Did you know that autism is now the fastest growing and most commonly diagnosed neurological disorder in Canada? One in 68 children are currently diagnosed with Autism Spectrum Disorder!

We are a group of *[friends/colleagues/family members/neighbours]* committed to helping children and young adults with autism receive the support they need to reach their fullest possible potential. *[Or, add a different description of your team. Include your reason for participating in this event.]*

ISAND is a non-profit organization that serves people from birth to age 24 who have autism and other neurodevelopmental disorders. The ISAND team provides developmental medical care, mental health and wellness, and family support in one centre. This enables families to receive fully integrated, coordinated and continued care.

Many children and young adults with autism can achieve significant developmental gains with support from the ISAND team. The generosity of individual and corporate donors and sponsors makes it possible for ISAND to offer the best possible service, regardless of a family's ability to pay.

Please make a pledge to our team or an individual team member. Or, pull together your own team and join the fun! Visit isand.ca/bowlforautism today to learn more.
