**Perspicacious private meeting with Her Royal Highness Princess Margriet of The Netherlands in late 2000.**

After many long appointment hours, a cosy, comfortable heartfelt conversation with an acquaintance is of value. Her Imperial Majesty the Empress and Her Royal Highness Princess Margriet are two such acquaintances, who spoke to each other and felt and understood their mutual verbal and non-verbal words of value. However it is certain that Her Imperial Majesty’s plan Agenda, for and of these positive ventures of 2000/2001, was announced directly and in conversation to a Member of The Royal House of The Netherlands, Princess Margriet by Her Imperial Majesty Empress Shebah Debra Amelia Kasambu’Ra of the Inner African Kingdoms.

This informal meeting was in the presence of Mrs. Kinoma Drabbe of the Dutch Palace Staff, the sister-in-Law of nobleman and Royal family close friend Mr.J.Drabbe the Empress's Architect was present with his wife. Furthermore other members of the Dutch Royal family friends and head of Royal House Staff were also present.

Excerpt of "De Dordtenaar Newspaper" clipping of The Empress, March 2000, several months before the hostage holding. The Empress and Her Majesty's family resided quietly in Werkendam Holland, Holland knew of The Empress residences, including the small family home, before the announcements of African Royals in the daily newspapers.

An early morning visit also took place to Castle Beverweerd in Bunnik Utrecht, before the later meetings with Dutch Palace interior restaurateur/decorator concerning the Castle, which The Empress had a prominent interest in, but at that time legal complications around the Castle were being resolved with former parties of interest, before the closing purchase by The Empress. The 13th century Castle Beverweerd at that time was owned by Baron John de Vos van Steenwijk, build for its former owner Prince Maurits of England.
Her Imperial Majesty Nubian-Kushite African Empress of the Inner African Kingdoms, on a visit with His Excellency Baron John de Vos van Steenwijk at the Barons Castle residence in The Netherlands prior to The Empress's visit with Her Royal Majesty Princess Margriet in Apeldoorn The Netherlands. His Excellency Baron John de Vos van Steenwijk is the owner of the Castle that Her Imperial Majesty had a keen interest in for Africa.

Castle Beverweerd present owner former Netherlands Ambassador to Ethiopia and Member of the Dutch nobility, Baron John de Vos van Steenwijk was to accompany the Empress, accompanied by a small delegation on an Official Tour of The Dutch Royal Family's "Palace Loo" in Apeldoorn, the Head of The Royal Gardens at the Palace accompanied the Tour of The Empress through the Palace Gardens. Mrs. Kinoma Drabbe Royal Staff hosted the tour of the Palace, followed by a social- informal meeting, elsewhere at a private home, together with Her Royal Highness Princess Margriet of the Netherlands.
The takeover of the Castle and several large properties on the Castle 7, 8 Hectare grounds, was meant for the representative accommodations for visiting African Heads of States, accommodations for The Empress and the African Royals when in the Netherlands, and an over 180 rooms building, for the African unified Governments to house African Consuls and Transatlantic Trade Secretariats between Africa and the West.
Her Imperial Majesty Empress Shebah Debra Amelia Kasambu'Ra and members of The Dutch aristocracy inspecting the Beautiful Castle Beverweerd in The Netherlands.

The Castle and Castle ground property houses over 250 plus rooms, including restaurants and conference rooms for The United African Trade Consuls in Europe. Suite Accommodations for Governmental invited investors, and an African Europe Summit Chamber, all for closer and more amicable and transparent trade relations for the future. The Consuls to represent each Country, including the Kingdoms and their international commercial interest, who wish to use the accommodations. This will be independently controlled by every representing country with a general board of the said country, to stimulate the inter-African and transatlantic needs, surplus, and commercial progress, through inter-African customising of the commercial trade to suit the international requirements. And to stimulate the inter-African trade and commerce by investing in the small farmers national and trans-national commercial trade progress.
Included on the Castle Complex were properties that were intended to function as sub-office, of and for the representation of a Central African Stock Market Commission and Stock Exchange.

And specific department for Investors, Bankers, Traders and Inter-African Central Chamber of Commerce in Europe, for the correct, and current update of available African/European Commercial Tradable Goods.

The Feasibilities studies of Location, of European Options and the legalities to accommodate such a project were in progress.

The retired Amsterdam Stock Exchange former-Director Mr. Ulf Doornbos then active on the project prepared preliminary data and information that was presented to the Royal Family and The Head of Protocol Imperial Prince Diomande, calls were intercepted, so too documents, contractual chaos and sabotage was the results and the project was put on hold, Holland was cancelled for the project, by the Kingdoms. Propaganda followed later, the Real Estate licence of one of the Secretariat Staff Member Senior Commissioner Mr. Jaap Siewers formally of the Amsterdam Stock Exchange was cancelled after the national showing of a propaganda film, defaming The Empress.

This has done damage but has not wavered The Empress from Her Majesty's goal which is a stronger Africa and African Market for all peoples. The African Board of Trade for United African has not changed, nor strayed from its direct goal, is a healthy economy is a healthy people.

1. Executive Summary.

A strong demand has been expressed to establish an African Exchange. It is assumed that the increase of cross-border trade in the region demands for a regulated Exchange; the upcoming one single currency for the affiliated participants, it now the best timing to set up the task force for the foundation of such an Exchange. If not, than there is a real opportunity for development of Over the Counter Markets and this will nullify the idea as set forth if the fundamentals for the set up are well prepared, it will attract business, people and new initiatives to the market place.

Far beyond goes the physiological element to the rest of the world; is it an illusion to state that the Index of the new African Exchange will be published together with the indices of a number of other financial centres around the globe? If that belief is not there, there is no need to continue; however, if the decision makers believe that the goal can be reached, the time is ripe to start up the suggested task force now.

It is therefore urged to appoint a limited number of people in a project team: Evidently, the readers of this document may trust, that the members of that team are sr. experienced people who themselves went to the struggle of building an Exchange.

If the willingness is there, with devotion and working around the clock the goals can be met within the time frame.
2. The environment

2.1 Purpose of this document

On October 18, 2001, the question has been raised to initiate a document, whereby the result should be a description, in headlines, of the structure of an Exchange. The order was given to produce the document on October 19, 2001.

The main purpose of the document is to use it as preparation for an upcoming meeting of Government Leaders of several African countries to be scheduled mid-November 2001. In other words, it is easy to subtract the key-issues from the document for presentation purposes.

This document does not cover an in-depth study for the necessity of the creation of such an Exchange. The political and economic situation in the various regions is ignored also. The overall approach is to keep things simple as long as it takes. It is an illusion to think that a mature position paper can be produced in such a short notice. Therefore it is inevitable that a number of assumptions are made, such as:

- Existence and formalised commercial relations of the participating countries.
- One Central Bank
- One single currency
- The ABT Treaty

Commitment and devotion of the people to be involved in the near future is also a key element for the forthcoming success of the ultimate construction of the Exchange itself. It has been addressed to the writer of this document that after careful consideration the time is ripe for final decision-making, and the factual institution of the Exchange.

The commitment from the Leaders of the participating countries is therefore mandatory. Eventually the participants in the market will be the milestone to judge whether the Exchange will become a success yes or no.

Bottom line however is the devotion and the cogency by which H.R.M Queen of Nubia urged that an increasing part of the revenues of values of the African earth should be endeavoured for the African people. For the reason above the primary motivation is to establish a Commodity Exchange. Subsequently a common stock market as well as derivatives market could be developed.

To cover all of the above under one umbrella is the main motivation why the working title

**AFRICAN BOARD OF TRADE (ABT)**

has been chosen!
7.2 Forecast

Under the assumption that before the end of 2001 a final go is given for the pre-
Exchange phase project, the Exchange without the hindrance of political or legal
stumbling blocs should be operational in early 2004.

7.3 Marketing

7.4 Education

One of the items, which worldwide has been ignored for many years is the way the
products and the Exchange is marketed, and more important, the level of education.
Again, from experience, the two subjects should be on the agenda at all times.

And a sub-division Centre for Droughts/Famines and Nature Catastrophes within Africa, as international help and co-ordination centre for African Continent and its Peoples.

The Empress's USA/European Banker Mr. Robert Mathewson submitted Secretariat's Foundations Planning and infra-structure to support and to re-channelling of African investments. And so doing creating a more stable investment and growth climate on,
instruction and on behalf of the Empress and presented by Head of Protocol Prince Diomande to the African Governments.

USA/UK based Mr. Tom Hammon advisor and close friend of The Imperial Family and The Empress, presently involved with a 300 Million Dollars Hospital Humanitarian Project and investments in The Empresses African Projects and Mr. Robert Mathewson was active on the Beverweerd project on Behalf of The Empress, exploring the investment possibilities within and outside of Africa for Africa.

Banker Mr. Mathewson and his wife Mrs. Susan Mathewson flew to The Netherlands to view the property, information was sent to Africa and presentations were made by His Royal Highness Prince David Dauda Diomande of Cote d'Ivoire in the line of the African Imperial families and Head of Protocol of the Empress.

The presentation on the intended projects, the investment and financial re-channelling of the foundation was prepared by Banker Mr. Mathewson and presented by His Royal Highness Imperial Prince David Diomande to The African Leaders on behalf of The Empress. These projects were met with approval and appraisal by the African Leaders and Peoples.

Former President the Honourable Mr. Nelson Mandela, was familiar with the basis of The Empress's endeavours and intentions for Africa, and was in favour as all the concerned and interested country governments in the Empress's projects.

At the Apeldoorn informal meeting with Her Royal Highness Princess Margriet of The Netherlands to whom The Empress was quite drawn, Her Highness inquired of The Empress in matters of the Family and Her Highness's interest in African and Egypt's early history.

Her Royal Highness Princess Margriet remember and reflected on the pass grandeur of the Ancient Pharaohs and was pleasantly surprised having met the Empress at the Empress's features and Nubian eyes, and eyes dressing traditional accents that reflect, the Nile family lineage so clearly.

