

# CONSOLIDATED FINANCIAL STATEMENTS MARCH 31, 2016 INTERCOMMERCIAL BANK LIMITED

#### **INTERCOMMERCIAL BANK LIMITED**

#### **Management Statement of Responsibilities**

The Financial Institutions Act, 2008 (FIA 2008) requires that management acknowledge responsibility for the preparation of the financial statements annually which provide a true and fair view of the state of affairs of Intercommercial Bank Limited, the parent and its subsidiary (the 'Group') at the end of the financial period and its operating results for that period. It also requires management to establish and maintain an adequate internal control structure and procedures for financial reporting, safeguarding the assets of the Group as well as ensuring compliance with the FIA 2008.

Management is responsible for ensuring that the financial statements presented are a true and fair presentation of the state of affairs of the Group as at and for the year ended March 31, 2016 and this includes ensuring that the systems and information from which the financial statements are derived are properly designed and monitored in a manner which would allow accurate information to be provided. In addition, management is responsible for ensuring that the information presented is free from material misstatement whether due to fraud or error.

Management accepts responsibility for the annual financial statements as well as the responsibility for maintaining accounting records and internal controls which may be relied upon in the preparation of these statements. The financial statements of the Group for the year ended March 31, 2016 are prepared in accordance with International Financial Reporting Standards and the appropriate accounting policies supported by reasonable judgements and estimates of management have been established and applied in a manner which gives a true and fair view of the Group's financial affairs and operating results.

It is noteworthy to mention that nothing has come to the attention of management to indicate that the Group will not remain as a going concern for the next twelve months from the date of this statement.

# Independent Auditors' Report to the Shareholders of Intercommercial Bank Limited

We have audited the accompanying financial statements, comprising the separate financial statements of Intercommercial Bank Limited (the Parent) and the consolidated financial statements of the Parent and its subsidiary (the Group), which comprise the Parent's and Group's statements of financial position as at March 31, 2016, the Parent's and Group's statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

# Independent Auditors' Report to the Shareholders of Intercommercial Bank Limited (cont'd)

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate for the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### Opinior

In our opinion, the statements present fairly, in all material respects, the financial positions of the Parent and Group as at March 31, 2016 and the Parent's and Group's financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards.

#### **Notes to Financial Statements**

March 31, 2016

#### 1. Incorporation and Principal Activity

Intercommercial Bank Limited (the 'Bank' or 'Parent') was incorporated on September 7, 1997 in the Republic of Trinidad and Tobago and commenced operations from June 8, 1998. Its registered office and principal place of business is situated at DSM Plaza, Old Southern Main Road, Chaguanas. The Bank offers a complete range of banking and financial services as permitted under the Financial Institutions Act, 2008.

On October 2, 2013, the Bank became a fully owned subsidiary of Jamaica Money Market Brokers (Trinidad and Tobago) Limited, a company licensed to carry on the business of a financial holding company pursuant to Section 70 of the Financial Institutions Act 2008.

Effective April 26, 2016, the Bank has changed its name to JMMB Bank (T&T) Limited.

The ultimate parent of the Bank and its subsidiary is Jamaica Money Market Brokers Limited, a company domiciled in Jamaica.

Intercommercial Trust and Merchant Bank Limited (ITMBL) was incorporated in the Republic of Trinidad and Tobago in January 2001 and commenced operations in October 2001. ITMBL is a wholly owned subsidiary of the Bank and is a licensed trust company, merchant bank and finance company. Its principal activities include providing medium and long term finance, mortgages, accepting medium and long term fixed deposits from the public, invoice financing, trade and inventory financing, investment services, leasing, project financing and arranging and underwriting issues of marketable securities.

For the purposes of these financial statements, the Bank and its subsidiary are referred to as the Group.

 $These \ financial \ statements \ were \ authorised \ for \ issue \ by \ the \ Board \ of \ Directors \ on \ May \ 13, \ 2016.$ 

#### 2. Basis of Preparation

#### (a) Statement of compliance

The financial statements are prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

#### (b) Basis of measurement

The financial statements have been prepared on the historical cost basis except for financial instruments at fair value through profit or loss and available for sale financial assets which are measured at fair value.

# (c) Functional and presentation currency

Items included in these financial statements are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). These financial statements are presented in Trinidad and Tobago dollars, which is the Group's functional and presentation currency, unless otherwise stated. All amounts are rounded to the nearest thousand, unless otherwise indicated.

#### (d) Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

## FINANCIAL STATEMENTS MARCH 31, 2016

Notes to Financial Statements (cont'd)

March 31, 2016

#### 2. Basis of Preparation (cont'd)

#### (d) Use of estimates and judgements (cont'd)

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in Note 4.

#### (e) Basis of consolidation

#### i) Subsidiary

A 'Subsidiary' is an investee controlled by the Group. The Group 'controls' an investee when it is exposed to, or has rights to, variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. In assessing control, potential voting rights that presently are exercisable or convertible are taken into account. The financial statements of the subsidiary are included in the consolidated financial statements from the date that control commences until the date that control ceases.

#### ii) Transactions eliminated on consolidation

Intragroup balances and any unrealised gains and losses or income and expenses arising from intragroup transactions are eliminated in preparing the consolidated financial statements.

#### 3. Significant Accounting Policies

The principal accounting policies adopted in the preparation of these financial statements are set out below:

#### (a) Foreign currency

Transactions in foreign currencies are initially recorded at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are expressed in Trinidad and Tobago dollars at the rate of exchange ruling on the reporting date. All differences arising are taken to the statement of comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

# (b) Financial assets and liabilities

The Group's financial assets and financial liabilities are recognised in the Group's statement of financial position when it becomes party to contractual obligations of the instrument.

