

Dear Community Partner-

Our agencies, in association with the Midstate Chamber of Commerce and The Record-Journal Media Group, are hosting an event to raise money for 2 impactful organizations. Please see the attached flyer that outlines the details of the event, which will benefit The Jesse Lewis Choose Love Foundation and help fund the building of an outdoor classroom along the nature trail at Nathan Hale Elementary school in Meriden. We believe deeply in the mission of each of these organizations and are excited about the opportunity to host an event for their benefit.

We encourage you to research the Jesse Lewis Choose Love Foundation, as we are confident it will impact you as much as it has us. Its founder, Scarlett Lewis, will be a guest speaker at our event. She will share her experience of losing her son, Jesse, in the tragedy at Sandy Hook and how she has chosen to react to that devastating event by working to spread the message of nurturing, healing and love to all children.

We hope that you will consider helping us in supporting these causes by donating to our raffle or joining us for dinner. As the cost of the event will be covered by us, all donations and ticket purchase proceeds will go directly to the organizations. No donation or level of support is too small, as every little bit helps. However, in order to properly recognize those who make a significant impact on our goal we have attached a list of ways you will be recognized before, during and after the event.

Thank you for your time and already great contribution to our communities. Please contact any of us listed below if you have any questions.

Sincerely,

Eileen Bongiovanni