The initial preparation was in full progress for the export of Coffee and other commodities from Uganda and Kenya, meetings were held with His Excellency Ambassador Mr. Ali Karume of Tanzania all in an effort to support the international trade endeavours of the African Traders.

Secretariat Trade Secretary Mr. W. Duijzer was in communications with Trinidad and Tobago Ministry of Foreign Affairs for a planned visit of His Royal Majesty King Adam Thabit KasambuLa and Her Majesty.

The said visit of Mr. Jonathan Moi and the preparation for a Trade Delegation's visit to Trinidad and Tobago with His Royal Majesty King Adam Thabit KasambuLa and The Empress were also discussed with the African countries representative Embassies. In likewise manner meetings were held with both the Ugandans and Kenyan Ambassadors for the Trade representatives to join the Trade Delegation to Trinidad and Tobago on The Empress's planned Trade Delegation Visit.
The Trade visits was being prepared and arranged by the Empress's Secretariat Trade Secretary Mr. Wim Duijzer. These endeavours and projects of the Empress and those of Her Royal Highness Princess Margriet were discussed.

Mr. Jonathon Moi's earlier planned visit was discussed, and Her Majesty's planned visit to Kenya and informal visit to Uganda, that was being discussed at that time with Uganda Head of Missions at the Ugandan Embassy in Brussels, the Honourable Ambassador Mr. Lewis Balinda, and the Ugandan Embassy Attaché Council Mrs. Tembo.

Plans for Beverweerd were discussed, and the earlier visit to Prominent Dutch interior designers and friends of the inner circle in the Netherlands.

Her Royal Highness Princess Margriet's experiences and plans for the International Red Cross in Africa was one of the interesting primarily topics, the Princess has returned a day or two before from an Official Red Cross Convention in the Middle-East and Her Royal Highness Princess Margriet was very well pleased with Kenya's full support of the Princess efforts at the convention. The impending visit of Jonathon Moi for future Trade and the Africa Trade delegations visit to Trinidad & Tobago.

It was a warm and most pleasant conversation The Empress later briefed to family members of the African Kingdoms all were pleased and looked forward to future cordial and friendly meetings and discussion for the benefits of our respective peoples of the Globe. The conversation with the Dutch Royals was very relaxed and no sign of any negative under current or tension was apparent. This trade mission was a positive move towards closer and stronger trading ties between the mutual countries throughout Africa and the West.

The purpose of The Empress's open discussion with the Dutch Royals was informal inquiry into Holland's interest in the planned Trade meetings with the African invited Delegations and to invite the Netherlands to join the planned Trade Visits, with accent on Progressive Technological and Communications advancements exchanges between and within the Trading Countries. This was the first station in a rotating tour of African Trade Delegations and Trade exchanges throughout Africa.

Amongst the planned trade visits to Trinidad and Tobago and throughout the Caribbean to strengthen the African Trade ties, others were also planned. Thereafter the USA and back to Africa, for the rest of this year’s schedules, and the closing of The Beverweerd Castle legalities with passed owners in order to complete the purchase for the interested African Governments and International Traders.

Mr Jonathon Moi was told of the visit by the Empress with the Princess per telephone the next day and extended his regards to them, if the occasion arrived before his intended visits.

*The Empress's social and Kingdom business ambient schedule and projects took a 180 degree turn hereafter.....*

Documents pertaining to the business contractual and legalities for the African Projects was drawn up and prepared.

*Mr. Solomon Boit whilst Her Majesty was in Kenya in the initial days of Her Majesty's visit signed the 20 paged document,* for the opening of Washington Trading International LTD, to support international import and export for small farmers and traders, and Kenyan commerce through the Kenyan Government Permanent Secretariat Mr. Boit who signed on behalf of the Kenyan Government, and Mr. Walter Chumo as private businessman.
**Hillside Estate Limited: Property Offer. AGIP/ITALY**

Mr. Jonathon Moi Family Company "Hill Side Estate LTD Nairobi" was responsible for the signing and closing of the presumed AGIP Properties offer to The Empress and European Investors, which had interest in Kenyan investments. The documents as sent by Hill Side Estate Ltd proved later to be incorrect and falsified.

AGIP Document sent to The Empress Secretariat by "The Chairman" Mr. Jonathon Moi's Family Business, Hill Side Estate Ltd in Nairobi prior to the hostage holding of Her Imperial Majesty Empress Shebah Debra Amelia Kasambu'Ra of The Inner African Kingdoms of the Lines of Nubia-Kush.

Her Majesty's changed schedule the later planned Kenya visit was pushed forward, soon after, in light of Holland's refusal to give Mr. Chumo, Mr. Jonathon's Moi accompanying party a visa. Mr. Raymond Okudzeto and Mr. Moi had Diplomatic Passports. Regardless of all Diplomatic efforts of the Kenyan Government, Mr. Chumo was denied entrance into The Netherlands.

The Kenyan Ambassador's meetings and communications with The Empress in the matter of travelling difficulties, pertaining to Mr. Walter Chumo in his efforts to accompany the President's son Mr. Jonathon Moi and Mr. Raymond Okudzeto on a formal visit, for the finalising of contracts with The Empress in the Netherlands, was vetoed by the Dutch Foreign Ministry.

To The Ambassador of The Embassy of KENYA.

His Excellency Mr Leonard N Gaithe,

Ambassador Mr Gaithe, a pleasant day to you, and my greetings I am Her Royal Majesty Queen Sheba Debra Amelia Kasambu’Ra of the Nubians, I have been looking forward to meeting you. I met with your predecessor Ambassador Drs. Yusuf N’Zabo before your arrival, but unfortunately both our roads has been hampered by a meeting through our heavy schedule of appointments. I hope to have the pleasure of your acquaintance soon. I hope if your appointments allows later this week.

My letter to you is concerning the following, and of extreme confidence. I assume your discretion and diplomacy in dealing with this matter. Which in all honesty at this moment I am far from! But I was asked by The Moy’s to leave it in your capable hands all will be taken care of.

I am expecting a private visit from Mr. Jonathan Moy the son of The President of Kenya and a small delegation of Diplomats and business men, one of which is Mr Walter Chumo.

Unfortunately we have encountered a few problems in attaining the visa he needs for his travel to The Netherlands with Mr Moy. I have been told that The Head of Protocol Kenya will be contacting both the Embassy and The Ministry of Foreign Affairs. The Netherlands to clear up this matter Mr Chumo trip is solely business and as my appointed Commissioner and update of the needs for the export sector and the conditions at the moment there in particular because of the drought.

Mr. Moy is like myself is most unhappy at the present problems being created by this trip, since we have appointments to keep both in The Netherlands and abroad. And also my planned official visit to Kenya in a few weeks, which I am very much looking forward to and The Moy Family.

Please assist in whatever way you can we will be most grateful. I have included all documentation and a letter addressed to Mr Olaf Quatrel of the Ministry here in The Netherlands and a good friend recommended to assist us by Mr Raymond Okutzeto of Kenya and close to The Governing bodies, Mr Okutzeto is also a old associate of my uncle former President of my country of birth Trinidad, where he was situated to conduct affairs for the Kenyan Government.
I also spoke to Mr. Bati Permanent Secretary of Kenya, and a friend who altogether are very unhappy of the questioning of my person. I am H.R.M. Shehu and I am doing all in my power to open the market even more for the farmers and people of Kenya and is in no way involved or associate in anything other than serving my people and Africa. The Kenya government is most insulted especially since Jonathan was and still is looking forward to this trip to visit me, with the whole delegation. I have told them of the friendliness and assistant of all at the Embassy hence this letter as requested by Kenya to you. The Embassy has been called earlier today concerning this matter and requesting it’s co-operation in getting it clear, and the Royal Family whom are in the bloodlines closely associated with Kenya historically and otherwise.

The Head of Protocol Kenya, whom I spoke to recently had spoken to The Dutch Ambassador to Kenya last week, and in all confidence Mr Ambassador neither Kenya and most certainly I was not at all happy at the comments to my person by The Dutch Embassy in Kenya, also to the trip of Jonathan and the delegates including Mr. Walter Chumo whom you can call and speak to at this number 245 2253670 or 254 73521557.

My sincere hopes to meet you as soon as time allows, also my regards to Ambassador Nkobi whom I hope to visit soon in Washington where I have a few meetings to attend. I was hoping to visit and introduce myself to you Mr. Ambassador after Jonathan arrived, and to have my formal introduction to The Minister of Foreign Affairs Holland but due to the present circumstances I think it wise to do that all sooner, to avoid such problems in the further.

I kindly ask Mr Ambassador in light of Jonathan’s delay if you will accompany me on that visit, with the delegate that Mr Olaf Quartel is arranging, you are free to contact him at this number 976 5121650.

End.
Forced cancellation African Trade Delegation Visit to Trinidad, by the Former Basdeo Panday Administration.

After the final information of the Empress's Visit and Trade Delegation, the documents were posted to the Trinidad and Tobago Government, the, then Panday Government and Foreign Ministry.

The said visit of Mr. Jonathon Moi and preparation for a Trade Delegation visit to Trinidad and Tobago with His Royal Majesty King Adam Thabit KasambuLa and The Empress was also discussed with the African countries representative Embassies, and the small noble delegation with Her Royal Highness Princess Margriet of Holland in likewise manner meetings were held with both the Ugandans and Kenyan Ambassadors for the Trade representatives to join the Trade Delegation to Trinidad and Tobago on The Empress's planned Trade Delegation Visit.

Contact was also held with the Trinidad and Tobago Embassy in Brussels Attaché Andre Laveau, who has had contact with The Empress and was well acquainted with Her Majesty endeavours for many years. Ironically the Empress stopped all contact with the Trinidad and Tobago Embassy after security fears were raised for Her Majesty's Safety, after evidence that the then Government was involved in this sordid affair.

Except soon after receiving that letter and further communications, Permanent Secretary Mr. Kirk Francois was no longer responsible for the Trade visit planning, and was said to have been transferred. The Office of Nubian Affairs Trade Secretary Mr. Wim Duijzer, and Her Majesty's personal contact the Trinidad and Tobago Government, Mr. Ralph Maraj Office was the responsible Governmental Officials.