The Group derecognises its financial assets when it loses control of the contractual rights that comprise the financial assets. The Group loses such control if it realises rights to benefits specified in the contract, the rights expire, or the Group surrenders those rights. Financial liabilities are derecognised only when the obligation is discharged, cancelled or expired.

#### (c) Cash and cash equivalents

Cash and equivalents include notes and coins on hand, balances held with Central Bank and other financial institutions, which are highly liquid financial assets with less than 90 days to maturity from the date of acquisition, are subject to insignificant risk of changes in their fair value, and are used by the Group in the management of its short-term commitments.

#### (d) Impairment

The carrying amounts of the Group's assets, other than deferred tax assets (see accounting policy (q)), are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated (see accounting policy (d)(i)) and an impairment loss is recognised whenever the carrying amount of an asset exceeds its recoverable amount. Impairment losses are recognised in the statement of comprehensive income.

When there is objective evidence that an available-for-sale financial asset is impaired, the cumulative loss that had been recognised in reserves is recognised in the statement of comprehensive income even though the financial asset has not been derecognised.

Notes to Financial Statements (cont'd)

March 31, 2016

#### 3. Significant Accounting Policies (cont'd)

#### (d) Impairment (cont'd)

The amount of the cumulative loss that is recognised in the statement of comprehensive income is the difference between the acquisition cost and current fair value, less any impairment loss on that financial asset previously recognised in the statement of comprehensive income.

#### (i) Calculation of recoverable amount

The recoverable amount of the Group's loans and advances is calculated as the present value of estimated future cash flows, discounted at the original effective interest rate (i.e. the effective interest rate computed at initial recognition of these financial assets).

The recoverable amount of other assets is the greater of their net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. Receivables with a short duration are not discounted.

#### (ii) Reversals of impairment

An impairment loss in respect of a receivable carried at amortised cost is reversed if the subsequent increase in recoverable amount can be related objectively to an event occurring after the impairment loss was recognised.

An impairment loss in respect of an investment in an equity instrument classified as available-for-sale is not reversed through the statement of comprehensive income.

If the fair value of a debt instrument classified as available-for-sale increases and the increase can be objectively related to an event occurring after the impairment loss was recognised in the statement of comprehensive income, the impairment loss shall be reversed, with the amount of the reversal recognised in the statement of comprehensive income.

#### (e) Loans and advances

Loans and advances are financial assets with fixed or determinable payments and are not quoted in an active market. Such assets are stated at amortised cost, net of any provisions for credit losses using the effective interest method.

A loan is classified as impaired when there is objective evidence that the Group will not be able to collect all amounts due according to the original contractual terms of the loan. Objective evidence of impairment includes observable data that comes to the attention of the Group such as:

- Delinquency in contractual payments of principal or interest
- Cashflow difficulties experienced by the borrower
- Breach of loan covenants or conditions
- Initiation of bankruptcy proceedings
- Deterioration of the borrower's competitive position
- Deterioration of the value of collateral
- Downgrading below investment grade

If there is objective evidence that an impairment loss on loans has been incurred, the amount of the allowance for impairment is measured as the difference between the carrying amount and the recoverable amount, being the present value of expected future cash flows, including amounts recoverable from guarantees and collateral, discounted at the original effective interest rate of loans. Interest on loans over 90 days past due is no longer accrued and taken to income on an ongoing basis because there is doubt as to the recoverability of the balance.

The allowance which is made during the year, less amounts released and recoveries of bad debts previously written off, is charged against the statement of comprehensive income. When a loan is deemed uncollectible, it is written off against the related allowance for losses

Where possible the Group seeks to restructure loans rather than take possession of collateral. This may involve extending the payment arrangements and the arrangement of new loan conditions. Once the terms have been restructured, the loan is no longer considered past due. Management continuously reviews restructured loans to ensure that all conditions are met and future payments are likely to occur.

## FINANCIAL STATEMENTS MARCH 31, 2016

Notes to Financial Statements (cont'd)

March 31, 2016

#### 3. Significant Accounting Policies (cont'd)

#### (f) Repurchase and reverse repurchase agreements

Securities sold under agreements to repurchase (repurchase agreements) and securities purchased under agreements to resell (reverse repurchase agreements) are treated as collateralised financing transactions. The difference between the sale/purchase and repurchase/resale price is treated as interest and accrued over the life of the agreements using the effective yield method.

#### (g) Investment securities

All purchases and sales of investment securities that require delivery within the time frame established by regulation or market convention are recognised at trade date.

#### (i) At fair value through profit or loss

Securities at fair value through profit or loss are trading securities which were either acquired for generating a profit from short-term fluctuations in price or dealer's margin, or are securities included in a portfolio in which a pattern of short-term profit taking exists. Trading securities are initially recognised at cost and subsequently re-measured at fair value based on quoted bid prices at reporting date. Where the instrument is not actively traded or quoted on recognised exchanges, fair value is determined using discounted cash flow analysis. Where discounted cashflow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate is a market related rate at the reporting date for an instrument with similar terms and conditions.

All related realised and unrealised gains and losses are included in operating income. Interest earned whilst holding trading securities is reported as interest income.

#### (ii) Available-for-sale

Available-for-sale securities are financial assets that are not financial assets at fair value through profit and loss, originated by the Group or held to maturity. These are initially measured at cost.

After initial recognition, investments which are classified as "available-for-sale" are measured at fair value in the same manner described above, with unrealised gains or losses on revaluation recognised as a separate component of equity until the investment is sold, collected or otherwise disposed of, or until the investment is determined to be impaired, at which time the cumulative loss or gain previously reported in the unrealised investment reserve is included in the statement of comprehensive income.

Any available-for-sale asset that does not have a quoted market price in an active market and where fair value cannot be reliably measured is stated at cost less impairment losses.

#### (iii) Held to maturity

Held-to-maturity assets are other investments which the Group's management has the positive intention and ability to hold to maturity. These investments are carried at amortised cost less impairment losses. Amortised cost is calculated on the effective interest method.

