 to Can #3. Water-skiing is permitted in the area bounded on the east by the water main to Cedar Island, on the south by the south bank of the Hammonasset River, on the west by the west bank of the Hammonasset River, and on the north by a line 100 feet south of the southerly border of the federal channel of Clinton Harbor until the channel ends, then by the north bank of the Hammonasset River

### Darien

**Regulations:** Greater Darien Harbor including Noroton Bay, Noroton Harbor, Hay Island Harbor, Scott Cove area, Tokeneke Beach area, Five Mile River - 5 mph limit.

### East Haddam - Connecticut River

117E Haddam Moodus Road, East Haddam

**Regulations:** See Old Saybrook-Hartford, Connecticut River.

**Launch:** Located at mouth of Salmon River off Rte. 149, 1.5 miles north of junction with Rte. 82. Access is flooded at times during the spring months. Parking: 60 cars.

### East Lyme

**Launch:** Rte 156. Turn north onto Rope Ferry Road, just west of the Niantic River Bridge. Launch is at the end. Launch is owned and operated by the Town of East Lyme. Parking 80.

### East Lyme

**Regulations:** 6 mph speed limit within: (a) federal navigation channel, (b) 200 ft. of shore-upper Niantic River, (c) Paggansett River Estuary area (see signs), (d) 100 ft. of shore, dock, pier, float or anchored or moored vessel. No obstruction of channels or fairways. Swimming prohibited in channels, water-skiing prohibited in channels/ anchorages, within 200 ft. of shore in upper Niantic River, in Paggansett River restricted speed area, and within 100 ft. of any dock, pier, float or anchored or moored vessel. **Launch:** Located on the Niantic River at Grand St., which is one block north of and parallel to Main St. Launch is owned and operated by the Town of East Lyme.

# LOCAL REGULATIONS & ACCESS

## LAKES, PONDS AND INLAND STREAMS (Listed by Waterbody)

### Quonniapaug Lake

4240 Durham Road,  
Guilford, **98.7 acres**.

**Regulations:** 6 hp limit. Motorboat operation prohibited between 9 p.m. and 6 a.m. **Launch:** At north end of the lake just east off Rte. 77. Parking: 8 cars.

### Rainbow Reservoir (Farmington River)

118 Merriman Road,  
Windsor, **240 acres**.

**Regulations:** 35 mph limit. **Launch:** Rte. 75, west on Rainbow Rd., left on Merriman Rd. Launch is on the left. Parking: 15 cars.

### Rogers Lake

102 Grassy Hill Road,  
Old Lyme, **260 acres**.

**Regulations:** Marine heads are prohibited. Boats propelled by airplane propeller, fan or ducted fan are prohibited. Parasails are prohibited. Maximum of two water-skiers per boat. Personal watercraft operation permitted from 10 a.m. to 6 p.m. Monday through Friday and 10 a.m. to 7 p.m. Saturday and Sunday. Engines limited to 135 hp maximum. Motor-powered craft prohibited beyond sign in cove at northwest end of lake. Boat traffic to proceed in southerly direction only on west side of Picnic Island, southwesterly direction only in excess of steerage way between Picnic Island and Whale Island, counterclockwise pattern throughout lake when in excess of steerage way speed. Speed limits: year-round, sunset to 10 a.m., 6 mph; steerage way with no wake in cove by Hains Park and in boat launch channel.

**Launch:** Turn north off Rte. 1 onto Grassy Hill Road and travel for approximately 1 mile. Launch is on the left. Parking: 20 cars.

### Roseland Lake

Woodstock, **96.1 acres**.

**Launch:** Courtesy of Roseland Park on west side of lake. Rte. 171, north on Roseland Park Rd. Park is on the right. Launch is privately owned and operated for the Town of Woodstock.

### Ross Pond - Old Furnace State Park

223 Ross Road, Killington, **31 acres**.

**Regulations:** Use of internal combustion engines prohibited.

**Launch:** Rte. I-395, exit 91, east on Rte. 6. Take first right onto South Frontage Rd., then first right after park entrance onto Ross Rd., take next right to launch. Parking: 30 cars.

