

2017 RECREATION GTI™

More features at unbeatable value for money. The Intelligent Brake and Reverse (iBR) lets you maneuver with ease. Enjoy more time on the water with the most fuel-efficient engine in the industry and new lightweight/high-strength Polytec material.

RIDER CAPACITY 
 Weight capacity 600 lb / 272 kg

DIMENSIONS

Fuel capacity	15.9 US gal / 60 l
Length	132.6" / 336.8 cm
Width	48.5" / 123.1 cm
Weight (dry)	640 lb / 291 kg
Storage capacity	30.8 US gal / 116.6 l

ENGINE

Type	Rotax 900 HO ACE
Intake system	Naturally aspirated
Displacement	899 cc
Cooling	Closed-Loop Cooling System (CLCS)
Reverse system	Electronic iBR
Starter	Electric
Fuel type	87 octane

White & Manta Green 

iTC / iBR / CLCS / ECO 

HULL

Type	GTI
• Medium-sized platform	
• Moderate V hull	
• Forgiving and nimble	

ROTAX® 900 HO ACE™ ENGINE

REBOARDING LADDER (OPTION)

ENGINE

899 cc four-stroke, Rotax with three cylinders in-line and four valves per cylinder	The most compact and lightweight engine on the market today. The Rotax 900 HO ACE incorporates crisp acceleration, impressive fuel economy and an excellent power-to-weight ratio.
iTC™ (Intelligent Throttle Control) system	Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features activity-specific Touring, Sport and ECO modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.
iControl® Learning Key®	The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level.
D-Sea-Bel™ system	Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.
Closed-Loop Cooling System	Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

FEATURES

Polytec™	The hull is made of Polytec material, a recyclable, low density and high-impact composite material that includes polypropylene and long glass fiber reinforcements. It was designed to maintain the structural integrity of the watercraft under stress while providing light yet durable parts to support the construction of the product.
iControl	The "Brain" that integrates and controls all systems to create the best possible ride.
Touring mode / Sport mode	Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Sport button. It provides all acceleration performance for a more aggressive throttle response.
ECO mode	This iTC function automatically determines the most economical power delivery and sets the optimal RPM for greatest fuel economy.
3-up seat	Comfortable room for three – permits rear-facing spotter for watersports.
Elevated fuel filler	Easy access and prevents water intrusion while refueling.
RF D.E.S.S.™	With radio frequency technology and a ball-and-socket design, the Digitally Encoded Security System (D.E.S.S.) key provides riders with easy and quick starts every time.
Off-Throttle Assisted Steering (O.T.A.S.®)	Provides the operator with additional steering effect in off-throttle situations for greater maneuverability.
Interactive Multifunction Digital Information Center	Fuel level, Tachometer, Speedometer, Touring mode, Sport mode, ECO mode, Hour meter, Compass, F-N-R indicator and more.
Handgrips with palm rest	Rear grab handle
Sponsons	Seat strap
Bumpers	Front splash deflector
Wide-angle mirrors	Dual drain plugs
Tow hook	Flush kit
Footwell carpets	Emergency floating lanyard
Swim platform carpet	Operator's guide, instructional video and booklet

PROPULSION SYSTEM

iBR (Intelligent Brake & Reverse) system	First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. Now in its 2nd generation, the intuitive and improved iBR allows you to stop close to 160 feet sooner ² for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.
Stainless steel impeller	Delivers improved acceleration, higher top speed and less cavitation.

OPTIONS

- Reboarding Ladder
- Retractable Ski Pylon
- Wakeboard Rack
- Shock Tube
- Depth Finder
- Ski Module
- X package module (Time / distance to empty, Top / average speed / RPM, Lap timer and Engine temperature)
- Sea-Doo Speed Tie™
- Dry Bag
- Ski Tow Eye
- Front Storage Tray
- 12-Volt Outlet and Installation Kit
- Safety Equipment Kit
- Bilge Pump Kit
- Sandbag Anchor
- Fire Extinguisher
- Snap-in Fenders and Installation Kit
- Sea-Doo Move Trailer
- Watercraft Cover

WARRANTY

BRP limited warranty covers the watercraft for one year.
