

# UK National Awards for Export Excellence 2016

## Export Excellence in Europe: Judging criteria

This award will go to the exporting company that, in the opinion of the judges, best demonstrates how they have increased their exports to and sales within Europe; demonstrates a commitment to expanding within the region; and demonstrate the value and contribution that exporting to Europe can provide to the future of the business.

The process will take into consideration the company's exports to the region as a proportion of total sales; the increased value of the export sales and the implementation of a lean, cost effective and environmentally responsible approach to exporting into Europe. Judges will also look for collaborations, partnerships, investments, and newly introduced technical abilities.

Judges will award points for each of the adjacent criteria based on a rating scale of 1 to 10, where 10 is measured as exceptional.

If any criterion is not addressed, a standard score of 1 will be awarded. If the criterion is addressed, a minimum of 2 or more will be awarded based on how well the application meets the stated criterion.