### Savin Lake

Lebanon, **49 acres**.

**Regulations:** Use of internal combustion engines prohibited. Parking: 5 cars.

### Schreeder Pond (Chatfield Hollow Pond)

Killingworth, 3 acres.

**Regulations:** All vessels prohibited.

### Scoville Reservoir

Wolcott, **121 acres**.

**Regulations:** Vessel operation prohibited between sunset and sunrise. No waterskiing, windsurfing or parasailing. Use or possession of internal combustion engines prohibited. Sailboats prohibited. No launching from a roadway. **Launch:** Rte. 69, east on Nichols Road. Bear left onto Woodtick Rd., then turn left onto Scoville Road. Launch is at the end. Launch is owned and operated by the Town of Wolcott. Parking: 10 cars.

### Shaw Lake

See Lake Hayward, East Haddam.

### Shetucket River

Lisbon.

**Launch:** Rte. 169, turn north onto Wheelabrator Corp. access road. Launch is on the left. Boat launch is owned and operated by town of Lisbon. Closed December 1 to March 1. Parking: 6 cars.

### Silver Lake

See Mudge Pond, Sharon.

### Silver Lake

282 Norton Lane, Berlin,

**146 acres**.

Regulations: 8 mph limit, no water-skiing except for period June 15 to first Sunday after Labor Day, when speeds in excess of 8 mph and water-skiing are permitted between 11 a.m. and 6 p.m. **Launch:** Rte. 15 Berlin Turnpike, north on Tollgate Rd., left onto Norton Lane. Launch is on the left. Parking: 15 cars.

### Somersville Mill Pond

Somers, **25 acres**.

**Regulations:** 6 mph limit, no water-skiing.

**Launch:** From Rte. 4 proceed north on Rte. 272. Launch is on the right. Parking: 6 cars.

### Squantz Pond

State Park

Shortwoods Road,  
New Fairfield, **270 acres**.

**Regulations:** Vessels launching from State boat launch are prohibited from using a motor or combination of motors in excess of 25 HP. Larger motors may be attached but the propeller must be removed and the motor inclined out of the water or as high as possible. No motorized vessels may land or unload passengers or equipment on DEP-owned property outside of the launch area. 45 mph daytime limit, 25 mph limit from  $\frac{1}{2}$  hour after sunset to  $\frac{1}{2}$  hour before sunrise. M.S.D. (toilet) on vessels shall not be capable of overboard discharge. **Launch:** Located west off Rte. 39 in State Park. Parking: 25 cars.

### Staffordville Lake

Stafford, **125 acres**.

**Regulations:** 40 mph limit except 5 mph limit after 8 p.m. during July and August and after 7:30 p.m. at other times, also before 10 a.m. on Saturdays and holidays and before noon on Sundays.

### Stillwater Pond

985 Norfold Road,  
Torrington, **100 acres**.

**Regulations:** The use of internal combustion engines prohibited. **Launch:** From Rte. 4 proceed north on Rte. 272.

Launch is on the right. Parking: 6 cars.

# LOCAL REGULATIONS & ACCESS

## LAKES, PONDS AND INLAND STREAMS (Listed by Waterbody)

### Suffield Town Park Ponds Suffield.

**Regulations:** Vessels with motors attached prohibited.

### Tetreault Pond Killingly.

**Regulations:** 8 mph limit, no water-skiing.

### Tobey Pond Norfolk.

**Regulations:** Vessels with motors prohibited.

### Twin Lakes

**State Boat Ramp Access Road, Salisbury, 843 acres.**

**Regulations:** Seaplanes prohibited. 3 water-skiers limit per boat, 35 mph limit except 6 mph limit within 200 feet of vessel or dock except taking off or landing water-skier, also 6 mph limit from 1/2 hour after sunset to 1/2 hour after sunrise. Water-skiing activity to go counterclockwise on east and west halves of East Twin Lake. **Launch:** Rte. 44, north on Twin Lakes Rd., take the gravel road on the left, 2.7 miles north of Rte. 44 and .4 mile north of the marina. Launch is located on East Twin Lake. Parking: 4 cars.