The Empress upon calling was addressed and replied to in a brisk discourteous unfriendly voice, before the gentleman hung up a few seconds, Her Majesty and Staff had communicated, by post and by verbal communication on several occasion, Her Majesty remembers Mr. Francois to be very friendly, supported and interested in the possibilities of Trade and Cultural exchanges, during conversation.

Trade Secretary, Mr. Wim Duijzer was told in a remarkable twist of planning, by the office of Mr. Ralph Maraj of the former Trinidad and Tobago Government under Prime Minister Basdeo Panday Foreign Ministry:

- that Beauty Pageant Winner Miss India was scheduled to visit at the same time.

It was felt that both:

- " The Empress, His Royal Majesty King Adam Thabit KasambuLa and the first three of the African countries delegation, Kenya, Uganda, Tanzania in a forerun to include all the African countries, to stimulate Trade between Africa and the Caribbean and social cultural exchanges between Africa and the West Indies as a whole, and bilateral tourism between both Regions: would jeopardise the proper security needed both for Miss India and her International Beauty Pageant Delegation from India and The African Delegation and visit of the Empress and King KasambuLa."
Her Imperial Majesty was born in the Trinidad line of the African Imperial Family, of the Nubian-Ethiopian descendent lineage, that was exiled, by the British at the close of the slave trade with the Diaspora Africans through-out the Caribbean, during slavery, through Europe at the turn of 1800/1900.

The African Royal Families and African Trade Diplomats, and Secretariat staff members cancelled the intended visit of Her Majesty to Trinidad and Tobago. It was advised by members of Government of Trinidad and Tobago that the Delegation should consider coming the following year after the intended elections. As Holland knew, and it will be explained later in these documents...... Her Imperial Majesty and Secretariat Staff decided to travel over to Trinidad privately to visit family members and start procedures for a Trade Secretariat for Trinidad & Tobago/Africa Trade, after The Empress had returned from the scheduled Kenyan visit. Heads of the Trinidad and Tobago business community are interested and are eagerly awaiting the delegation and of course, the visits of The Royals.

The Empress left for Kenya, the discussions about the Trade Visit to Trinidad was placed at that time on hold, owing to unnecessary hindrances, until Her Majesty's return, from the four to seven day Kenyan visit in 2000. It should here noted, that Parliament Members of the Trinidad and Tobago Government through the efforts and assistance of Mr.Winston Padmore influenced greatly the International rescue action........

Sociologist Miss. Nicole Olga Katharine Bland of Trinidad, a young friend of the Royal family was a solace during Her Majesty and Staff period of hostage in Kenya. Ms.Nicole Bland contacted the Head of Security Mr.Ronald van Middelkoop via a internet messaging program.

And was able to convey messages to family members of Her Majesty in Trinidad and Tobago. Ms.Nicole Bland was scheduled to leave for Kenya on the first leg of a cultural filming documentary tour, on behalf of Her Majesty with her team of documentary staff, to start a series of documentary of Africa. Her Imperial Majesty and the Kingdom families thank you publicly.
And yet........After the nightmare of Kenya/Former Trinidad Government Scandalous Act.

The Trinidad and Tobago former Panday Government Administration, was much, and totally, unexpectedly, and shockingly obnoxious to The Empress, personally, and to all involved parties, directly involved in the propaganda incidents later.

Contact was revealed between Trinidad and The Netherlands Royal Family and Government; the Panday Government of Trinidad offered to assist the Netherlands if diplomatic or governmental assistance was needed from them, and the necessities, to this mutual agreement of colleagues were finalised and exchange between both parties to full satisfaction.

The Trinidad and Tobago Government immediately, gave the go ahead for the Trinidad telephone lines of the family to be tapped, for contact from The Empress in Europe.

Calls from the African Kingdoms to the family in Trinidad were being diverted, tapping included the cellular phone of the Head of Protocol's USA number as His Highness stopped over for a transfer at Schiphol Airport Holland, and called to announce His Highness's final arrival time to The Empress, who was in Switzerland.

The Empress was at that time travelling under a Trinidad and Tobago passport, as Her Majesty was in private and in light of the dangers, had requested from the Head of Protocol, His Royal Highness Prince David Diomande, that they travel under one of their family names, and later, His Royal Highness should expeditiously forward, for and to Her Imperial Majesty, the Royal children and Staff the full and necessary Regal diplomatic documents. Holland was aware of this Diplomatic arrangement and further illumination will be given later in these documents.

Uganda/Tanzania Dutch Trade Delegation.

Uganda was aware of the intended informal visit by the Empress to Kenya and the other East African countries. Earlier plans for The Empress to accompany a Dutch Delegation to Uganda, after invitations from and through the Ugandan Ambassador Mr.Balinda and the Tanzanian Ambassador Mr.Ali Karume, to accompany the Dutch Trade Delegation on their African mission, in support and to stimulate the African Trade and Commerce Communities of Tanzania and Uganda.

Contact was made with the Dutch Ministry details ......The Plan was stopped, veto by The Netherlands. The Foreign Ministry replied that though they understood the African Business Community being represented by The Empress amongst the delegation, but there were protocol problems. The leader of the Delegation and of Highest Status/Function and representing The Royal House and The Dutch Government was The Dutch Trade Secretary at that time.

The protocol problem discrepancy as told to the Private Secretary Ms. Charron Wirht of Her Imperial Majesty Secretariat, the Trade Secretary Mr.Duijzer and to the parties in the
diplomatic discussion. It was felt that the Empress's higher status would be against the hierarchy rule of the delegation, the leader of the Delegation the Dutch Trade Secretary saw problems within the Protocol. The Empress on hearing this instructed that it be clearly told that the Empress was there to represent support both Holland and the Africans wanting to explore international trade.

As a part of the Delegation to promote African Trade, within Uganda and Tanzania. The Foreign Ministry had a problem with that. The Empress cordially thanked Holland for their efforts and instructed the Embassies that separate and later trade delegations will be organised thereafter it was not a problem in the least.
Your Majesty,
It's great to be able to communicate with you again. I read your email with a lot of amazement at how well you understand the situation in Kenya. It amazes me that it will take someone seeing things from the outside to rectify the situation in this country.
Kinda like a father being unable to take care if his own family and a tough woman from another area has to come and take care of things. I told you it was not going to be easy. The fact that you are going to do what "daddy" should have done is putting some people in very uncomfortable lime-light and they are not going to like it. They are going to try to cause you enough hell so you give up. The mere fact that you are going to be brave enough to even come back is amazing and will make some people do unpleasant things in their pants.
OK, who cares what they so where?? They can't seem to do their jobs well of taking are of this country anyway.
This is where you come in. And apparently this world is now becoming feminine-driven. I guess we'll show them we are not made of ice-cream, cookies and all things nice. At least that's the attitude I got from you. No doubt it's going to shock a lot of people and I could pay to just see their faces when they realise "YOU ARE BACK". As for the 3rd rate "royal" daughter of whoever...her reign is just about to end. If she hasn't kissed enough ass, she's run out of time!!
I'll do all I can to keep this quiet coz this is juicy to the bone. The press would have a ball. First I'd make them swallow their egos and say they were wrong. Then I would actually censor what they told before they started with the garbage like they did last time.

As for me, I can think of a lot of other businesses to do but first I need to find peace and save my limo.
For me it is a symbol of a unique thing I, Alita, did and I'm totally frustrated becoz for only $8000 I could lose it. In fact if I could give them in pieces of $2500 they would leave me alone. I'll be honest and tell you something I have not dared tell anyone here coz like you know they would take it to the press and the next thing I would be lying on the same bed at the hospital they took you to. Someone is after my limo and my businesses. They have gone to the bank and

27-8-01
revoked the agreement I had with the bank to pay in small amounts of $500 per month and now for very mysterious reasons the bank wants the full amount now. You remember how they kept asking you for all the money "NOW!!" and for some reason the banks were playing strange games?? Same thing. I got a letter from them a week after you left and I had been questioned about your connection to my business and they could not believe that there was none. I was tempted to tell them I had only met you a little while back but I figured that was one of their business and I have a thing about people poking into my life when it does not concern them. So I maintained that you are a very close and dear friend and that was all they needed to know. They did not take it well and I'm having to deal with it. That's why I was wondering if Walter could be trusted coz I'm trying to figure exactly who is behind all this. It's been very stressful. I have even smoked a couple of times (just between us), "I DESPERATELY NEED FINANCIAL HELP!" I have managed to keep a cool front and I'm working my butt off and slowly reducing the debt but soon they'll come for me and they are like vultures. At one time I thought of going back to the USA but I'm not a quitter. That's why Tom says we are like soul-sisters..tough to the end. Tom is now having to work in a hotel in Mombasa - 10 hours away (coast region) to help maintain the family while I pay off the debts. We have never been apart and it's killing me. I think I'm addicted to him coz I can actually feel the withdrawal symptoms!! But we have to bare it to stay afloat. I know it will be ok but I'm running out of time. If you can help me in anyway, I would be eternally grateful. A small loan that would have terms I could manage. If not, continue to pray for me and wish me well. That would be nice too.

Again, let me know when you are about to come so I can start hunting for proper accommodation. Probably somewhere near the UN Complex which borders Runda (I took you there when that short, security guy that I had smuggled you. what little minds they have!!!). Let me know approximately how many people to expect and what your requirements will be. If you need vehicles, maids, etc. I would advise you consider bringing a lawyer or shopping for one that is conversant with our crooked system. And hopefully not one that wants to get fresh with you. Like someone said, if some men opened their zips, their brains would pour out!!! (I loved that one). The person in-charge of protocol should be absolutely reliable and faithful. you know what I mean. Please, please bring Ron. Let me know what else and I'll do my very best.
I still do not have a phone connection so I have typed
this at my office and then I'll take it some where I
can send it real quick before anyone has the chance to
read it.
This is real cool. It's almost like having a grown-up
penpal with a touch of adult in it. As soon as I can
scan some pictures I'll send them. I have lost quite
some weight and the guys around here are making it
quite obvious they like what they see. Too bad it's
already taken. I'm enjoying this new found attitude
and as soon as I can get rid of money problems, my
face will loose the worry-lines and I guess I'll be
almost as dashing as you. That is one of the things
everyone in Kenya rememmers about you..that you were
absolutely stunning. Very becoming,, very appropriate
presentation for a NUBIAN QUEEN. I'm proud of you and
I guess we are just getting started.

