

# For a world of outstanding theatre...

**PLEIADES THEATRE produces outstanding works of theatre that come from non English-speaking cultures, either through translation or new writing. We also engage youth through educational outreach, all because we believe that Canadian lives are enriched by the shared stories of world cultures expressed through theatre.**

We produce plays from the Canadian and international repertoires and present them in modern innovative productions. New or classical, they are selected for their entertainment value and because they introduce writers and styles not widely known to Toronto audiences. Also, through our unique educational program **Speak the Speech!**, which we offer in both English and French, we make a concerted effort to ensure that the creative process of theatre is accessible to young people of all cultural backgrounds. Plenty of reasons to join with us as we reach for the stars.