### Tyler Lake

**12 Park Road, Goshen, 187 acres.**

**Launch:** Turn east on Tyler Lake Heights Rd. off Rte. 4 approximately miles 2.7 west of junction with Rte. 63. Parking: 5 cars.

### Uncas Pond

**Kenny Road, Lyme, 68.9 acres.**

**Regulations:** Operation of motorboats prohibited. **Launch:** In Nehantic State Forest. Travel over same road that provides access to Norwich Pond. Rte. 156 north 3.8 miles from I-95, turn east onto access road into Nehantic State Forest. Parking: 15 cars.

### Wauregan Reservoir See Quinebaug Pond, Killingly.

### West Branch Reservoir (Hogsback Reservoir)

**Colebrook, 201 acres**

**Launch:** Rte. 20, west on Hogsback Rd., then first left onto access road crossing dam. Launch is owned and operated by MDC. Parking: 30 cars.

### West Hill Pond

**Laurel Passaway, Barkhamsted/**

**New Hartford, 261 acres.**

**Regulations:** 8 hp limit from Memorial Day through September 15; 6 mph between sunset and sunrise; 15 mph maximum during daytime. No water-skiing. **Launch:** Rte. 44, south on West Hill Lake Rd., take first right (Perkins Rd.) to launch. Lake drawn down after Labor Day. Parking: 20 cars.

### West Lake

**Guilford.**

**Regulations:** 6 hp limit. Motorboat operation prohibited between 9 p.m. and 6 a.m.

### West Side Pond

**330 West Side Road**

**Goshen, 41.9 acres.**

**Launch:** Rte. 63, go west on West Side Rd. for approximately 1.5 miles. Launch is on the right. Parking: 3 cars.

### West Thompson Lake

**Thompson, 239 acres.**

**Regulations:** 5 mph limit, no swimming or water contact activities. **Launch:** Rte. 193, go straight across Rte. 12 at traffic light. Take first right, then first left after park headquarters to launch. Launch is owned and operated by the US Army Corps of Engineers. Parking: 15 cars.

### Wharton Pond

**Wallingford, 3 acres.**

**Regulations:** All vessels prohibited

### Willimantic Reservoir

**See Bolton Lake, Bolton/Vernon/**

**Coventry.**

### Winchester Lake

**Winchester, 246 acres.**

**Regulations:** 8 mph limit, no water-skiing. **Launch:** At south end of lake. Rte. 263, north on West Rd. Launch is on the right. Parking: 25 cars.

### Winnemaug Lake

**Watertown, 155 acres.**

**Regulations:** (effective on all lakes and ponds in Watertown) 7 mph limit. Vessels with internal combustion engines attached prohibited. Vessels prohibited within 50 feet of swimming areas.

### Wintergreen Lake

**West Rock**

### Ridge State Park

**412 Main Street,**

**Hamden, 45 acres.**

**Regulations:** Use of internal combustion engines prohibited.

**Launch:** Exit 60 off Rte. 15, south on Rte. 10, west on Benham St., left onto Main St., access on the right. Water is 100 feet from parking area. Parking: 30 cars.

Entries without launch symbols may not have public access

### Wononscopomuc Lake

**Salisbury, 348 acres.**

**Regulations:** Motors are limited to 12 cubic inches (approximately 10 hp). No water-skiing. **Launch:** In Lakeville, 1,500 feet south of the junction of Rtes. 44 and 41 on Ethan Allen St. Launch is owned and operated by the Town of Salisbury. Open 7:00 a.m. to 8:00 p.m. from third Saturday in April to Labor Day; from Labor Day to October 31, M-F, 7:00 a.m. to 8:00 p.m., weekends, 7:00 a.m. to noon. \$10 fee for non-residents.