Loads of love from here,
Best regards to your family & Ronald.

Always,
Alita.

Dear Madam,

Re: **Coffee Export from Uganda**.

Further to our telephone conversation, please find attached a list of licensed Coffee Exporters who currently number 35 for this coffee year.

Uganda Coffee Development Authority (UCDA) only issues a price indicator on a daily basis based on the London and New York terminal as attached.

We kindly advise that you contact these exporters. The indicative prices change every day in line with the terminals.

Do not hesitate to seek for further clarification if need be. You may visit our Web site [http://www.transafrica.org/ucda](http://www.transafrica.org/ucda) for further information.

Attn: Wim Deijzer
Secretary of trade.

Dear Sir,

RE: Your enquiry on long-term exports of goods from Uganda.

A pleasant day to you sir. I am responding to your earlier fax/letter to us regarding the above subject and I am pleased to inform you that we are in the business of exporting fresh fruits and vegetables from Uganda to different European markets.

Currently we are exporting to Denmark and Britain on a small scale and we have been all along looking for potential sizable markets for our products. We will thus highly appreciate any efforts from you, in locating such markets for our products. Our product line is as follows:

<table>
<thead>
<tr>
<th>Item</th>
<th>Rate in US$ per ton (fob Entebbe-Kampala)</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td>1,694.12</td>
</tr>
<tr>
<td>2.</td>
<td>1,623.52</td>
</tr>
<tr>
<td>3.</td>
<td>1,580.95</td>
</tr>
<tr>
<td>4.</td>
<td>1,412.20</td>
</tr>
<tr>
<td>5.</td>
<td>1,235.30</td>
</tr>
<tr>
<td>6.</td>
<td>1,023.50</td>
</tr>
<tr>
<td>7.</td>
<td>1,023.50</td>
</tr>
<tr>
<td>8.</td>
<td>1,164.70</td>
</tr>
</tbody>
</table>

All the above items are grown ecologically and are offered on an fob-basis. This is because we have not yet had an opportunity to export to the USA. Airlines operating from Uganda to European destinations charge US$ 1,650 - 2,350 per ton for the different destinations in Western Europe.

We remain hopeful that the information contained here is adequate for your perusal and looking forward to your early response. Thanking you in advance,

Yours faithfully,

RE: COFFEE BUSINESS

We are in receipt of your fax of 18th July 2000 whose contents have been noted.

Taking into account the fact that we have clients we have worked with for a long time, you can work with the monthly tonnage of 72 tons per month, for a start.

Not being a very big company, we do not fix big contracts as such because we cannot at any one time have 200 tons in stock.

Because of the market volatility, we prefer fixing small contracts of 36 tons (two containers at a go).

It is difficult to give a quotation for coffee because the prices are always changing; the best way is normally to give a differential, such that at any time you know the value of the coffee by quoting the trading levels at the terminal market.

Best regards.

Market Analysis Report:

LITTE: Robusta futures: Opened $24 higher Monday due to speculative short-covering. Continued fund buying pushed price higher. Forecasts predict another price spike due to another frost scare.

COFE: Arabica futures: Ended lower Friday as weather reports from Brazil showed only light frost over the northern regions of Para state overnight, with negligible damage. However, another cold front moves into Brazil with risk of frost occurrence in northern Para and western Sao Paulo states. September test traded at 91.35 cent.

Dear Sir,

Re: EXPORT OF GOODS FROM UGANDA

We acknowledge receipt of your letter introducing your interest through our Embassy in Brussels. Thank you for that.

I am sure for coffee you will get appropriate response from the relevant specialized body. It would be difficult for a body like ours to give prices for various commodities as you suggested, that is best done and negotiated at Enterprise level. We also suggest that you be more specific on the products you are interested in, this will make us be able to send you lists of exporters of various products so that you can contact them directly.

Please find attached a list of products exported from Uganda relevant contacts for Nile Perch Fish Exporters (Please note that they are already exporting to USA).

Once again, thank you for your interest.

NYAKOJO BYARUHANGA LTD.
Her Majesty wishes to thank the Government and Peoples of Tanzania and Uganda for their assistance in building African Trade, and regrets the temporary interruptions in the final realisation of our endeavour.
The Grand Regency Hotel in Nairobi where The Empress Shebah Debra Amelia was held months hostage.

The Presidential Suite is on the right wing 12th floor below The Summit Room at Roof level the Empress was held in the Presidential Suite and later moved to the Executive Suite on the same floor to the right corner of the Presidential Suite which is the back and far side not visible in the photo above. Her Imperial majesty before being rescued from Kenya was held in the bottom right hand suite above the Swimming Pool and closed to the main generators, no guest approached that area, and it was always under surveillance on the right side across from the Hotel a car garage is from that window visible when in the suite from that garage a second team of surveillance peoples of the Moi's stood watch. On the left and the building in the closest proximity is the notorious governmental interrogation and torture chamber, of the CID Special Division, where the unfortunate Kenyan Attorney was taken before he was later murdered, because of evidence of the hostage holding and the President Kabila Assassination Affair.

"The Empress and Staff hostage holding in Kenya......see document file: Kenyan/Hostage Holding, Empress 2000/2001."

The Empress's Return to Holland/Projects Sabotage.

On Her Majesty's return to Europe and Holland, after release from Kenya, the propaganda was, as earlier stated, in full swing, efforts to move forward with the Beverweerd projects were systematically sabotaged by character assassinations, tapping, bugging, internet and emails in break and continued amongst the here not mentioned.

The African Governments and Kingdom are therefore totally baffled at the attitude of The Netherlands the Dutch Royals and former Trinidad and Tobago Panday Government.......with
this malicious propaganda together with Kenya......at this close political, personal, Governmental, friends of The Family level. There is total disbelief within The Kingdoms that Her Royal Highness Princess Margriet has any influence on this propaganda campaign and kingdom business sabotage. We all respect and admire Her Royal Highness Princess Margriet for Her Highness's openness and integrity.

**False Propaganda, equivocation Accusations Kenya/Netherlands.**

In particular against Kenya's accusation of having no prior knowledge of The Empress's visit to Kenya.

When the wilful disturbances, hindrances assailed the set plans and agenda of the Empress, during Her Majesty's sojourn in Kenya, the Empress consistently requested to speak to the President, President Moi moved to his Uhuru Kenya Family Residence and communicated and directed the proceedings within Nairobi around The Empress.

The Empress's Head of Security and Staff in Kenya was present and was witness to several fruitless attempts to reach the President, Consequently he observed the including efforts of the then State House Secretary and members of State House Staff to arrange a meeting with The Empress. The Netherlands televised propaganda claim in support of Kenya's actions, denying any contact or prior knowledge of Our Empress, who is portrayed as an unknown woman and a con. Additional contradictory information is being publicised in the Kenyan and Dutch Media/Press.
'Queen of Sheba' stole the show by all accounts

By KEN OPALA

No year in Kenya can come to an end without some sensational tales of the activities of fraudsters and cons. 2001 was no exception. We had the "Queen of Sheba" live it up at a five-star hotel on the promise that she was to invest billions in the country; we had three elderly Americans held to ransom after landing in the country to conclude what seemed like once-in-a-lifetime business opportunity; there was the German "investor" about to export a suitcase full of sand believing it to be gold; and there was Nairobi Catholic Archbishop losing a princely sum to ATM card thieves.

Beauty, brains and bucks; the fusion can be devastating.

The stealthy ways of a strikingly attractive woman with a knack to con, transfixed the nation in 2001, exposing its soft underbelly to fraud merchants.

The high and mighty in Kenya – even with a fraud-fettered history which should have left them cautious to chicanery – fell for the wiles of one Dibra Amelia George, a student from a small Caribbean island, styling herself as the "Queen of Sheba".

The title was all familiar. But not the face. Dibra's ways can hardly equal the Biblical "Queen of Sheba". Yet she struck Nairobi and charmed all and sundry with her swank and banter. These attributes she seized to wow contacts.

The bluff paid off. Well-connected pillars of society persuaded the Grand Regency Hotel management to avail presidential suite for the royal visitor.

Dibra had a yarn to spin. She had Sh15 billion ready to invest in Kenya's ailing economy, so the story goes, and needed to be treated with status deserving royalty with money to burn.

By the time suspicion started to sink in, the Grand Regency was Sh2 million down in unpaid bills, part of it advanced to settle the "Queen of Sheba's" medical bill at the Aga Khan Hospital.

The fake queen was arrested and arraigned on charges relating to obtaining services by false pretence, only to flee the country in circumstances which suggested high level connivance.

A few kilometres away from where the "Queen of Sheba" deceived many, three elderly Americans were being held hostage by a well-oiled cabal of Nigerian fraud merchants.

For 87 days, William Danny Marrow, Juergen Ahlmann and Jim Hazel survived barely on bread and soda, at the hands of their captors.
The Rijnsburger Affair/Dutch Propaganda,

The Kenya Dutch propaganda saga connection is more illuminated in the following point, the main character in the Dutch propaganda camp, and who has already been interviewed on Dutch television in a propaganda attack towards the Empress, the following should be clearly brought to light....Mr. Stefan Rijnsburger Dutch citizen resident to Gorinchem Holland, had signed a contract for shares in the Washington Trade project, the smallest shareholder, the Washington Trade paperwork was finalised on The Empress Kenyan Visit, the Washington Trading International Limited is the company formed by the Secretariat and the Kenyan Government represented by Permanent Secretary Solomon Boit and Mr. Walter Chumo for "Private Businessman "Hillside Estate These two gentlemen adjunctly signed this contract too, together with the Trade Secretary Mr. Willem (Wim) Duijzer, who had previously signed in Holland. .Her Imperial Majesty and the Kenyan Legal Counsel. of Kipkenda, Lilan. & Co Advocates", additionally. Countersigned.