# (h) Related parties

# (a) Definition of related parties

A party is related to the Group, if:

- (i) directly, or indirectly through one or more intermediaries, the party:
  - a) is controlled by, or is under common control with, the Group (this includes parents, subsidiaries and fellow subsidiaries);
  - has a direct or indirect interest in the Group that gives it significant influence; or
  - c) has joint control over the Group;
- (ii) the party is an associate of the Group;
- (iii) the party is a joint venture in which the company is a venturer;
- (iv) the party is a member of the key management personnel of the Group or its parent;
- (v) the party is a close member of the family of any individual referred to in (i) or (iv);
- (vi) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or

#### Notes to Financial Statements (cont'd)

March 31, 2016

#### 3. Significant Accounting Policies (cont'd)

#### (h) Related parties (cont'd)

- (a) Definition of related parties (cont'd)
  - (vii) the party is a post-employment benefit plan for the benefit of employees of the Group, or of any entity that is a related party of the company.
- (b) Identity of, and transactions and balances with, related parties

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

The Group has a related party relationship with its directors and key management personnel, representing certain senior officers of the company, its parent company and all their affiliates

A number of banking transactions are entered into with related parties in the normal course of business. These transactions were carried out on commercial terms and conditions at market rates, except loans to officers (see Note 23).

#### (i) Property, plant and equipment

Property, plant and equipment are recorded at cost less accumulated depreciation and impairment losses. Costs subsequent to acquisition are included in the asset's carrying amount or recognised as a separate asset, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation on furniture and equipment, which consist of computer hardware, machinery and office equipment, is provided on the reducing balance method at various rates sufficient to write off the assets over their estimated useful lives. Depreciation on leasehold improvements is computed using the straight line method over the life of the lease, or if shorter, the useful life of the asset.

The rates used are as follows:

Furniture and equipment  $10\% - 33\frac{1}{3}\%$ 

The assets residual values and useful lives are reviewed at each reporting date and adjusted if appropriate. Gains and losses on disposal of property, plant and equipment are determined by comparing proceeds with their carrying amount and are taken into account in determining operating profit.

#### (j) Deposits and other funding instruments

Deposits, other funding instruments and debt securities are the Group's sources of debt funding. They are classified in accordance with their contractual terms, typically financial liabilities. These debt funding instruments are initially measured at fair value and subsequently remeasured at their amortised cost using the effective interest method.

# (k) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made.

#### (I) Reserve requirements

In accordance with the provisions of the Financial Institutions Act, 2008, Intercommercial Bank and Intercommercial Trust and Merchant Bank are required to hold and maintain with the Central Bank of Trinidad and Tobago a cash reserve balance equivalent to 17% and 9%, respectively, of total prescribed liabilities.

Additionally, the Central Bank has mandated that the Bank maintain an interest bearing Secondary Reserve of 2% of total prescribed liabilities along with fixed rate term deposits with tenors of one year each.

# (m) Statutory reserve fund

In accordance with the Financial Institutions Act, 2008, Intercommercial Bank and Intercommercial Trust and Merchant Bank are required to transfer at the end of each financial year no less than 10% of their net income after tax to a statutory reserve fund until the amount standing to the credit of the statutory reserve fund is not less than their paid-up capital.

## FINANCIAL STATEMENTS MARCH 31, 2016

**Notes to Financial Statements** (cont'd) March 31, 2016

# (n) Revenue recognition

#### i. Interest income and expense

Significant Accounting Policies (cont'd)

Interest income and expense are recognised in the statement of comprehensive income for all interest bearing instruments on an accrual basis using the effective yield method based on the actual purchase price. Interest income includes coupons earned on fixed income investment and trading securities as well as accrued discount and premium on treasury bills and other instruments. Interest income is reversed when loans are 90 days overdue and considered non-performing.

The effective interest rate method is a method of calculating the amortised cost of a financial asset or financial liability and of allocating the interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument, or where appropriate, a shorter period to the net carrying amount of the financial asset or liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

#### ii. Fees and commissions income

Unless included in the effective interest calculation, fees and commissions are recognised on an accrual basis as the service is provided. Commissions and fees not integral to the effective interest arising from negotiating or participating in negotiation of a transaction for a third party are recognised on the completion of the underlying transaction.

#### iii. Dividends

Dividend income is recognised when the right to receive income is established. Usually this is the ex-dividend date for equity securities. Dividends are reflected as a component of net trading income, net income on other financial instruments at fair value or other operating income based on the underlying classification of the equity instrument.

# (o) Accounting for leases - where the Group is the lessee

Leases entered into by the Group are all operating leases. Payments made under operating leases are charged to the statement of comprehensive income on a straight-line basis over the period of the lease.

When the operating lease is terminated before the lease period has expired, any payment required to be made to the lessor by way of a penalty is recognised as an expense in the period in which termination takes place.

# (p) Employee benefits

#### (i) Short term

Employee benefits are all forms of consideration given by the Group in exchange for service rendered by employees. These include current or short-term benefits such as salaries, bonuses, National Insurance Scheme contributions, annual leave, and non-monetary benefits such as medical care and loans, post-employment benefits such as pensions, and other long-term employee benefits such as termination benefits.

Employee benefits that are earned as a result of past or current service are recognised in the following manner: short-term employee benefits are recognised as a liability, net of payments made, and charged as expense. Post-employment benefits are accounted for as described below.

# (ii) Post employment

The Group operates a two tiered defined contribution plan with Guardian Life of the Caribbean Limited, which is in compliance with the provisions of the Income Tax Act of Trinidad & Tobago Section 134(6). Under the terms of employment the Group is obligated to contribute on behalf of all eligible employees an amount of 10% of the employees' pensionable salary directly to the Company's plan.

