Protect your collection with Stanley Gibbons albums

All recent Stanley Gibbons leaves are manufactured without the addition of chemicals that would present a hazard in use. This enables them to be produced with a neutral PH value to meet the ISO 9706 permanence of paper which means that your stamps will not suffer any adverse effects by years of storage. If you want to ensure your stamps are safe, you need to make sure your album leaves are printed on acid-free paper.

If you are looking to give your collection the home it deserves, there is no better option than Frank Godden albums. Each individual album is beautifully handmade to an unmistakable and unmatched quality, with all leaves are now made to the internationally recognised standard for archival paper, the type that is used and recommended by all major museums. Revered throughout the philatelic world for their supreme quality and craftsmanship, Frank Godden albums are built to last a lifetime and to offer you a lifetime of enjoyment. For more information, visit www.stanleygibbons.com/frankgodden.

If Frank Godden albums do not suit your budget, we recommend the Exeter peg-fitting and Senator Standard springback albums, both of which protect your collection and provide an easy-to-use storage option. To find out more, contact us on the details below.

3.1 Subject to these Conditions, the highest bidder for each lot shall be the purchaser thereof.

3.2 Each lot is put up subject to any reserve price imposed by the vendor. Written instructions as to reserves (if any) must be received by SG at the latest on the day before the date of sale.

3.3 In the event of any reserve price not being reached SG is empowered to sell by private treaty after the auction any lot at not less than the reserve price as long as the goods remain on SG's premises. In the event of such a sale these Conditions will apply.

5.1 SG warrants the description and genuineness of all lots comprising three or less items as:

5.1.1 genuine, unless otherwise described in the sale catalogue or by SG; and

5.1.2 correctly described, including where applicable the date of any certificate forming part of the description of the lot.

5.3.2 any indirect or consequential loss or damage including loss of profits, revenue or business howsoever caused (whether arising out of any negligence or breach of these Conditions or otherwise) even if that loss or damage was reasonably foreseeable by, or the possibility of it was brought to the attention of SG.

5.4 Save where the purchaser is entitled to reject a lot pursuant to clause 6.3, in which case that shall be the purchaser's sole remedy, the liability of SG under these Conditions (whether arising in negligence or otherwise) will not exceed the greater of 125% of the amount of any relevant successful bid or if no successful bid, the reserve price if any (whichever is applicable to the circumstances) regardless of the cause or form of action.

5.5 Nothing in these Conditions shall limit SG's liability for death or personal injury resulting from

SG's negligence. Vendor and purchaser (respectively) agree to indemnify SG against all

liability, claims and expenses that may arise from any breach of these Conditions by either of them.

6. Right to Reject Lots

6.1 Subject to Clause 6.5 and 6.6 the purchaser shall be at liberty to reject any lot comprising three or less items if he/she has paid the Price and if he/she: 6-1.1 gives SG written notice of intention to question the genuineness or as the case may be the accuracy of description of the lot within twenty one days from the date of sale; and

6.1.2 proves that the lot is not genuine or was incorrectly described; and

6.1.3 returns to SG within twenty eight days from the date of sale the lot in the same condition as it was at the time of sale PROVIDED that SG may, at its discretion on receiving a request in writing from the purchaser, extend for a reasonable period the time for return of the lot to enable it to be submitted to expertisation.

6.2 Where a lot has been submitted to expertisation the costs of such expertisation shall be paid by the person (which term shall include any company) who returns the certificate and item(s) to which such certificates relates. The onus and cost of proving a lot to be not genuine or incorrectly described is on the purchaser. The inability of any recognised expert or expert committee to express a definite opinion shall serve to discharge the onus on the purchaser and shall be a ground for rejection of the lot concerned.

6.3 Where the purchaser of a lot discharges such onus of proof and complies with the provisions of clause

6.1 SG shall set aside the sale and repay to the purchaser the Price paid by him in respect of the lot.

6.4 Any lots comprising four or more items, or miscellaneous lots containing items which are undescribed shall be taken by the purchaser with all (if any) faults, lack of genuineness and/or errors of description and/or numbers of items in the lot and the purchaser shall have no right to reject any such lot; save that, notwithstanding the foregoing where before a sale a person intending to bid at the sale, gives notice in writing to and satisfies SG that any such lot contains any item or items undescribed in the sale catalogue and that person specifically describes that item or those items in that notice then that item or those items, shall, as between SG and that person be taken to form part of the description of the lot for the purpose of clause 5.1 and clauses 6.1, 6-2 and 6.3.

6.5 No lot shall be rejected if subsequent to the sale, it has been damaged and/or marked or treated by any process whatsoever unless SG's permission to subject the lot to such marking or treatment has first been obtained in writing.

6.6 No lot illustrated in the sale catalogue or on the SG Auction Web Site shall be rejected on the ground of characteristics apparent from its illustration. Whilst care has been taken to show colour illustrations as accurately as possible, reprographic and printing processes cannot always guarantee true reproduction of colour images. Therefore, no lot illustrated in colour shall be rejected on the grounds that actual colour differs from that of the illustrations.

These Conditions together with any special conditions, notices, descriptions, statements and other matters in the sale catalogue and elsewhere, including the SG Auction Web Site, concerning any lot are subject to any statements modifying or affecting the same made by the auctioneer from the rostrum prior to any bid being accepted for the lot.

7 VAT

SG operate an auctioneers' VAT margin scheme for the auction of lots which are eligible. Lots suffixed by the letters "T" & "F" in the sale catalogue are subject to VAT at the rate then prevailing on the hammer price. If such a lot is exported, outside the EU, and the purchaser produces proof of export in the correct form, the VAT on the hammer price is refundable by SG.

8. General

8.1 SG shall not be liable for any delay or failure to perform its obligations under these Conditions caused by circumstances beyond its reasonable control.

8.2 SG reserves the right to vary these Conditions with immediate effect from time to time without notice.

8.3 In the event that these Conditions are held by any competent authority to be invalid or unenforceable in whole or in part, the validity of the remaining terms shall not be affected.

8.4 These Conditions and any sale organised by SG shall be governed by English law and shall be subject to the exclusive jurisdiction of the English Courts.