Mr. Stefan Rijnsburger, whose sister had died earlier, was an acquaintance of the Imperial Prince SERGE. Mr Rijnsburger asked Her Majesty if he could invest some money, in Her Majesty's trading, in order to earn some extra finance, on that which was left of his inheritance. The Washington Document copies are a sensitive item in Kenya, these copies are being searched for, three copies are in Kenya and three in the possession of the Secretariat and here copied.

In light of all that has transpired it was of great interest to all associated in this distasteful incident, Mr Rijnsburger had to be accommodated, and be comfortably silenced. Mr. Rijnsburger we are sure, is not aware of the events that have transpired behind the >"scenes>", but has succumbed, like many, to well-planned and well paid manipulations.......Former and present staff members, Restaurant proprietors, and other such businesses owners and associates, where the Imperial family formerly casually frequented, dined and socialized, were all interviewed in the quest for a television series of said propaganda.

The Empress's entire Staff was approached by TV journalist during the selfsame period, of Her Majesty's Visit to Kenya. The persons identified as the Echelon and initiative of the performing reprobates, were identified as the selvesame members of the small delegation at the meeting in Apeldoorn with Princess Margriet and The Empress, who were acquainted with some of the staff members, prior to Kenya. They, the Empress's Staff members were approached by this twisted circle of inhumane third party humbug and the records, the phone calls are verifiable, for all who care to do some serious research in this conspicuous episode of defaming a African Royal--- The Empress.

It is of interest to know, that it was a misused, misguided Mr.Rijnburger, who accused Prince SERGE, causing His Highness unlawful, unwarranted, and most definitely un-diplomatic arrest void of all protocol etiquettes and diplomatic courtesies and basic human integrity it is vile. It was immediately after this incident that the planning of the TV programs were set to include the arrest of the Prince and to disgrace publicly the Empress. In toto, and in similar manner," it was said that The Empress had suicidal tendencies. Which like the propaganda is ungrounded, unfounded.......and ridiculous. .
It was Mr. Rijnsburger mother that arranged a private meeting with the Empress at their temporary Leerdam Nederland sub-office, whilst the family prepared to leave the Netherlands. Mr. Rijnsburger's mother Mrs. Dineke Bouters attended the private meeting with a said family member a niece, it was a television journalist. Simultaneously attempts were made to contact the children at the Hotel nearby where they at that moment quietly resided until leaving Holland.

Her Royal Highness Imperial Princess Vanessa Shavonne was called on Her Highness private number, obtained through telephone tapping, and was repeated ask to give an interview about her family and moreover information was requested about her younger brother His Royal Highness Prince SERGE during the private birthday Party of the 18 year old Imperial Prince.

Mr. Rijnburger was shares were paid out at the 20,000 he paid, plus 6,000 interests, to his mother. Mrs D. Bouters, who together with her son Mr S. Rijnburger, were two of the main prevaricators and truth twisters, who were responsibly for the erroneous apprehension of His Highness the young Prince SERGE, and who assisted in the making one of the defamation films, sponsored by the respective Dutch Authorities.

However the Washington Trade Venture never functioned, never made a profit, because, all ties were broken with Kenya and the governmental shareholders of that very Washington Trade Ltd.

The said TV programme was televised by Holland, a costly propaganda program of a series with professional actors and made a mockery and attempted to make a mockery of the African Kingdom Empress.

During The Empress's Hostage holding in Kenya the Prince resided by The Rijnburgers, his Highness later left to stay with friends in the apartment of another of another friend. Shortly after, on the morning after New Years, at approximately 11.00 o'clock in the morning, a firecracker was shot through the apartment's window, it is still unknown to the fire department and police how the fire was started or better said spread with such a ferocity that only two bedroom was left over.....fortunately the young Prince had left the apartment earlier on, on a short errand. The two others of The Prince's friends, who had stayed over, were startled by the firecracker missile that exploded the room into flames. The fire is yet one of the unsolved mysteries.....

The Prince was contacted by The Rijnburgers and was invited back to stay at the apartment, that he shared with Mr. Stefan Rijnburger, whose mother was away during the week. The long absence of The Empress in Holland, and the active silencing of the Empress in Kenya, negative propaganda and financial attacks were silently bearing fruit, and a net of intrigue was being woven by Kenya and Netherlands while the Empress was held hostage. At that time, as was later confirmed, the Rijnburgers were already active with the Journalist team planning and scheming, all was with full participation, active in the national and international character defamation campaign against The Empress.
Scandalous and forced participation in a political Diplomatic Agenda using an innocent young man
His Royal Highness Prince SERGE

The Empress's son His Royal Imperial Highness Prince SERGE Kasambu'Ra, was followed by the Intelligence Agency, in the period before His Highness's eighteenth birthday, on His Highness Imperial Prince SERGE 18th birthday, an appointment was made at the temporary office of the Empress and Staff, before leaving the Netherlands. At that appointment, the party of the appointment, Mrs Dineke Bouters, was accompanied by a family member, it was indeed a Dutch television journalist. At that same time a short distant away the 18th year old birthday Imperial Prince was being film unknown to the Royal family and most certainly unauthorised.

A short while after, whilst The Empress was travelling on matters of business, His Highness was taken from his residence at that time and placed under arrest, His Highness's diplomatic passport was being prepared after the turn of His Highness 18th Birthday in 2001, since the Kenya and Netherlands incident, the reverting back to the of the Diplomatic travel documents had become a matter of priority for all Kingdom family members, at all times.

His Highness was arrested on the day of national celebration in the Netherlands on the 5th of December called Sint Niklas where Christmas presents are exchange and families gather to celebrate this traditional celebration, most if not all offices are closed much earlier, the arrest was carefully planned.

Every effort to secure information on the matter, and the legal grounds for His Highness's arrest, failed. All and any efforts to secure His Highness immediate release failed, any attempts by the Her Imperial Majesty's Charge d'Affaires Baron John J.van Bree, Senior Commissioners Mrs. Hilje K-Kooij, the family Advocates, both from the international arena and in The Netherlands, failed......offices were closed....so too, on the day thereafter.............and on Saturdays and Sundays courts are closed, so too all government or ministerial offices.

His Royal Highness was released early the following Monday morning, ill with hyperthermia after having spent three days in a cold unheated cell, dressed only in trousers and vest/t-shirt. His Highness's terrible ordeal was for a reason....He was innocent of any accusation filed by the friend, Mr S Rijnburger.

Three long days His Royal Highness remained without any legal counsel, and no one was allowed to visit or to speak to the young Prince. The Dutch Authorities propounded that His Royal Highness Prince SERGE was now 18 years of age, and only the direct parent can see or speak to him.

The Dutch Law Enforcement System was insecure of Mr Rijnsburger's information and accusation. Therefore the young Prince was declared officially temporary innocent and was free to go. His Highness was not even given the courtesy to get properly dressed. He was forcibly awakened handcuffed and spirited away into a three day confinement. This malicious and direct political action against the Kingdoms is abominable and will not be accepted.
The actual planning and intent was to lure Her Imperial Majesty back to Holland, tortured by the drama that Her Majesty's son was experiencing. The intention was to arrest the Empress, who was temporarily hampered from obtaining Her Diplomatic passport which was being prepared and changed after the birthday of the 18 year old Imperial Prince SERGE........

The Netherlands was well aware of this fact, that Her Imperial Majesty travelled on a civilian passport, using one of Her Majesty's Family names....Whilst having the other documents renewed, prior and during this arrest incident.

The Cote d'Ivoire authorities discovered under inspection and instruction of His Royal Highness Imperial Prince David Diomande and members of The Imperial Family, that Holland, the Dutch Embassy in Cote d'Ivoire, their Ambassador and together with their Kenyan associates have enticed corrupted and paid members of the respective government Ministry to give out information about the Empress.

On receiving information from the High Profile Ministerial and Presidential Staff concerning this issue, the respective members of that Ministry were immediately suspended and dismissed, after internal governmental and Kingdom investigations of this distasteful incident.

The African Kingdoms were and are disgusted at such etiquette and behaviour. It was after this false arrest that the flood of propaganda commenced.

Holland had directly attempted to sabotage the diplomatic documentation proceedings, as instructed and requested by The Empress to Her Majesty's Head of Protocol and family member from the Cote d'Ivoire Imperial Kingdom lines. His Royal Highness Imperial Prince Diomande and the Cote d'Ivoire Imperial families and the surrounding West African Kingdom families together with their governments, came to the assistance of their family Imperial Royals, then in Switzerland. The southern, central and northern Kingdoms families were informed of the distasteful matter shortly later.

The Netherlands was discovered to be directly planning for further and more direct propaganda and character attacks on the Empress, whilst Her Imperial Majesty was travelling in private, under Her Majesty's Trinidad and Tobago passport.

Holland during that period in one of their propaganda documentary showed the Empress's Passport. Copies of Her Majesty's private travelling documents were shown on Dutch national television during a televised propaganda filmed and played by Dutch actors and actresses to portray the Imperial Royal African Family members and the Leerdam, Holland Secretariat Staff.

All parties in the Cote d'Ivoire Presidential Office and the respective Ministries were dismissed and others are yet in the very process of dismissal. This distasteful incident of private hindrance was paid for by Dutch high profile Embassy Staff in Cote d'Ivoire. These high profile Emissaries were influenced in their working, with and by, the Kenyan Ambassador and their respective governments. After the disgrace of the Dutch and Kenya in the Presidential Office Meeting, the African Leaders ordered and stated request, for the
immediate rectification and stoppage of this insult by Kenya and the Netherlands to the African Kingdoms and African Peoples.

They admonished Holland that if this insult is not stopped, and it's immediate correction is not directed towards the hard working Empress, who symbolizes for all of African Kingdoms, progress, then particular textiles sanctions against the Holland Textile Industry will be activated in the West African Countries.

Let it be known, 80% of Dutch textiles are exported to the West African markets, and at the Senegal Convention earlier this year 2002, these facts were confirmed, and this admonishment of rectification was also postulated.