In addition, all eligible employees contribute an amount of 5% of their pensionable salary to individual annuities.

The Group's contributions to the Group's plan are charged to the statement of comprehensive income in the year to which they relate. For the current financial year, March 31, 2016, the Group's contributions amounted to \$2.6 million (2015: \$2.5 million).

#### (g) Taxation

Tax on income comprises current tax and the change in deferred tax. Current tax comprises tax payable calculated on the basis of the expected taxable income for the year, using the

# Notes to Financial Statements (cont'd)

March 31, 2016

#### 3. Significant Accounting Policies (cont'd)

#### (q) Taxation (cont'd)

tax rate enacted by the reporting date, green fund levy and any adjustment of tax payable for the previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes, except differences relating to the initial recognition of assets or liabilities which affect neither accounting nor taxable income (loss). Net deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Deferred tax is calculated on the basis of the tax rate that is expected to apply to the period when the asset is realised or the liability is settled. The effect on the deferred tax of any changes in the tax rate is charged to the statement of comprehensive income, except to the extent that it relates to items previously charged or credited directly to equity.

#### (r) Earnings per share

Data on basic earnings per share has been computed by dividing the net profit attributable to ordinary shareholders, by the weighted average number of ordinary shares in issue during the year.

Parent				Group	
201	5 2016		_	2016	2015
		Earnings per share			
5,63	2 11,933	Net profit after tax (\$'000)	_	12,371	6,279
77,63	1 77,631	Number of shares in issue ('000)	_	77,631	77,631
\$ 0.07	7 0.15	Earnings per share	9	0.16	\$ 0.08

#### (s) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are not yet effective for the year ended March 31, 2016 and have not been applied in preparing these financial statements. It is not expected that these will have a material effect on the financial statements of the Group, except:

- IAS 1, Presentation of Financial Statements, effective for accounting periods beginning on or after January 1, 2016, has been amended to clarify or state the following:
  - specific single disclosures that are not material do not have to be presented even if they are minimum requirements of a standard;
  - the order of notes to the financial statements is not prescribed;
  - line items on the statement of financial position and the statement of profit or loss and other comprehensive income (OCI) should be disaggregated if this provides helpful information to users. Line items can be aggregated if they are not material;
  - specific criteria is now provided for presenting subtotals on the statement of financial position and in the statement of profit or loss and OCI, with additional reconciliation requirements for the statement of profit or loss and OCI; and
  - the presentation in the statement of OCI of items of OCI arising from joint ventures and associates accounted for using the equity method follows the IAS 1 approach of splitting items that may, or that will never, be reclassified to profit or loss.

The Group is assessing the impact that this amendment will have on its 2017 financial statements.

• IFRS 9, Financial Instruments, which is effective for annual reporting periods beginning on or after January 1, 2018, replaces the existing guidance in IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 includes revised guidance on the classification and measurement of financial assets and liabilities, including a new expected credit loss model for calculating impairment of financial assets and the new general hedge accounting requirements. It also carries forward the guidance on recognition and derecognition of financial instruments from IAS 39. Although the permissible measurement bases for financial assets – amortised cost, fair value through other comprehensive income (FVOCI) and fair value though profit or loss (FVTPL) - are similar to IAS 39, the criteria for classification into the appropriate measurement category are significantly different. IFRS 9 replaces the 'incurred loss' model in IAS 39 with an 'expected credit loss' model, which means that a loss event will no longer need to occur before an impairment allowance is recognized.

The Group is assessing the impact that this amendment will have on its 2019 financial statements.

# FINANCIAL STATEMENTS MARCH 31, 2016

# **Notes to Financial Statements** (cont'd) March 31, 2016

#### 3. Significant Accounting Policies (cont'd)

#### (s) New standards and interpretations not yet adopted (cont'd)

• IFRS 15, Revenue From Contracts With Customers, effective for accounting periods beginning on or after January 1, 2018, replaces IAS 11, Construction Contracts, IAS 18, Revenue, IFRIC 13, Customer Loyalty Programmes, IFRIC 15, Agreements for the Construction of Real Estate, IFRIC 18, Transfer of Assets from Customers and SIC-31 Revenue – Barter Transactions Involving Advertising Services. It does not apply to insurance contracts, financial instruments or lease contracts, which fall in the scope of other IFRSs. It also does not apply if two companies in the same line of business exchange non-monetary assets to facilitate sales to other parties.

The Group will apply a five-step model to determine when to recognise revenue, and at what amount. The model specifies that revenue should be recognised when (or as) an entity transfers control of goods or services to a customer at the amount to which the entity expects to be entitled. Depending on whether certain criteria are met, revenue is recognised at a point in time, when control of goods or services is transferred to the customer; or over time, in a manner that best reflects the entity's performance.

There will be new qualitative and quantitative disclosure requirements to describe the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers.

The Group is assessing the impact that this amendment will have on its 2019 financial statements.

#### (t) Acceptances, guarantees and letters of credit

The Group's commitments under acceptances, guarantees and letters of credit have been excluded from these financial statements because they do not meet the criteria for recognition. These commitments as at March 31, 2016 totalled \$11,392 million (2015: \$12,466 million). In the event of a call on these commitments, the Group has equal and offsetting claims against its customers.

#### (u) General loss reserve

The general loss reserve is a non-distributable reserve and has been established by the Bank based on the Guidelines on Measurement, Monitoring and Control of Impaired Assets issued by the Central Bank of Trinidad and Tobago. The reserve is created through an appropriation of retained earnings and is calculated as a percentage of the loan portfolio that is not individually assessed for provisions or impairment as at the end of the financial year.

# 4. Significant Accounting Judgements and Estimates

In the process of applying the Group's accounting policies, management has made judgements, estimates and assumptions in determining the amounts recognised in the financial statements as assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected. The most significant use of judgements and estimates are as follows:

#### Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded on the statement of financial position cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of mathematical models. The input to these models is taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Note 24 provides the Group's policy on fair value measurement which reflects the significance of inputs used in making the measurements.

