

QUICK-SLING

The safe & affordable install

Applicable for residential or light commercial installations

Quick Swivel SPECS
QSWI1000

A Close Up:

Each arm attaches to wood using 2 zip screws for stability & a 4" through bolt & wing nut for security. It can also be installed to steel using our steel beam adapters.

12 points of anti-vibration isolation is provided along with 3 hitch pins for the "H" bracket. This adds to the safety & sturdiness of the Quick Swivel.

Extension arms individually adjust in 1" increments using thumb screws & wing nuts for speed & versatility. This "U" mount installs as high as 19.5" or as low as 27.5" on flat or pitched roofs.

Installation can be accomplished in minutes because all necessary hardware is provided. Attaching a Quick Swivel to your unit is fast & stress-free.

Our Quick Swivel is made with 14-gauge steel able to hold 200 lbs. The swivel allows for 360 degree rotation for setting the perfect direction of air flow.

The Quick Swivel can easily be installed in residential or commercial applications. Turn the Swivel in any direction you need, then lock it in place.

*Powder Coated.

Quick-Sling's Quick Swivel provides you with a non-swinging, rotating platform that is quick, safe, stable and affordable.