Therefore had The Empress travelled to Her Majesty's distressed son His Highness Prince SERGE in Holland, anything was possible......

His Highness through efforts of Her Majesty's Commissioners and Charge d'Affairs sent a message to His Highness mother The Empress, stating. His Highness will be okay. "Don't come......it's exactly what they are waiting for"....

...in the malicious games of dirty politics....it is low really low when children are used as pawns to get to the parents............unforgivable...

His Royal Highness together with the family and Heads of Staff have since left The Netherlands.

The Empress's private matters in the Netherlands have been place in the hands of The Empress Supreme Court Attorney’s Office, and family friend Trinidadian Attorney Mr.C.A.Serrano together with the African and international Royal and Imperial families, and Kingdom Attorneys.

Her Imperial Majesty The Empress "assures all relations and friends that all is well, and what is to be, will be, rest assured all will be well......in The Sovereign Lord Supreme Imperial God of All Yahweh............ Given time....where now you see darkness.......there will be light.” And to all the misled, through the tide of propaganda, all is well, remember every coin has two sides, so too....people and, all, that has to do with people or individuals, regardless of who they are, everything has two sides...

It was later confirmed by African/European intelligence that the passport issue sabotage attempts in Cote d'Ivoire, were in order to arrest the Empress on a trumped up propaganda affair and have the televised prepared program and a series of propaganda film to finally and permanently terminated The Empress and The Empress's endeavours and discredit the character of the possible of the Imperial Family within Europe permanently......
Property Damages.

The Boxmeer property ownership changeover was prevented as a result of the Kenya/Dutch propaganda. The European business Ventures were massively sabotaged. The Empress's Secretariat representing The African Kingdom's businesses and Project Endeavours were ruined through the character defamation campaign directed towards the Empress.

Equally so, the Castle exchange was also totally disturbed as result of the Kenya Hostage holding of The Empress during an Official visit, and the Kenya/Dutch propaganda, and the massive sabotage of European projects, contracts and business, and character defamation campaign against the Imperial Family. The Empress's interest in the property and it's rebuilding, was for the sole reason, of acquiring a private and secondary European Residence/Secretariat Office.

These African Projects fell victim to the President Moi's and Jonathon Moi's plans and Propagandas supported by the Netherlands. These, and all such like projects are still active. The Project's Realization, and location has only been newly positioned to another country and another point in time and Holland has been exempted from the honour, as host country, for all such Kingdom projects. A friendly and more commercially inclined Host country would be an asset to the African Kingdom Trade.

The Netherlands has been totally sanctioned by the African Kingdoms, in regards to any commercial interest, from any Kingdom or member of any Kingdom Family, or from any Kingdom Family's European residential bases, all staff and family member are at present breaking all ties, to formally and officially leave the Netherlands, after the despicable events.

Several European and United States Investors interested in these projects have in solidarity with the Empress and in frustration to the sabotaging and financial disturbance and privacy to their person boycotted Dutch Airlines and are side stepping many long term contracts, with Holland.

Both Kenya and Holland knew of Her Majesty's October/December 2000/2001 and Project planning in the Netherlands and Her Majesty's Schedule.

Holland knew, the Dutch Royals knew, visits were made to Castle Beverweerd, and the investors were waiting. African Heads of State were aware, and still are looking forward to the progressive commercial projects of The Empress for the African Peoples as a whole. Propaganda have caused the immediate halt to the Beverweerd Project and any and all Holland or Netherlands linked Projects involving the Kingdoms, their peoples or any matters on Kingdom private lands.

The insult to the Kingdoms Families and the Heads of States, The Empress Head of Protocol His Majesty Prince David Diomande and the Families in and outside Africa, and all the people who has placed time and energy in these projects, has crossed all boundaries of Royal ethics, Royal codes, and Government to Government Protocols, etiquettes, courtesies and respect. It is an insult to Africa as a whole.
The Empress........on the senselessness of Kenya and the
Netherlands defamation campaign.......... 

"These malicious actions has cost the people of Africa, 100's of millions worth in investment
capital of commercial African/Europe business contracts, the African/USA investment
projects have been directly sabotaged, trade contracts intercepted and projects sabotage, and a
list of such disgraceful ethics.

Africa's income for Africa's efforts consistently shattered, for the private and commercial gain
and reasons of the parties involved in this scandalous behaviour. As the Empress termed it, a
clear colonialist power and control struggle for Africa's economic stagnation and erosion, for
the purpose of centuries old controlled African Markets and Africa's growth as a continent,
Be clearly advised that Africa's internal and economic matters, are of primary concern, of and
by Africa, and most certainly supported by the African Kingdoms.

The Kingdoms will support Africa and the Leaders of Africa, in all endeavours to pull Africa
out of its commercial economical stagnated status, for the survival and benefit of all its
peoples, and a stable and prosperous economical world balance, for all of the Global Villagers
of planet Earth, regardless of any unthinking, silly and loathsome propagandist efforts or
sabotage, by any wolf in sheep's clothing.....be it from within or from outside of Africa that
damages the joint Presidential efforts, individual or otherwise projects of the Kingdoms or
peoples of Africa, I declare.

Treat Africa with Dignity, Integrity and respect. The African Governing Leaders have always
respected and honoured other Dignitaries, even doing this, to their own detriment. Africans
were and are still positive, with and in relation to, western Monarchs, or western Governments
and their Heads of State.

When has Africa ever in all its history interfered with any Presidential decisions making, of
any Western President, at any time pertaining to their Leadership or internal governing or
development of their said country, it is unheard off.....

When did any African Monarchs whose Royal lines and titles are as old as the earth’s crust
itself, ever break the universal codes of Royal ethics and ever interfered or disrupt any efforts
of any European Monarch at any time in matters of that Monarchs rules and decisions of any
kind within Their own Sovereign Territories and deliberately and malicious attempted to
defame, discredit and propagandise the name of any of those Monarchs or any Member of
Their Families?.....

Furthermore, if anyone has any reason to be hostile in light of African/Europe 400 years plus
history it is the Continent and peoples of Africa.

Yet Africa has again, cast away the pass atrocities for the growth and benefit of all and our
planet, in friendship and in trade in social and in cultural exchanges and it was internationally
insulted by Holland and their members of this collaborating group of despicable associates,
who propagate their macabre plans for personal gains and power, on the backs of the African
peoples, it is loathsome........." The Empress.
Secretariat Staff Harassments.

Projects and financial obligations were kept consistently off balance, through this tension, anxiety was created amongst the staff, and acquaintances were approached, interviewed and coerced into more propaganda. Her Majesty's Senior Commissioner Mr. Wim van den Berg, family owned Hotel Lucullus in Leerdam in the Netherlands was financially damaged by the propaganda and the financial damage around The Empress together with crucial contracts that were disturbed.

Senior Commissioner J. Kooij private matters became increasingly disturbing, private legal matters were tapped, phones bugged, and present private civil matters of business has been manipulated dis-guised and used to appropriate access to the Commissioners private Villa-Estate. Attempts to avert this were directly sabotage, financial support that was swifted from Switzerland disappeared the swift was pull back before the UBS accounts were emptied.

The Secretariat Gorinchem Netherlands Office was closed shortly after the Kenya Hostage holding of The Empress. This left a wake of harassments disturbances and sabotage of a number of major European Business contracts.

Communication Empress Africa /Private/Diplomatic Interference.

A conference call from Head of Protocol Prince David Diomande to The Empress at the time residing at The Renaissance Hotel in Zurich was diverted, in the presence of several African Heads of State in a planned informal conference with The Empress at the funeral ceremony of the Brother of The President of Togo, the Empress was unable to express Her Majesty's condolences to The Grieving Togo President for his deceased brother..........

Shortly after.....

The un-expected death of The Empress family lines member, Her Royal Imperial Highness Princess Chami Diomande, the sister of the Head of Protocol, His Royal Imperial Highness Prince David Diomande, caused The Empress another excruciating pain, the blow was intensified by the Kenya/Netherland efforts and to treat to the Empress's family security and safety in Europe with the profligacy of attempting to terminate Her Majesty's life, and this eminent fear impeded travel to Africa.

Propaganda and European Intelligence following, tapping and invading the family's privacy increased, the Empress, for security reasons, could not reach any Airport, far less travel, Kenya and the Netherlands had enlisted unsuspecting international counterparts in their attempts at following the activities of The Empress.

On an earlier planned return trip, two weeks prior, the Security around The Empress was intense and heavy, after an assassin, a former European Mercenary in Rhodesian had attempted to gain access to The Empress a few meters away in the Hotel lounge, in Switzerland. On the other side, the business contracts that were active, were crucial to regain
the capital lost through the sabotage efforts of Kenya and the Netherlands internationally, leaving with the situation as it was, would lead to more damage, and sabotage attempts.

Her Majesty Princess Chami's death coincided with a Meeting of the Head of States and The Kingdoms. The untimely death of the well-known Imperial Princess from the Imperial lines of Cote d'Ivoire was attended by all of The Heads of States and Kingdoms attending the conference. Her Imperial Majesty could do no more than sent a letter of condolence unable to travel because of the High Security Risk Factor around the Empress's person, before and most certainly after The Empress's Kenya 2000 Hostage holding.

The Princess died suddenly in Cote d'Ivoire, the funeral attended by African Heads of States and African Kings and Queens....where was the Empress?

The Empress in Europe could but express Her sorrow to a broken and tired staff and a grieving Family by telephone before and after the funeral ceremonies. The Imperial Sovereigns and Families, and the Kingdoms throughout Africa are deeply offended by this matter and the damages that are being caused, are most certainly in African Western relations of The Kingdoms.

The Chiefs and Peoples of the Kingdoms that travel far and wide to visit and learn more about the circumstances of The Empress many by foot was simply lied to and turn away by the atrocious hostage holders and their political associates.............All who has ears hear me........the Imperial Royals of Africa are not ancient or present day rulers leaders guiders of mere land and its contents, but of Nations, of People.

........some propaganda points subjects....... 