# Impairment losses on loans and advances

The Group reviews its loans and advances portfolio at each reporting date to assess whether an allowance for impairment should be recorded in the statement of comprehensive income. In particular, judgement by management is required in the estimation of the amount and timing of future cash flows when determining the level of allowance required. Such estimates are based on assumptions about a number of factors and actual results may differ, resulting in future changes to the allowance.

# Impairment of equity investments

The Group treats available-for-sale equity investments as impaired when there has been a significant or prolonged decline in the fair value below its costs or where other objective evidence of impairment exist. The determination of what is "significant" or "prolonged" requires judgement.

#### Notes to Financial Statements (cont'd)

March 31, 2016

#### 4. Significant Accounting Judgements and Estimates (cont'd)

#### Held-to-Maturity Investments

The Group follows the guidance from IAS 39 on classifying non derivative financial assets with fixed or determinable payments and maturities as held to maturity securities. This classification requires significant judgement regarding the Group's ability and intention to hold such investments to maturity.

#### Deferred tax assets

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax asset that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

#### Property, plant and equipment

Management exercises judgement in determining whether costs incurred can accrue sufficient future economic benefits to the Group to enable the cost to be treated as a capital expense. Further judgement is used upon annual review of the residual values and useful lives of all capital items to determine any necessary adjustments to carrying value.

# 21. Financial Risk Management

#### Introduction and overview

The Group has exposure to the following risks from its use of financial instruments:

- Credit Risk
- Settlement Risk
- Liquidity Risk
- Market Risk
- Operational Risk

This note presents information about the Group's exposure to each of the above risks, its objectives, policies and processes for measuring and managing risk, and its management of capital.

#### Risk Management Framework

The Board of Directors (the Board) has overall responsibility for the establishment and oversight of the Group's Risk Management Framework. The Board has established the Group Credit and Investment, Audit and Risk committees. These Board committees currently employ an integrated Risk Management Framework supported by three Management Committees in order to maximise shareholders value within the Group's risk appetite; Management Credit Committee, Asset and Liability Committee (ALCO), and Operational Risk Committee, which are responsible for the development and monitoring of the Group risk management policies in their specified areas. All Board committees have non-executive members and report regularly to the Board.

The Group's risk management policies, as approved by Board, establish a framework for identification, analysis and measurement of the risks faced by the Group, setting of appropriate risk limits and controls, as well as the monitoring of risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions, products and services offered. The Group, through its training and management standards and procedures, aims to continuously develop a disciplined and constructive control environment, in which all employees understand their roles and obligations.

The Group Audit and Risk Committees are responsible for monitoring compliance with the Group's risk management policies and procedures and for reviewing the adequacy of the risk management framework in relation to the risks faced by the Group. The Group Audit and Risk Committees are assisted in these functions by Internal Audit. Internal Audit undertakes both regular and ad-hoc reviews of risk management controls and procedures, the results of which are reported to the Audit committee.

## FINANCIAL STATEMENTS MARCH 31, 2016

Notes to Financial Statements (cont'd) March 31, 2016

#### 21. Financial Risk Management (cont'd)

#### (a) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's loans and advances to customers and other banks and investment securities. For risk management reporting purposes, the Group considers and consolidates all elements of credit risk exposure (such as the individual obligor, the obligor risk group and the obligor risk rating, country and sector risk), as well as manages credit risk arising on trading activities.

#### Management of credit risk

The Board has delegated responsibility for the management of credit risk to its Board Credit and Investment Committee, the Management Credit Committee and individual Team Members as deemed necessary. A separate Group Credit Risk department, reporting to the Chief Risk Officer, is responsible for oversight of the Group's credit risk, including:

- Formulating credit policies in consultation with business units, covering credit assessment, risk grading and reporting, collateral requirements, documentary and legal procedures, and compliance to regulatory and statutory requirements.
- Establishing the authorisation structure for the approval and renewal of credit facilities. Authorisation limits, as approved by the Board, are allocated on an individual and/or committee basis which includes the Management Credit Committee, and the Board Credit and Investment Committee. Approval under each committee is based on delegated authority level as approved by the Board.
- Reviewing and assessing credit risk. Group Credit Risk assesses credit exposures prior to facilities being approved and committed to customers by the business unit concerned. Renewals and requests for new facilities are subject to the same
- Limiting concentrations of exposure to counterparties, geographies and industries (for loans and advances), and by obligor/issuer, credit rating band, market liquidity and exposure by country (for investment securities).
- Developing and maintaining the Group's risk rating systems and guidelines is an integral part of the credit appraisal process. Each borrower under the business banking credit categories has to be risk rated in accordance with the model recommended by the Group Risk Unit and approved by the Board. The risk rating assigned is reviewed annually or earlier as appropriate. The accountability for the setting of the risk rating of the obligor lies with the Chief Risk Officer and in the exceptional case where the Board Credit and Investment Committee suggests a change, the final approving authority is the JMMB Group's Risk Manager. The risk rating model takes into account the risk relating to management, the business, collateral security, financial performance and transactional data. In the case of credit facilities to consumers a scoring model is used in the appraisal process. The risk rating or credit score of the obligor reflects the level of risk associated with the exposure and is the main driver in pricing.
- Reviewing compliance with agreed exposure limits, including those for selected industries, country and cross border risk and product types. Regular reports are provided by Group Credit Risk Unit to the Management Credit Committee, the Board Credit and Investment Committee and the Board Risk Committee on the credit quality of the Group's portfolios and where necessary appropriate corrective action is taken.
- Providing advice, guidance and specialist skills to business units to promote best practice throughout the Group in the management of credit risk.