### Wood Creek Pond

**428 Ashpothag Road,**

**Norfolk, 145 acres.**

**Launch:** Rte. 44, north on Rte. 272, right onto Ashpothag Rd., take first left to launch. Shallow pond. Parking: 12 cars.

### Wyassup Lake

**145 Wyassup Lake Road**

**North Stonington, 101 acres.**

**Regulations:** 8 mph limit, no water-skiing except for period June 15 to first Sunday after Labor Day, when speeds in excess of 8 mph and water-skiing are permitted between 11 a.m. and 6 p.m. No towing of surf boards or water-skiers at any time between the islands and the east shore. **Launch:** Rte. 2, north on Wyassup Lake Rd. Launch is on the right. Parking: 8 cars.

# Rules & Regulations

## U.S. Aids to Navigation

Anyone navigating in tidal waters of Connecticut should take a charting, piloting and navigation course. Navigation aids, buoys, or day beacons are used to mark safe channels and obstructions or hazards. Red and green buoys mark channel limits and are generally used in pairs. A boat should pass between a red buoy and its companion green buoy.

# RULES & REGULATIONS

## Marker (Buoy or Beacon) Permits

The placement of regulatory or navigational markers, or slalom course buoys/ jumps requires a permit from the DEEP. Regulatory markers denote swim areas, speed zones, and information or danger areas. Navigational markers designate channels. Markers must meet DEEP specifications regarding size, color, banding, symbols and wording. On tidal waters a permit is required from both the DEEP and USCG. See the DEEP website at [www.ct.gov/dep/boating](http://www.ct.gov/dep/boating) under Permits for details. \*NOTE: Permits for mooring buoys on tidal waters are issued by the Town, local Harbor Master, or the DEEP Office of Long Island Sound Programs, and on inland waters by the Town or an applicable power generating company.

## The Sound Signals

All vessels are required to exchange sound signals when their paths will lead them into close quarters. Depending upon the size of your vessel, a mouth, hand or power operated whistle or horn is required. The following four signals are the only signals that may be used by vessels, when within sight of each other, to signal their intentions.

- One short blast – I intend to leave you on my port side.
- Two short blasts – I intend to leave you on my starboard side.
- Three short blasts – Indicates the operation of astern propulsion.
- Five or more blasts – Indicates danger.

## Anchor Lights

All vessels, when at anchor outside an officially marked anchorage, must exhibit, an all-around white light.

## High Speed Ferries

High Speed Ferries (HSF) are capable of speeds of 60 knots (70 miles per hour) and above. When an HSF is approaching:

- Know and obey the USCG rules of the road.
- Make any changes in course or speed early and obvious to the HSF operator, and while still at least one mile from the ferry.

At night and in times of restricted visibility, display correct running lights and show a radar reflector. Monitor VHF Channel 13 for announcements from the ferry.

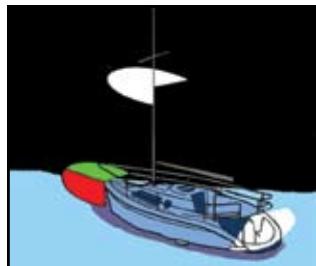

## Navigation Lights (Underway)

Recreational boats must display their required navigation lights at all times between sunset and sunrise, and during daylight periods of reduced visibility. Shown below are the lights required.

