Dear Speaker Ryan, Majority Leader McConnell and Minority Leaders Reid and Pelosi:

We write today to share our strong support for H.R. 34, the 21st Century Cures Act and hope Congress will move quickly to send the bill to the President's desk before the end of the session.

The 21st Century Cures Act not only includes key provisions to address rare diseases and medical innovation, but it also includes many important provisions that expand our response to addiction, including \$1 billion dollars in funding for grants to fight the opioid epidemic.

Passage of the 21st Century Cures Act will help further implement a comprehensive response to addiction in the following ways:

1. Authorizes **\$1 billion dollars for states in grants** to address addiction through a comprehensive response that includes prevention, treatment, prescription drug monitoring programs, opioid treatment programs, and other key components;
2. Creates **federal drug courts**, which will help better serve the 6.8 million people involved in the federal criminal justice system;
3. Encourages **integration of care** for substance use disorders with primary care for patients with mental and/or substance use disorders by making it a condition for state-level grant dollars;
4. Creates a new program for **alternatives to incarceration** for individuals with substance use disorders;
5. Reauthorizes the **STOP Act** (Sober Truth on Preventing Underage Drinking) to continue to address underage drinking and adds new prevention, screening, and intervention provisions;

6. Increases **training for prevention, treatment and recovery support** workforces; and,
7. Authorizes \$12.5 million to strengthen **community crisis response** systems for substance use and mental disorders.

We appreciate your leadership in ensuring swift enactment of 21st Century Cures, which will provide the resources necessary to better address addiction in communities nationwide.

Sincerely,