Each business unit is required to implement Group credit policies and procedures, with credit approval authorities delegated to the Board Credit and Investment Committee, the Management Credit Committees and Credit Risk officers. Each business unit is responsible for the quality and performance of its credit portfolio and for monitoring and controlling all credit risks in its portfolios.

Regular audits of business units and Group Credit processes are undertaken by Internal Audit.

#### Impaired loans and Investments

Impaired loans and securities are loans and securities for which the Group determines that it is probable that it will be unable to collect all principal and interest due according to the contractual terms of the loan/securities agreement(s).

#### Past due but not impaired loans

Loans and securities where contractual interest or principal payments are past due but the Group believes that impairment is not appropriate on the basis of the level of security/collateral available and/or the stage of collection of amounts owed to the Group.

# Rescheduled/Refinanced and Restructured Loans

Rescheduled/refinanced loans are extensions of credit which have been modified at favourable terms and conditions for the borrower due to factors such as variation in interest rates or increased lending. That is, there is no inherent weakness in the credit being rescheduled/refinanced.

Restructured loans are facilities which have been refinanced, rolled over or otherwise modified as a result of an assessment of the borrower's inability to service the facility in line with the original repayment terms and conditions. As conditions precedent to a restructuring, the obligor must demonstrate the capacity to service the debt under the new conditions imposed by the restructured facility and the facility must be fully secured with standard loan to value margins restored which may require additional or up-stamped collateral.

# Allowances for impairment

The Group establishes allowances for impairment or provisions in respect of individual financial assets which are not performing satisfactorily. These provisions are based on an assessment of the recoverability of collateral held as security on the facilities which is discounted using the original interest rate over the expected recovery period. Any shortfall of these expected recoverable amounts when compared to the principal outstanding is provided for through the statement of comprehensive income as reflected in Note 5.

#### Write-off policy

The Group writes off a loan/investment balance (and any related allowances for impairment losses) when the Chief Risk Officer, the Management Credit Committee or the Group Credit and Investment Committee (as per delegated limits approved by the Board) determines that the loans/investments are uncollectible.

This determination is reached after considering information such as the occurrence of significant changes in the borrower/issuer's financial position such that the borrower/issuer can no longer pay the obligation, or that proceeds from the liquidation of the collateral will not be sufficient to fully liquidate the exposure. As at March 31, 2016 the amount written off was \$2.2 million (2015: \$211 thousand).

Set out in the table is an analysis of the gross and net (of allowances for impairment) amounts of impaired assets.

#### Collateral held

The Group holds collateral against loans and advances to customers in the form of mortgage interest over property, other registered securities over assets, and guarantees. Estimates of fair value are based on the value of collateral assessed at the time of borrowing. Annual property inspections are performed by management while independent third party valuations are required every three years or when a loan is individually assessed as impaired. Collateral generally is not held over loans and advances to banks, except when securities are held as part of reverse repurchase and securities borrowing activity. Collateral is not usually held against investment securities and no such collateral was held at March 31, 2016 or 2015.

An estimate of the fair value of collateral and other security enhancements held against loans and advances to other customers is shown below:

international	1,005,401	926,937		230,592

Concentration by location for loans and advances is measured based on the location of the obligor. Concentration by location for investment securities is measured based on the location of the issuer of the security.

#### (b) Settlement risk

The Group's activities may give rise to risk at the time of settlement of transactions and trades. Settlement risk is the risk of loss due to the failure of a company to honour its obligations to deliver cash, securities or other assets as contractually agreed.

Settlement limits form part of the credit approval/limit monitoring process. Acceptance of settlement risk on trades requires transaction specific or counterparty specific approvals from Group Risk.

# (c) Liquidity risk

Liquidity risk is the risk that the Group is unable to meet its payment obligations associated with its financial liabilities when they fall due and/or to replace funds when they are withdrawn.

# Management of liquidity risk

The Group's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

# Notes to Financial Statements (cont'd)

March 31, 2016

#### 21. Financial Risk Management (cont'd)

#### (c) Liquidity risk (cont'd)

#### Management of liquidity risk (cont'd)

The Group's Treasury Unit receives information from other business units regarding the liquidity profile of their financial assets and liabilities and details of other projected cash flows arising from projected future business. Treasury then maintains a portfolio of short-term liquid assets, largely made up of short-term liquid investment securities, loans and advances to banks and other inter-bank facilities, which can be used for liquidity support. The liquidity requirements of business units and the subsidiary are met through funding sourced by Treasury to cover any short-term fluctuations and longer term funding sourced by the business units.

The daily liquidity position is monitored by the Treasury Unit. Daily reports cover the liquidity position of both the Group and its operating subsidiary. A summary report, including any exceptions and remedial action taken, is submitted regularly to Risk Committee and ALCO for review and monitoring.

#### Exposure to liquidity risk

Apart from monitoring of daily cash forecasts and concentration risks, a key measure used by the Treasury for managing liquidity risk is the ratio of net liquid assets to total assets. For this purpose liquid assets are defined as comprising cash and cash equivalents and treasury bills maturing within one year. Reported hereunder is the ratio of liquid assets to total assets on all currencies at the reporting date and during the year:

	2016	2015

## FINANCIAL STATEMENTS MARCH 31, 2016

# Notes to Financial Statements (cont'd)

March 31, 2016

## 21. Financial Risk Management (cont'd)

#### (c) Liquidity risk (cont'd)

#### Maturity analysis for financial liabilities (cont'd)

The tables in the previous page show the undiscounted cash flows on the Group's financial liabilities on the basis of their earliest possible contractual maturity. The Group's expected cash flows on these instruments could vary from this analysis. For example, demand deposits from customers are expected to maintain a stable or increasing balance.

#### (d) Market risks

Market risk is the risk that changes in market prices, such as interest rates, equity prices, foreign exchange rates and credit spreads (not relating to changes in the obligor's/issuer's credit standing) will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on risk.