### POWER-DRIVEN VESSELS

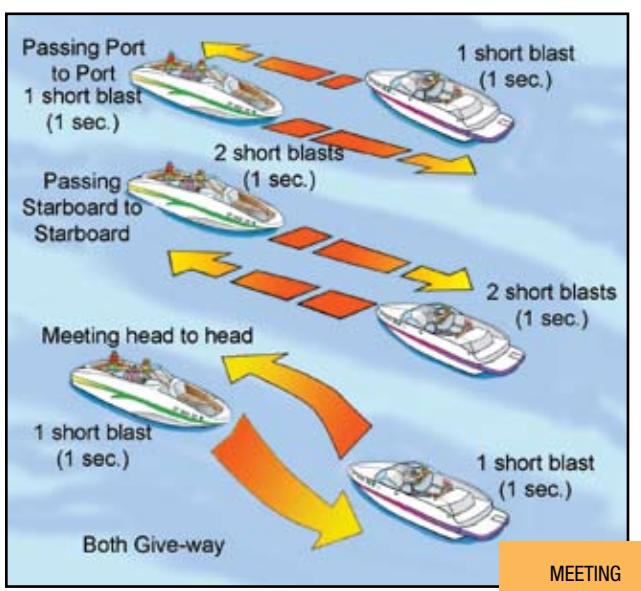

Alternate lighting for boats less than 39'5" in length

### NON-POWERED VESSELS

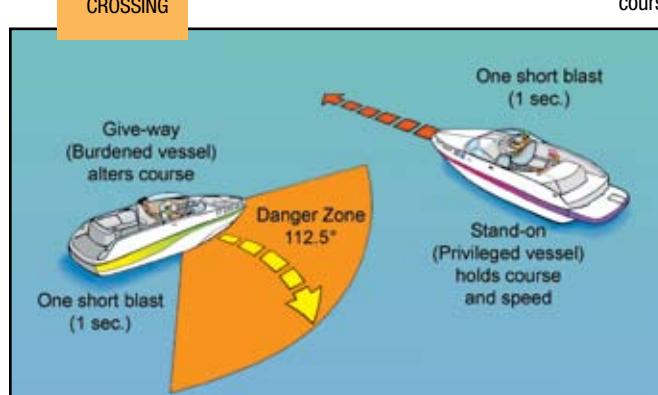

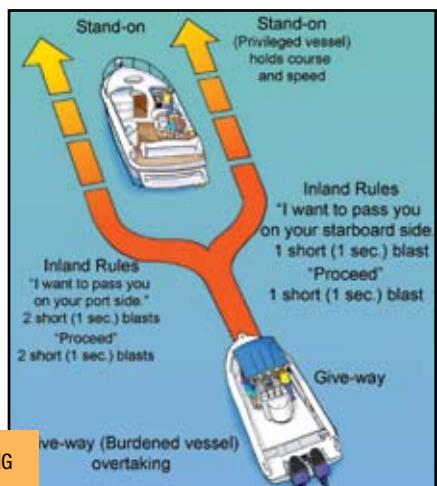

## Navigation Rules

The lighting arrangements shown in the figures here have been taken from the U.S. Coast Guard Navigation Rules, International-Inland.

### TERMS TO KNOW:

- **Stand-on vessel:** The vessel that should maintain its course and speed (unless collision is imminent).
- **Give-way vessel:** The vessel that must take early and substantial action to avoid collision by stopping, slowing down, or changing course.

# RULES & REGULATIONS

## Bridges – What You Need to Know to Go

The raising and lowering of train and traffic bridges are regulated by the US Coast Guard. You need to understand some critical information to safely pass under these bridges.

- Bridge Clearance
- Air draft (Vertical Clearance) of your vessel
- Schedules for the Bridge
- Communicating with the Bridge