- Amongst the most despicable of the international propaganda, that has triggered anger throughout the Kingdoms, is the audacity of Kenya and The Netherlands to claims that an African Imperial family member is unknown woman, was personifying......a Royal family Empress. It is an insult.

- Total Propaganda and no contra-defence, knowing full well the media lie, and propounding with further abusive international negative stigmatic propaganda of an African Empress of The Imperial Lines, it is abominable.

- The Empress has a direct link to business transaction with The son of the President Moi, Mr Jonathon Moi’s Office and so to the links numbers and contacts of the business associates all in and around The President of Kenya President Daniel Moi.

- Accusing The Empress intentionally and by design with criminal activities to camouflage the hidden agenda, and total setup of The Empress for the hostage holding.

- This hostage holding was most certainly pre-arranged.
The key character of the televised propaganda in The Netherlands, is directly involved and linked to a Kenyan business contract, signed by a High Member of Kenya's Government. A High Profile Government Member, who was delegated to see to the business matters of the Presidential House and Mr. Jonathon Moi's interest. Permanent Secretary Boit, innocent of The Moi's morbid plans.

However during the Kenya period of Hostage, the already seemingly tense relation between Mr. Boit Kenya's Permanent Secretary and both The President and Mr. Jonathon Moi became extremely tense, even dangerously so, to the person of Permanent Secretary Boit. He was brought to silence by the State House.

Documents of Prior contacts, of meetings, of contractual signed documents from the said AGIP Kenya Offer, plus photos taken and saved by Her Imperial Majesty Security in Kenya and in The Netherlands. A number of documents have been stolen and damaged others removed from the owners, before the execution of that said person. The documents and its details are Lodged at the United Nations and it the USA. And copies have been sent to all relevant Heads of States in this matter, within and outside of Africa. It also includes the picture evidence of Her Majesty's Kenyan visit.

Included amongst the published documents and articles of correspondence are the offices telephone numbers and the very obvious phone of that period. Memo's and other internal notes pertaining to the contact with and around Kenya, and the Netherlands.

So to the picture archives, as earlier stated, the above photographs and other disclosed documents have been smuggled out of Kenya, the documents, those disclosed, and those not disclosed, have been a main part of the international manhunt after The Empress by President Moi, Jonathon Moi, their Hill Side Estate Ltd and associates, his Dutch Associated inner Circle and the unknowing International/Media contacts in the loathsome propaganda attacks, and in particular after a period of hostage holding and almost two years of unwarranted obstacles in the paths of the Kingdoms for Africa. It has made us all the more stronger and much more dedicated under the strength charisma and understanding of our ever present Nubian Empress.

Documents held at the former Secretariat were stolen, destroyed, and others intercepted and deviated via internet file tapping, the Empress's Secretariat communications system, had, regardless of all the present protection at that time, suffered weekly virus attacks, thereby deleting the system. Faxes/e-mail never arrived, or was never received and it is still happening, it is against every international code of ethics, and in this particular case to one of Royal Status.

The documents in the possession of the Kenyan Attorney under instructions of the Royal Family and Governments were taken from his office, prior to his arrest and murder, eight rolls of film are yet in Kenya, and suspected in the hands of the Moi's.
An internal and international search by Kenya for the 8 videos of the visit, have resulted in several peoples arrested, some exiled from Kenya, others killed, others suspected of being killed, and moreso others bought to verbal silence by the Moi's Government.

Several maps of files was taken from the room while in Kenya, the remaining destroyed in Kenya after being faxed to Europe, where they are now archived, and a part of the documents here displayed.

News documentary and interviews are in the archives and files of the Kenyan News Stations, others thankfully on private recorded videos.

During the stay of His Royal Highness, the Empress and Staff in Switzerland Zurich, the Hotel suites of The Majesty's and their Ambassador and two Commissioners were search briefcases was disordered and documents gone. The Hotel was informed.

Several weeks later, Her Majesty's European Senior Commissioner Mr. Jaap Kooij was stopped on his way into Switzerland, where Her Imperial Majesty was at that time. After being held and question for eight hours in matters of business at the Basel Border-crossing by Border Guards, Senior Commissioner Mr. J. Kooij was order to leave all documentation behind, the angered Commissioner was overpowered and protest was useless, and that would endanger The Empress.

The documents were released over one week later, all important documents were missing, when returned, by the border authorities to the Hotel, where they had already checked out, in whose hands it was kept until collected sometime later in Switzerland.

At another five Star Swiss Hotel, a conference call was divert as later confirmed six African Heads of State was witness to this offensive behaviour and communications disruptions of tapping and call diversion by President Moi's European propaganda associates.

Suspected is, that the information disclosed in private, to other members of Royalty, was misused by third parties, within the said inner circle or immediate social contacts, used for their own private and political agenda, against The Empress projects for the African Peoples and African Governments. Kenya in close contact went beyond all moral bonds therefore and was confident, that the hostage holding was well backed....................

The Empress safety at present is paramount, to future African Kingdoms/European relations let that be clearly known, the actions against The Imperial Family and Kingdoms are seen as an unfriendly and unprovoked attack of a member of African Royalty from the ancient family lines, it is an insult throughout the Kingdoms and our peoples. International and public rectification of this atrocious propaganda must be immediately rectified and stopped.
Comments The Empress, to ALL

The Kingdom is the people, their leaders of the People, we are one...my People are my most precious, Africa is that of my womb...that of my blood...that of my God, Africa and my African peoples are free, to come, to seek, to search, to meet at any time, at any place, at any hour or any second, at any moment, their Elders, their Chiefs, Their Presidential Administration and their Kingdom Rulers and in particular when they need to see me, for any matter or any comfort or any reprimand as that may be, a kind word a smile, an acknowledgement .......let them be. Kenya you are my people, you are free of the consequence of these actions, for it is your rulers, who are responsible for the order in his house. If the House of the Ruler is not in order neither would his family and people. Mr. Moi you are ma people, I do not know or judge you, for that is neither my goal nor my responsibility, I do judge your actions, towards the people that is my responsibility and to God I answer.

Mr D. Moi, your House has shamed Africa. Africa has been shamed by these actions, leave with honour, and make peace within you, for you too will answer for your actions and deeds, the code, the etiquette, the sovereign protocol of your office and responsibility to the peoples, you have broken them, through your actions. Your house is your responsibility. Therefore the actions of any part or department, is your responsibility. The actions of your son and associates are to the actions of you, for it is you, who lead the house.

These last, but not least mentioned, unwelcome and unwarranted situations, both of a matter of African concern, is the most important on Her Imperial Majesty's personal agenda, as quoted from The Empress...do not attempt to separate Africa from its African Kingdom roots nor I from my African and Diaspora's peoples, that was the final straw, do not come between me and my people, it will be easier to come between a lioness and her nursing cub. Africa is a united Africa with a people ready to build and work to a future for the African, your actions express a reflection of......Thou. 

Reason behind propaganda of Kenya: Corruption/Criminals

- To cover the Presidential Family's Hostage holding with and at The Grand Regency Hotel in Kenya for months, before Her Majesty successful escape/rescue was instrumented. Kindly note that the included documents of evidence of said contacts are archived samples:

Reason behind the Netherlands propaganda support of Kenya, and the Netherlands orchestrated and televised propaganda attacks on an African Kingdom Empress: (open question suggestion below/closing?)

OF H.R.M Commissioner Mr Walter Chemto

Her Majesty's Commissioner

On authority of Her Royal Majesty Queen Sheba Debra Amelia Kasambu 'Ra' of The Nubians.

Commissioner Chemto Her Majesty The Queen has asked that we send you a written confirmation of your Appointment in Her Royal Majesty service as Her Commissioner in Kenya. We at The Royal Secretariat hereby congratulation on your appointment Sir.

On behalf of Her Majesty Queen Sheba.

Mr. Chiren Wirh

H.R.M. Private Secretary.

As dictated by Her Majesty Queen Sheba.

Commissioner Chemto my greetings to you, I hereby will like to confirm to you your appointment as Commissioner in my service. Your responsibilities are as followed.

The day to day gathering of information on the well being of my people within the Nubian Communities in Kenya, at the same time you will need to keep in contact with your colleagues Commissioner's in the countries where our people reside, however, the well-being of the people is of equal importance as that of their country of residence and their lands as a whole. I need up date on the situation there and anything that my cause instability in general. Commissioner Chemto remember at all times our population throughout Africa and those in the West number over 100 million people. I need accurate situation reports from all my Commissioner's within the 8 countries in Africa and our lands along the Nile, and in particular Sudan which is as yet unfortunately a very sensitive issue.

I will also need a general update on the goods available for trade in every sector of the market. The Ambassadors are assisting in every way in accommodating our efforts to stimulate the progress of trade between Africa and the Western world as a whole, your responsibilities is keeping in contact with the Trade Departments of The Nubian Community, and taking care of the necessary facilitations on my behalf that they need to support these efforts in terms of agricultural production, and the necessary machinery needed, the education sector and how it can be improved and communications as a hold which needs to be worked on if we need to stimulate and have an effective trading market in the West. So too, in the industrial sector. I also need a report on the possibility for Tourism within the Nubian area's and lands in Kenya in particular.

I expect to fly to Kenya soon, but because of the schedule of appointments are this moment I am unable to say when I will be in the position to. However His Majesty, will stay within Africa, since we cannot both be away at the same time for long periods. His Royal Majesty King Adam Sheik Thabit Kasambu 'Ra' is however extremely busy at the moment, with matters needing his complete attention and concentration. It
is therefore imperative that you keep me up to date on the requested information for the daily well being of our people because of the awful drought, which regardless of my schedule I want to keep a close look on as there Queen.

Of particular interest is the Art Community. I have made arrangements for exposition within the USA for Nubian Art, we need to have the people aware of this and too stimulate them to create products of Art to have it expose and sold on the USA market, and at a fair price to them. I want the present form of marketing from and to the West stopped. It is not benefit our people, for the hours of work and love that they put into our Art form, and is not constructive to there growth.