#### Management of market risks

The Group holds no exposure to actively traded portfolios. With the exception of translation risk arising on the Group's net balance sheet position, all foreign exchange risk within the Group is managed by the Group's Treasury Unit.

Overall responsibility for review and monitoring of market risk is vested in the ALCO. The Group's Risk Unit is responsible for the development of detailed risk management policies and for the day-to-day review of their implementation.

#### Exposure to interest rate risk – non-trading portfolios

The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instrument because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing gaps. The ALCO is the monitoring body for compliance with these limits and is assisted by the Risk Unit in its day-to-day monitoring activities. The table below summarises the Group's exposure to interest rate risks. Included in the table are the Group's assets and liabilities at carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

#### Interest rate risk (Group)

The management of interest rate risk against interest rate gap limits is supplemented by monitoring the sensitivity of the Group's financial assets and liabilities to various standard and non-standard interest rate scenarios. Standard scenarios that are considered on a monthly basis include a 100 basis point (bp) parallel fall or rise in interest rates. An analysis of the Group's sensitivity to an increase or decrease in market interest rates is as follows:

	100 bp Parallel Increase (\$'000)	100 bp Parallel Decrease (\$'000)	Increase After 1 Year (\$'000)	Decrease After 1 Year (\$'000)

Overall non-trading interest rate risk positions are managed by the Group's Treasury Unit, which uses investment securities, advances to banks and deposits from banks to manage the overall position arising from the Group's non-trading activities.

Notes to Financial Statements (cont'd)

March 31, 2016

#### 21. Financial Risk Management (cont'd)

#### (d) Market risks (cont'd)

#### Exposure to other market risks - non-trading portfolios

Credit spread risk (not relating to changes in the obligor's/issuer's credit standing) on debt securities held by the Group's Treasury Unit and equity price risk is subject to regular monitoring by Group Risk, but is not currently significant in relation to the overall results and financial position of the Group.

#### Exposure to currency risk

The techniques used by the Group to manage currency risk vary subject to market conditions. Assets are primarily funded from liabilities of the same currency, thus eliminating currency risk. Foreign currency transactions have not required the use of interest rate swaps, foreign currency options or other derivative instruments. Currency exposure resides mainly in trading activity where the Parent buys and sells currencies in the spot markets. Trading portfolios are managed with the intent to buy and sell over short periods, rather than to hold positions for investments. Explicit limits are established by currency, position and term, and daily reports are reviewed for compliance.

#### Currency risk (Group)

The Group has the following significant foreign currency positions expressed in Trinidad and Tobago dollars.

#### (e) Operational risks

Operational risk is the risk of direct or indirect loss arising from a wide variety of causes associated with the Group's processes, personnel, technology and infrastructure, and from external factors other than credit, market and liquidity risks such as those arising from legal and regulatory requirements and generally accepted standards of corporate behaviour. Operational risks arise from all of the Group's operations and are faced by all business entities.

# Notes to Financial Statements (cont'd)

March 31, 2016

#### 21. Financial Risk Management (cont'd)

#### (e) Operational risks (cont'd)

The Group's objective is to manage operational risk so as to balance the avoidance of financial losses and damage to the Group's reputation with overall cost effectiveness and to avoid control procedures that restrict initiative and creativity.

The primary responsibility for the development and implementation of controls to address operational risk is assigned to the Operational Risk Committee. This responsibility is supported by the development of overall Group standards for the management of operational risk in the following areas:

- requirements for appropriate segregation of duties, including the independent authorisation of transactions
- · requirements for the reconciliation and monitoring of transactions
- compliance with regulatory and other legal requirements
- documentation of controls and procedures
- requirements for the periodic assessment of operational risks faced, and the adequacy of controls and procedures to address the risks identified
- requirements for the reporting of operational losses and proposed remedial action
- development of contingency plans
- training and professional development
- ethical and business standards
- risk mitigation, including insurance where this is effective.

Compliance with Group standards is supported by a programme of periodic reviews undertaken by Internal Audit.

#### (f) Business Continuity

The Group's Business Continuity Plan (BCP) encompasses a defined set of planning, preparatory and related activities which are intended to ensure that the critical business functions will either continue to operate despite serious incidents or disasters that might otherwise have interrupted its operations, or will be recovered to an operational state within a reasonably short period. The management of Business Continuity falls largely within the sphere of Risk Management.

The objectives of the Group's BCP are to:

- 1. Protect human life.
- 2. Identify processes critical to the operations of the Group and safe guard the Group's assets.
- 3. Provide tested plans which, when executed, will permit timely and efficient recovery and resumption of the Bank's critical business functions.
- 4. Minimize the inconvenience and potential disruption of service to internal and external customers.
- 5. Describe the organizational structure necessary for executing the plan.
- 6. Identify the equipment, procedures and activities for recovery.
- 7. Ensure that the reputation and financial viability of the Bank is maintained at all times.
- 8. Ensure compliance with regulatory requirements.

The BCP is focused on minimizing the down time and data loss within the thresholds identified by the Bank. The plan is meant to minimize the loss to the Bank and or negative impact to customer service as a result of serious incidents or disasters that may occur for some time.

Group standards are supported by periodic reviews undertaken by the Internal Audit department.

#### 22. Capital Management

#### Regulatory capital

The Group's lead regulator the Central Bank of Trinidad and Tobago sets and monitors capital requirements for the parent company and the subsidiary. In implementing current

# FINANCIAL STATEMENTS MARCH 31, 2016

Notes to Financial Statements (cont'd)

March 31, 2016

#### 22. Capital Management (cont'd)

#### Regulatory capital (cont'd)

capital requirements the Central Bank of Trinidad and Tobago requires that the bank and its subsidiary maintain a prescribed ratio of total capital to total risk-weighted assets.

