

# Hillsview Gardens

## OREGON GROWN ORCHIDS

### FLASKS

The following flasks contain a minimum of 25 seedlings and are ready to be potted out. They are shipped in bottle and should be potted out upon arrival. We recommend the seedlings be treated with Thiram for the first week or two, after that we begin fertilizing weekly as they are off and running.

	<p><b>HP-307 Paph. Rod McLellan 'Hillsview' AM/AOS x Paph. Sorcerer's Stone 'Yellow Desire'</b>            Large green to yellow flowers. The Sorcerer's Stone is quite yellow in color. The Rod McLellan is from a Hillsview Gardens remake.  <b>3 Flasks Available \$ 150.00</b></p>
	<p><b>HP-304 Paph. Razzmatazz 'Royal Alert' x Spring Rain 'Posh Frock'</b>            We love the spotted Complex Paphiopedilums and this cross should produce some nice spotted flowers in variety.  <b>3 Flasks Available \$ 125.00</b></p>
	<p><b>HP-300 Paph. fairrieanum – Sib Cross ('Stunning' x 'Hillsview' FCC/AOS)</b>            Everyone has been waiting for these to be released. There are several crosses involving the dark form of this amazing species from Bhutan and this is the first to be released. Both parents are from the AQ/AOS grex that produced not only an AQ but (6) AM/AOS and one FCC/AOS award.  <b>2 Flasks Available \$ 500.00</b></p>

**COMMUNITY POTS**

The following hobby community pots contain 10 - 15 vigorous growing seedlings ready to pot up to individual 2" and 2.25" pots. They are in limited supply.

	<p><b>HP193 Paph. Olympic Mountains 'Grande' x Sorcerer's Stone 'Yellow Desire'</b>                  Paph. Olympic Emerald was used to make Paph. Olympic Emerald, Olympic Halo, and Warm Valley. Large yellow to green flowers with white edged dorsals.  <b>Hobby Community Pots \$ 50.00</b></p>
	<p><b>HP184 Paph. Gigi 'Malibu' AM/AOS x Warm Valley 'Golden Moon' HCC/AOS</b>                  Huge honey blond, tan and orange colored flowers expected here.  <b>Hobby Community Pots \$ 50.00</b></p>
	<p><b>259 Paph. wolterianum ('Pink Wings' x 'Victoria')</b>                  While Paph. wolterianum is considered Paph. appletonianum, this is a sib cross between two stunning examples of the once type species Paph. wolterianum.  <b>Hobby Community Pots \$ 50.00</b></p>

**2" POT SEEDLING SPECIAL**

We are offering all Complex Paphiopedilums in 2" pots regularly priced at \$12.00 each, now at 20% off with a minimum order of 10 plants, your choice. Visit the website and see what is available.
