

2017
RECREATION

GTI™ SE / 130 / 155

Enjoy the Intelligent Brake and Reverse (iBR) and many convenience features such as a Touring Seat, Reboarding Ladder and Variable Trim System (VTS). Plus, choose between 3 engine options, including the fuel-efficient Rotax 900 HO ACE.

RIDER CAPACITY

Weight capacity 600 lb / 272 kg

DIMENSIONS

| | |
|------------------|--|
| Fuel capacity | 15.9 US gal / 60 l |
| Length | 132.6" / 336.8 cm |
| Width | 48.5" / 123.1 cm |
| Weight (dry) | 640 lb / 291 kg (GTI SE) 790 lb / 359 kg (GTI SE 130 & 155) |
| Storage capacity | 30.8 US gal / 116.6 l |

ENGINE

| | |
|----------------|--|
| Type | Rotax 900 HO ACE Rotax 1503 4-TEC® Rotax 1503 NA 4-TEC |
| Intake system | Naturally aspirated |
| Displacement | 899 cc (900 HO ACE) 1,494 cc (1503 & 1503 NA) |
| Cooling | Closed-Loop Cooling System (CLCS) |
| Reverse system | Electronic iBR |
| Starter | Electric |
| Fuel type | 87 octane |

| • Moderate V hull | |
| • Forgiving and nimble | |

iBR® (INTELLIGENT BRAKE & REVERSE)

TOURING SEAT

REBOARDING LADDER

VARIABLE TRIM SYSTEM (VTS™)

ROTAX® ENGINES (900 HO ACE™, 1503 & 1503 NA)

RETRACTABLE SKI PYLON (OPTION)

ENGINE

899 cc four-stroke, Rotax with three cylinders in-line and four valves per cylinder (GTI SE model)

1,494 cc four-stroke, Rotax with three cylinders in-line and four valves per cylinder (GTI SE 130 / 155 models)

iTC™ (Intelligent Throttle Control) system

iControl® Learning Key®

D-Sea-Bel™ system

Closed-Loop Cooling System

FEATURES

Polytec™ (for model with Rotax 900 HO ACE engine)

iControl

Touring mode / Sport mode

ECO mode

Elevated fuel filler

RF D.E.S.S.™ Key

Off-Throttle Assisted Steering (O.T.A.S.®)

Interactive Multifunction Digital Information Center

Handgrips with palm rest

Sponsons

Bumpers

Wide-angle mirrors

Tow hook

Footwell carpets

Rear grab handle

The most compact and lightweight engine on the market today. The Rotax 900 HO ACE incorporates crisp acceleration, impressive fuel economy and an excellent power-to-weight ratio.

This naturally aspirated Rotax engine has been tested and proven to be incredibly reliable and fuel-efficient for more than a decade. Plus, the Rotax 1503 NA is the most powerful, naturally aspirated Rotax engine on a Sea-Doo offering instant acceleration for instant fun.

Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features activity-specific Touring, Sport and ECO™ modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.

The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level.

Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.

Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

The hull is made of Polytec material, a recyclable, low density and high-impact composite material that includes polypropylene and long glass fiber reinforcements. It was designed to maintain the structural integrity of the watercraft under stress while providing light yet durable parts to support the construction of the product.

The "Brain" that integrates and controls all systems to create the best possible ride.

Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides all acceleration performance for a more aggressive throttle response.

This iTC function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.

Easy access and prevents water intrusion while refueling.

With radio frequency technology and a ball-and-socket design, the Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.

Provides the operator with additional steering effect in off-throttle situations for greater maneuverability.

Fuel level, Tachometer, Speedometer, Touring mode, Sport mode, ECO mode, Hour meter, Compass, F-N-R indicator and more.

Seat strap

Front splash deflector

Dual drain plugs

Flush kit

Emergency floating lanyard

Operator's guide, instructional video and booklet

GTI SE / 130 / 155

PROPULSION SYSTEM

iBR (Intelligent Brake & Reverse) system

Stainless steel impeller

First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 2nd generation, the intuitive and improved iBR allows you to stop close to 160 feet sooner¹ for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.

Delivers improved acceleration, higher top speed and less cavitation.

SE PACKAGE

Reboarding ladder

Additional gauge functions

Variable Trim System (VTS)

Touring seat

Swim platform carpet with Sea-Doo logo

Makes reboarding from the water easier and quicker.

VTS, Fuel consumption instant & average, Clock.

The VTS adjusts the angle of the nozzle to change the behavior of the watercraft and improve parallelism to the water.

Ergonomically designed for comfort and great looks providing ultra-plush seating for three – permits rear-facing spotter for watersports.

OPTIONS

- Retractable Ski Pylon
- Wakeboard Rack
- Shock Tube
- Depth Finder
- Ski Module
- X package module (Time / distance to empty, Top / average speed / RPM, Lap timer and Engine temperature)
- Sea-Doo Speed Tie™
- Dry Bag
- Ski Tow Eye
- Front Storage Tray
- 12-Volt Outlet and Installation Kit
- Safety Equipment Kit
- Bilge Pump Kit
- Sandbag Anchor
- Fire Extinguisher
- Snap-in Fenders and Installation Kit
- Sea-Doo Move Trailer
- Watercraft Cover

WARRANTY

BRP limited warranty covers the watercraft for one year.
