Endnotes for Sacred Accounting Tables

Column Label Notations:

Year Range: years of country abortion data (1921-2015: continuous; 1931...2015: incomplete early years).

Total Abortions include reported and estimated abortions from year of authorization (or first reporting if earlier) through 2015, without rounding the totals. Totals in italics are for former conglomerate countries (i.e., Czechoslovakia, Union of Soviet Socialist Republics, and Yugoslavia) for which most reported abortions are included in the separate individual countries; and the second France line includes its overseas departments.

Total for Tabulation includes total abortions for all nations and territories in Report, including the balance not attributed to the constituent republics of former nations, but removing any duplication (for cases where abortions by residents abroad are included, such as Guernsey abortions already reported in the U.K. total).

Abortion %: abortion percentage gives annual abortions (in 2014) as a percentage of pregnancies ending either in live birth or abortion.

Abortion Ratio is the number of abortions per 1,000 live births (in 2014).

Population is the population estimate for 2016 from the CIA World Factbook.

Abortions % of Population is the ratio (as a percent) of total abortions to 2016 population.

General Notes:

- Reported figures are from references identified for each country in Addendum II: Data Source List. Estimates are by the authors based on the methodologies described in Part IV.
- Data covers induced abortions only. Countries where miscarriages (spontaneous abortions) may not be fully excluded are indicated with notes.
- Tier 1 estimates are indicated by *italics only* for higher confidence figures (within 20%), and Tier 2 estimates by italics and parentheses (*100*) for lower confidence figures (uncertain by 30% to a factor of 2).
- Figures are based on abortions occurring within a country or region as they are reported in practice, without necessarily constituting recognition of areas of disputed status.

Specific Country Notes:

1. Data for some years may include spontaneous miscarriages. [*Australia, Nagorno-Karabakh, Transnistria, Turkey, Vietnam, Yugoslavia*]
2. Data for some years includes reported illegal abortions. [*Australia, Croatia, Cuba, Estonia, France, Germany, Kazakhstan, Portugal, Trinidad & Tobago, U.S.S.R., United Kingdom, Viet Nam*]
3. Does not include data for regions not reporting to the central government. [*Armenia, Azerbaijan, Georgia, Moldova*]
4. Figures prior to 1992 are for the republic within the U.S.S.R. [*Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyzstan, Latvia, Lithuania, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine, Uzbekistan*]
5. Data for some years includes spontaneous miscarriages. [*Bahrain, Bosnia and Herzegovina, Croatia, Estonia, Kosovo, Kyrgyzstan, Macedonia, Montenegro, Serbia, Slovenia, U.S.S.R.*]
6. Completeness of available data varies significantly from year to year-to-year. [*P.R. China, Vietnam*]
7. Significant underreporting is suspected for most years. [*Republic of China, India, Republic of Korea, Turkey*]
8. Does not include data for regions under occupation by Russia. [*Georgia, Ukraine*]
9. Region's claim of independence is not generally recognized; figures here are those reported by local authorities. [*Nagorno-Karabakh, Transnistria*]
10. Prior to separation from Yugoslavia/Serbia, figures are for the region within Yugoslavia/Serbia. [*Bosnia and Herzegovina, Croatia, Kosovo, Macedonia, Montenegro, Slovenia*]
11. Figures prior to 1993 are for the region within Czechoslovakia. [*Czech Republic, Slovakia*]
12. Figures prior to dissolution may be greater than the sum of constituent regions; the remaining balance is listed in the "Total for Tabulation" column (e.g., Czechoslovakia, U.S.S.R., Yugoslavia).
13. Figure for 1990 is through reunification date only. [*East Germany*]
14. Significant underreporting is suspected for some years. [*France, Japan*]
15. Figure for 1990 includes eastern Germany after reunification date. [*F. R. Germany*]
16. Includes abortions occurring in country and abortions by residents obtained abroad. [*Guernsey, Isle of Man, Jersey*]
17. Includes abortions by residents obtained abroad (no reported abortions in country). [*Ireland, Malta*]

18. All reported abortions, or a majority, are done in the United Kingdom and included in its reported figures. [*Guernsey, Ireland, Isle of Man, Jersey, Malta*]
19. Abortion figures include significant numbers of abortions to non-residents. [*Netherlands, United Kingdom*]
20. Figures are, as far as possible, for areas within the current boundaries of Serbia. [*Serbia*]
21. Includes Estonia, Latvia, and Lithuania from 1940, though some countries did not recognize their annexation by the U.S.S.R. [*U.S.S.R.*]
22. The separate row for France and its overseas departments in Table 1-D gives a total accounting for abortions for France. The territories, listed separately are: Mayotte, Réunion, French Guinea, Guadeloupe, Martinique.