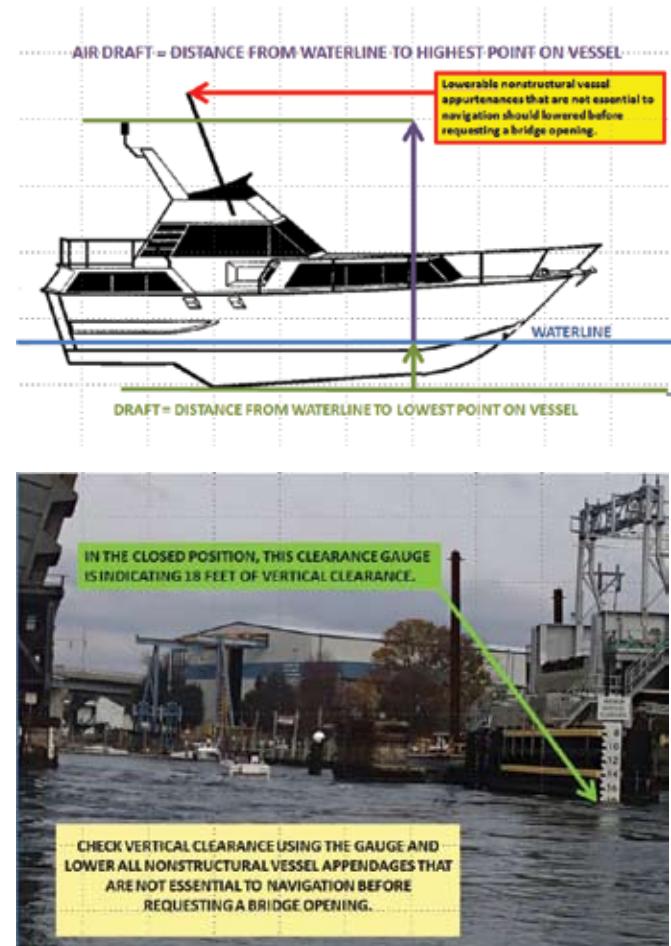

Bridge clearance is the distance between the water surface and the lowest portion of the bridge over the channel. This distance is measured in feet and can be found on the chart that the bridge is shown. Bridge clearances are referenced at mean high tide, with clearances changing throughout the tidal cycle. At low tide there will be more clearance than at an above average high tide.

Many fixed and all moveable bridges will have a clearance gauge on each side of the bridge. This gauge will indicate the bridge clearance at the specific time you are passing under the bridge. Each gauge is installed on the end of the right channel pier or pier protection structure facing approaching vessels and extends to a reasonable height above high water so as to be meaningful to the viewer. Other or additional locations may be used under particular conditions or circumstances.

Air draft of a vessel or Vertical Clearance is amount of vertical space that the boat needs to pass safely under an object. This distance is measured from the boat's waterline to the top of the highest structural object on the boat. By federal regulation, movable antennas that are not essential to navigation and fishing poles cannot count in the measurement. They must be lowered. If after lowering all of the nonstructural and nonessential navigation components of your vessel, you still cannot pass under the bridge, you will need to contact the bridge tender.

**Schedules for the Bridge:** Each movable bridge has its own opening schedule that is determined by federal regulation. You should be familiar with the schedule for the bridges that you will use. Their schedules are published in the USCG Local Notice to Mariners, cruising guides and other boating related publications. A good website is: <http://www.law.cornell.edu/cfr/text/33/117>.

Knowing the schedule will help you to plan your trip, but you will still need to make your intentions known to the bridge tender.

## Communicating with the Bridge

**Five Short Blasts:** If you hear this sound from the bridge, and the bridge is open, it means the bridge is being closed. DO NOT TRY TO PASS through if you require an opening. The bridges are extremely heavy and are not easily stopped once the process has begun. WAIT for the next opening!

## Signaling the Bridge:

Moveable bridges must open promptly and fully for the passage of vessels when a request or signal to open is given. However, as discussed, there are bridges that have set opening and closing schedules to facilitate the smooth flow of traffic so you may have to wait.

There are several acceptable methods to contact the bridge tender to discuss scheduled openings and to request an opening. The best method is by **VHF marine radio via channel 13 using low power (1 watt)**. The vessel and the bridge tender

shall monitor the frequency used until the vessel has cleared the draw.

Using the radio, identify the name of the bridge (repeated 3 times) you need opened and the name and description of your vessel (eg. sailboat, 30 foot powerboat). Let the bridge tender know the direction you are headed and when you request the opening. When radiotelephone contact cannot be initiated or maintained, sound or visual signals shall be used.

Sound signals shall be made by whistle, horn, megaphone, hailer, or other device capable of producing the described signals loud enough to be heard by the drawtender. The sound signal to request the opening of a draw is one prolonged blast followed by one short blast sounded not more than three seconds after the prolonged blast.