Regulatory capital is analysed into two tiers:

- Tier 1 capital, which includes ordinary share capital, retained earnings statutory reserve after deductions for intangible assets, and other regulatory adjustments relating to items that are included in equity but are treated differently for capital adequacy purposes. These capital elements are considered core because they are either: (i) permanent in nature, or (ii) available to absorb losses while the institution remains a going concern.
- Tier 2 capital, which includes qualifying subordinated liabilities, collective impairment allowances and the element of the fair value reserve relating to unrealised gains on equity instruments classified as available-for-sale.

The capital framework identifies various elements of the capital base: Qualifying Tier 2 capital cannot exceed Tier 1 capital, the minimum ratio of Tier 1 capital to risk weighted assets is 4% and the minimum total capital to risk weighted assets is 8%. There also are restrictions on the amount of collective impairment allowances that may be included as part of Tier 2 capital. Other deductions from capital include the carrying amounts of investments in subsidiaries that are not included in the regulatory consolidation, investments in the capital of banks and certain other regulatory items.

The Group's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The impact of the level of capital on shareholders' return is also recognised and the Group recognises the need to maintain a balance between the higher returns that might be possible with greater gearing and the advantages and security afforded by a sound capital position.

The Parent and its subsidiary have complied with all externally imposed capital requirements throughout the year.

The Group's approach to capital management has been consistent with prior years.

The Parent's regulatory capital position at March 31 was as follows:

	2016	2015
	\$'000	\$'000
Tier 1 capital		
Ordinary share capital	77,631	77,631
Statutory reserve	30,225	29,032
Retained earnings	26,850	17,462
Total Tier 1 capital	134,706	124,125
Tier 2 capital		
Fair value reserve for available-for-sale equity securities	(1,019)	(1,219)
Qualifying portion of subordinated debt	61,387	62,063
General loss reserve	18,785	17,433
Disllaowed general loss reserve	(5,752)	(5,919)
Total Tier 2 capital	73,401	72,358
Less investment in financial subsidiaries	(15,000)	(15,000)
Total regulatory capital	_193,107	181,483
Risk-weighted assets		
Loans and advances, investment securities and other assets	1,036,792	915,240
Capital ratios		
Total regulatory capital expressed as a percentage of total risk-weighted assets	18.63%	19.83%
Total Tier 1 capital expressed as a percentage of risk-weighted assets	12.99%	13.56%

On April 4, 2014, Intercommercial Bank Limited issued \$80,000,000 of unsecured, subordinated debt. The Financial Institutions (Prudential Criteria) Regulation 1994 limits the amount of the subordinated debt that can qualify as Tier 2/supplementary capital to 50% of the Bank's Tier 1/ core capital.

Notes to Financial Statements (cont'd)

March 31, 2016

#### 23. Related Party Balances and Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operating decisions. These transactions were carried out on normal terms and conditions at market rates. For the year ended March 31, 2016, the Group has not made any provision for doubtful debts relating to amounts owed by related parties (2015: NIL).

The following table provides the total amount of balances and transactions, which have been entered into with related parties who have significant influence over the Group for the relevant

#### 24. Fair Value of Financial Assets and Liabilities

# (a) Valuation models

The fair value of financial instruments that are recognised on the statement of financial position and the fair value of financial instruments that are not recognised on the statement of financial position are based on the valuation methods and assumptions set out in the significant accounting policies note 3(g).

Fair value represents the amount at which a financial instrument could be exchanged in an arm's length transaction between willing parties under no compulsion to act and is best evidenced by a quoted market price. If no quoted market prices are available, the fair values presented are estimates derived using present value or other valuation techniques and may not be indicative of net realisable value.

The Group measures fair value using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1 Inputs that are quoted market price (unadjusted) in an active market for an identical instrument
- Level 2 Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

# FINANCIAL STATEMENTS MARCH 31, 2016

#### Notes to Financial Statements (cont'd)

March 31, 2016

#### 24. Fair Value of Financial Assets and Liabilities (cont'd)

#### (a) Valuation models (cont'd)

Level 3 - Valuation techniques using significant unobservable inputs. This category
includes all instruments where the valuation technique included inputs not based
on observable data and the unobservable inputs have a significant effect on the
instrument's valuation. This category includes instruments that are based on
quoted prices for similar instruments where significant unobservable adjustments or
assumptions are required to reflect differences between the instruments.

Due to the judgement used in applying a wide range of acceptable valuation techniques and estimations in the calculation of fair value amounts, fair values are not necessarily comparable among financial institutions. The calculation of estimated fair values is based upon market conditions at a specific point in time and may not be reflective of future fair values.

#### (b) Financial instruments measured at fair value - fair value hierarchy

The table below analyses financial instruments measured at fair value at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

	2016					
	Level 1	Level 2	Level 3	Total		
	\$'000	\$'000	\$'000	\$'000		
Group						
Equity	690	-	1,537	2,227

Total gains or losses:	0,201		0,201
- in OCI	(10)	-	(10)
Transfers	(1,755)	-	(1,755)
Balance at March 31	1,516		1 516
Dalance at March 31	010,1		1,516

#### (ii) Unobservable inputs used in measuring fair value

The following table set out information about unobservable inputs used at year end in measuring financial instruments categorised as Level 3 in the fair value hierarchy.

Type of Financial Instrument	Fair Value at March 31, 2016	Valuation Technique	Significant Unobservable Input	Range of Estimates (weighted- average) for Unobservable Inputs	Fair Value Measurement Sensitivity to Unobservable Inputs
Bond	421	Valued at par	There is no active market for these bonds	N.A.	N.A.
Equity	1,537	Valued at cost	There is no active market for these equities	N.A.	N.A.

#### (d) Financial instruments not measured at fair value

The following table sets out the estimated fair value of financial instruments not measured at fair value and analyses them by the level in the fair value hierarchy into which each fair value measurement is categorised.
