Accessing the new Elementary Progress Report (EPR)

Parents/Guardians will access the Elementary Progress Report (EPR) through the new EngagED Parent Dashboard at **engaged.dcsdk12.org**. The EngagED Parent Dashboard is an effort to unify the parent experience and partner with parents/guardians to provide relevant district applications and resources, such as the Elementary Progress Report for our elementary families. Parents/Guardians will access the dashboard using the same username and password from the IC Parent Portal.

After logging in, parents/guardians will see a student card with links to district tools specific to the student, such as Open Enrollment and the Elementary Progress Report (EPR). Each student will have a separate card.

Note that the Elementary Progress Report button is not active until the EPR is available for parents/guardians on Saturday, Dec. 19.