If the tender can open the bridge immediately, the reply sound signal is one prolonged blast followed by one short blast sounded within 30 seconds of the requesting signal.

When the draw cannot be opened immediately, the tender shall reply with five short blasts sounded in rapid succession within 30 seconds of the vessel's opening signal. The signal shall be repeated until acknowledged in some manner by the requesting vessel.

The visual signal to request the opening of a draw is a white flag raised and lowered vertically or a white, amber, or green light raised and lowered vertically. The tender shall reply in kind if the bridge can be opened or raise a red flag or swing a red light back and forth horizontally in full sight of the vessel within 30 seconds of the vessel's opening signal or show a fixed or flashing red light(s) within 30 seconds of the vessel's opening signal and repeat until acknowledged in some manner by the requesting vessel.

In areas where there is more than one moveable bridge, like New Haven Harbor, to eliminate confusion signals can vary. Checking the federal regulation cited above will provide those signals.

It is important to note that, the bridge tender shall take all reasonable measures to have the draw

opened, regardless of the operating schedule of the bridge, for passage of emergency vehicles, vessels or other emergency situations, provided this opening does not conflict with local emergency management procedures which have been approved by the cognizant Coast Guard Captain of the Port.

For the five Amtrak movable Bridges, between May 15 and October 15, all bridges reopen immediately after trains pass and will close in sufficient time for approaching trains.

## QUICK GUIDE TO TRANSITING MOVABLE BRIDGES

- Know the vertical clearance of your vessel (air draft)
- Check the vertical clearance of the bridge
- Lower any moveable nonstructural objects or gear (radio antennas, outriggers etc...) if necessary to pass without forcing a bridge opening. (IT IS ILLEGAL TO REQUEST AN OPENING without first lowering non-structural gear.)
- If an opening is required check for scheduled openings
- Signal or contact the drawtender to request an opening
- When the bridge opens, pass through the draw as soon as possible in order to prevent unnecessary delays in the closure of the draw.

**Do your part....know  
your vertical clearance.  
Don't request  
unneeded openings.**

# SAFETY INFORMATION

## Homeland Security

Boaters must be cautious and constantly aware of surroundings. It is now illegal to stop or anchor beneath bridges. Secure and lock your boat when not on-board and, when stored, disable the engine. Avoid restricted areas such as dams, power plants, etc. and observe all security zones, especially around military installations.

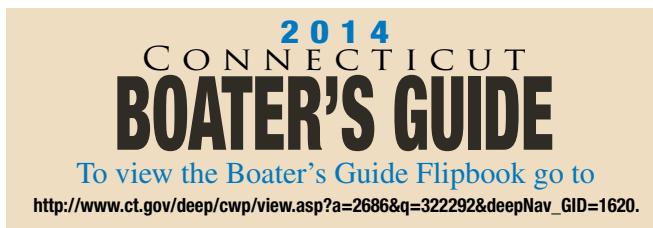

Naval Vessel Protection Zone – You must stay at least 100 yards away from any military vessel and maintain minimum steerage speed within 500 yards. Violators face quick and severe response, not more than 6 years in prison and not more than a \$250,000 fine.

You should report the following to the U.S. Coast Guard (see page 3 for telephone numbers):

- Suspicious persons conducting unusual activities near security areas, bridges, on or near the water.
- People establishing roadside stands near marinas and waterfront facilities.
- Unknown persons photographing or creating diagrams around power plants, under bridges, waterfront facilities or any other high risk areas.
- Unknown or suspicious persons loitering around waterfront areas.
- Suspicious persons attempting to borrow or rent watercraft
- Suspicious vendors attempting to sell or deliver merchandise or drop off packages in waterfront areas.

Safety and Security Zones - Boaters should not:

- Enter buoied areas off of the Niantic Bay or Jordan Cove side of Dominion/Millstone Power Plant, Waterford, CT.
- Enter waters within 100 yards of any anchored U.S. Coast Guard vessel.
- Stop, moor, anchor or loiter beneath a bridge or approach within a 25-yard radius of any bridge foundation, support, stanchion, pier or abutment except as required for the direct, expeditious transit beneath a bridge.

## 2014 Tide Table – Saybrook Point HIGH TIDE PREDICTIONS BETWEEN 6:00 a.m. AND 7:00 p.m.

(Adjusted for daylight savings time) — 41.2833 N, 72.3500 W

Full Moon = ° | New Moon = •

## Tides and Currents

Boaters should be familiar with the effects of the tides and currents in Long Island Sound and lower river reaches. This body of water, rises and falls every 12 hours, and vast amounts of water move through places like Race Point on the western tip of Fisher's Island, Plum Gut on Long Island and Hells Gate in New York on the western end of the Sound.

Strong winds accompanying a tide in the same general direction would tend to increase the tidal effect. Conversely, a tide flowing against a strong wind would be diminished in effect. It should be noted, though, that a wind contrary to a tide could create a hazardous condition with steep and confused waves.

### APPROXIMATE TIDAL DIFFERENCES (BASED ON OLD SAYBROOK)

at Stonington	less 1 hour, 43 minutes
at Noank	less 1 hour, 33 minutes
at Norwich	less 1 hour, 25 minutes
at New London	less 1 hour, 11 minutes
at Millstone Pt.	less 1 hour, 2 minutes

at Old Saybrook Jetty	see tide tables
at Duck Island	plus 7 minutes
at Madison	plus 12 minutes
at Falkner Island	plus 19 minutes
at Branford Harbor	plus 24 minutes
at New Haven Harbor	plus 25 minutes
at Milford Harbor	plus 26 minutes
at Bridgeport	plus 33 minutes
at Cos Cob Harbor	plus 38 minutes

### CONNECTICUT RIVER

at Essex	plus 28 minutes
at East Haddam	plus 1 hour, 31 minutes
at Portland	plus 2 hours, 40 minutes
at Hartford	plus 4 hours, 19 minutes

Remember, New London and Fisher's Island Sound tides occur before Old Saybrook. Bridgeport and Greenwich tides occur after Old Saybrook.

# Canoe & Kayak Safety

- Wear Your Life Jacket (PFD)! Is it the proper size and in good condition? There must be a wearable PFD aboard for each person. From October 1st through May 31st, you MUST wear a PFD (state law) when in a manually propelled vessel.
- Don't stand up in a canoe.
- Always paddle directly into or away from the wake of larger boats.
- If you CAPSIZE, stay with the boat. If you are in a strong current or white water, float down river feet first and toes up with the boat ahead of you.
- Do not drink alcohol before or while paddling. Alcohol affects balance, coordination, and judgement.
- For more stability in rough conditions, kneel on the bottom instead of sitting on the seats.
- The most experienced paddler should take the stern position.
- Load the boat evenly, fore and aft and side to side.
- Wear proper clothing, including a hat. If you end up in the water, do not remove your clothes. They help you float and protect you against hypothermia.
- Stay away from low head dams. They are extremely dangerous from both up and down stream.
- Rough water, white water, or rapids are no place for beginners. Always wear a solid, correctly fitted helmet when white water paddling.
- Paddle near shore, out of channels. Paddle within your ability.
- Always leave a FLOAT PLAN with someone ashore. Be specific about where you plan to go and when you will be back. Be sure to report back in when you return.

# Boaters! Get Legal *In One Day*

Connecticut law requires the operator of any registered boat and/or personal watercraft to carry a Connecticut Safe Boating License.

# Welcome to Brewer!

We know how much you love your boat and spending time with friends and family. So we put our hearts into top quality marinas featuring amenities like pools, grilling areas, playgrounds and sparkling showers. Brewer offers eight great locations in CT, with the best service work in the industry, boasting more ABYC certified technicians and the highest standards from New York to Maine. And, Brewer customers receive discounts on overnight dockage, fuel and with local businesses at all Brewer locations.

*Experience the Brewer tradition.  
Reserve your 2014 slip today!*