At the same time, you need to inform me of the availability of a building premise for sale or rent, preferable sale, in which I would like housed the following:

An Art Dept. And Trade centre- where a registration should be kept of Artic wishing to market there products within Africa and the West.

A subsidy Dept: To subsidise those with talent but no finance for the material needed, if they are within the set criterion which I will have sent to you at a later date. This department should also cover those which we better exploit or in fact go into farming but are not at financial liberty to do so.

An Export Information Department: For those wishing to export their products, but are unable to because of the quantity, we need to developed infrastructure that will enable group export of the same products, thus cutting the heavy cost of shipping through share containers, strictly as the to be shipped goods are of the same quality and within international regulations.

An Investment Departments, for those both within Africa and through our office here wishing to invest in joint venture in Kenya in general. For this purpose we need to have an up-dated information Data- Bank of the investment interest within the communities and specifically that which the Government advises for the benefit and growth of Kenya.

An Department of Water Research-This I find of much importance, to accommodate any area, villages or farmers, but also for the development of the water-works as a whole, in the rural area. I need a report on that.

These are your direct responsibilities, and I will need weekly updates on the progress. If you need at any time urgent contact please do not hesitate to call my secretary Ms.Whit at The Royal Secretary in The Netherlands where I will stay until I am finish with the schedule appointments at hand. You can call on both numbers given by the address, but to get her directly please refer to the second number given. Or email: Ms.Wind at ms.phron.writh.h_r.m_secretary@workemail.nl

Sincerely regards;

H.R.M. Queen Sheba Kasanbu’Ra,

Mr Benson Ogute

Counsellor Embassy of Kenya

Mr Ogute, again a good day to you, as I mentioned on the phone earlier today, I am expecting a private visit from Mr Jonathan Moi the son of the President of Kenya and a small delegation of business men, one of which is Mr Walter Chumo.

Unfortunately we have encountered a few problems in attaining the visa he needs for his travel to The Netherlands with Mr Moi.

I have been told that The Head of Protocol Kenya will be contacting both the Embassy and The Ministry of Foreign Affairs The Netherlands to clear up this matter. Mr Chumo’s trip is solely business and as my appointed Commissioner and update of the news for the export sector and the conditions at the moment there in particular because of the drought.

Mr. Moi is like myself is most unhappy at the present problems being created by this trip, since we have appointments to keep both in The Netherlands and abroad. And also my planned official visit to Kenya in a few weeks, which is very much looking forward to.

Please assure in whatever way you can we will be most grateful. I have included all documentation and a letter addressed to Mr Olaf Quartel of the Ministry and a good friend recommended to assist us by Mr Raymond Okumu of Kenya and close to The Government bodies. Mr Okumu is also a old associate of my uncle former President of my country of birth Trinidad, where he was situated to conduct affairs for the Kenyan Government.

I also spoke to Mr Bos Permanent Secretary of Kenya, and a friend who altogether are very unhappy at the questioning of my person, I am H.R.M. Sheba and I am doing all in my power to open the market even more for the farmers and people of Kenya and is in no way involved or associate in anything other than serving my people and Africa. The Kenyan government is most insulted especially since Jonathan was and still is looking forward to this trip to visit me, with the whole delegation. I have told them of your friendliness and assistance and all at the Embassy hence this letter as requested by them to you and His Excellency The Ambassador.

The Head of Protocol had spoken to The Dutch Ambassador to Kenya last week, and I was not at all happy at the comments to my person neither to the trip of Jonathan and the delegates including Mr. Walter Chumo whom you can call and speak to at this number 245 2235670 or 254 7251557.

My sincere regards to The Ambassador and yourself and my hopes to meet him as soon as time allows, also my regards to Ambassador Ncube whom I hope to visit soon in Washington where I have a few meetings to attend. I was hoping to visit and introduce myself to Mr Ambassador after Jonathan arrived, and to have my formal introduction to The Minister of Foreign Affairs Holland but due to the present circumstances I think it wise to do that all sooner, to avoid such problems in the further.

I kindly ask if you or the Ambassador in light of Jonathan’s delay will accompany me on that visit, with the delegate that Mr. Olaf Quartel is arranging, you are free to contact him at this number 070 5123650.

H.R.M. Queen Sheba Debra Amelis Kasambu’ Ra

To avoid such confusion in the future H.R.M. kindly requests if you can also, if it is in your power arrange and official meeting with Herself and The Minister of Foreign Affairs of The Netherlands. However the problem has been protocol she must be introduced by someone of the Government that was too, the intention of Mr. Moy’s visit.

Letter of Invitation

Mr Walter Chumo
Her Majesty's Commissioner

Commissioner Mr Walter Chumo,

On behalf of Her Majesty Queen Sheba Kasambu’Ra, we are sending you a Letter of invitation on Her Majesty’s request.

Her Majesty would like to let you know that it would be necessary because of Her schedule the coming year, that you travel over to The Netherlands for all the necessary meetings, on behalf of the Secretariat and The Nubian’s under your guidance, which means at least every 2 to 3 weeks.

Her Majesty The Queen has a full schedule of appointments within Europe and the USA and would therefore be at the Residence in Netherlands for the majority of this coming year. His Majesty King Adam Thabit Kasambu’Ra will take care of the responsibilities in Africa. It will also be necessary that you bring a report update on the situation in Kenya in terms of Trade and general conditions of the Nubian communities within Kenya, Tanzania, and Uganda, Ethiopia, Sudan, Somalia, South of Egypt and The Congo.

Your report should also include the general condition and state of the countries in question in terms of economics, and an update on every problem that comes up in Her Majesty The Queen’s absence. Please take care of the necessary visa as soon as possible since we are expected you as soon as that is arranged for an update. She has up coming meetings with several of the Ambassadors in Belgium and Den Haag in The Netherlands and needs those reports.

We look forward to greeting you in person soon.

Ms Charron Wirht
H.R.M. Secretary
The Royal Secretariat. ms.charron.wirht.h.r.m.secretary@worldmail.nl
is therefore imperative that you keep me up to date on the requested information for the daily well being of our people, which regardless of my schedule I want to keep a close look on as Queen.

Of particular interest is the Art Community. I have made arrangements for exhibition within the USA for Nubian Art, we need to have the people aware of this and not stimulate them to create products of Art to have it expose and sold on the USA market, and at a fair price to them. I want the present form of marketing from and to the West stopped, it is not benefit our people, for the hours of work and love that they put into our Art form, and it is not constructive to their growth.

At the same time, you need to inform me of the availability of a building premise for sale or rent, preferable sale, in which I would like housed the following:

An Art Dept. And Trade centre- where a registration should be kept of Artist wishing to market their products within Africa and the West.

A subsidie Dept.- To subsidise those with talent but no finance for the material needed, if they are within the set criterions which I will have sent to you at a later date. This department should also cover those which to better exploit or in fact go into farming but at not at financial liberty to do so.

An Export Information Department- For those wishing to export there products, but are unable to because of the quantity, we need to develop a infrastructure that will enable group export of the same products, there cutting the heavy cost of shipping through share containers, strictly as the to be shipped goods are of the same quality and within international regulations.

An The Investment Department- for those both within Africa and through our office here wishing to invest in joint ventures in Kenya in general. For this purpose we need to have an up-dated information Data Bank of the investment interest within the communities and specifically that which the Government advises for the benefit and growth of Kenya.

An a Department of Water Research-This I find of much importance, to accommodated any area, villages or farmers, but also for the development of the water-works as a hold, in the rural area. I need a report on that.

These are your direct responsibilities, and I will need weekly updates on the progress. If you need at any time urgent contact please do not hesitate to call my secretary Ms. With at: The Royal Secretariat in The Netherlands where I will stay until I am finish with the schedule appointments at hand. You can call on both numbers given by the address, but to get her directly please refer to the second number given. Or email Ms. With at ms.charmer.with@hm.secretary@worldmail.nl

Sincere regards,

Mr. Walter Chumo,

I have read with interest your fax, concerning the possibility of Joint Venture Mining in Kenya, I am most interested. However I would like further information. I have asked my research department, to inform me of the marketing possibility and it is very well, but however a few of the stones have lost there allure in the West because of problems with the acquiring of and to with cutting. However that is a small problem and will most certainly be solve and brought again under the attention of the jewellery market.

That I can do personally in that I had already planned to have a line of Crown jewellery for my private collection made, with the most beautiful stones of Africa, those well known in the West and those unknown, it must be made by the most skilled and talented jeweller you can possible find. I want the world's attention drawn to it at every event where it will be worn, we would sell those stones Mr. Chumo. I love an interesting challenge, and I very much intent getting the recognition that Africa deserves, in terms of it’s power beauty, and Royalty. Personally I harbour an intense dislike to any referral to Africa as third world and intend dedicating my life, status and influence as a start to changing that here in the West.

However it has been brought to my attention that a few of the mentioned stones are not found in Africa. They are as followed:

Alexandrite - Russia (however there is little if any left) Sri Lanka, Birma and Brazil all small quantities, if therefore a vein has been found if suggest it be research and kept quiet. It is very valuable however not as popular as in the time of Alexander of Russia. Secondly if it is the same stone we should rename it in Respect to Africa it will raise it’s value to.

Tanzanite - Have you acquire this source from Tanzania? According to our research dept: It is found in Merafani Hill about 60 km from Arusha in the Lelatana district in Tanzania. However it is almost fully mined very little left, please confirmed if this too has been founded in Kenya it would be very interesting and again it is extremely valuable.

Ruby Spinel- Sri Lanka, Birma, Brazil (Espirito Santo in particular), Australia, Italy, Russia and the USA, Madagascar.
Blue Sapphire- In general in large quantities in Sri Lanka, other sources are North-Vietnam, China, Cambodia, Thailand and Birma in the Northern from Mandalay. Also in Montana USA

In Australia green-blue sapphire. Ruby- in several countries including Mugadi Kenya is that amongst the lands where we will possible be mining? I await with persona interest your answer since I am passionately fond of stones, and do have a private collection.

The other stones are still being research. Please it is important to have the information check and recheck, for future marketing and our credibility. However if you are confident that they are authentic then Mr. Charno we shall certainly invest, what ever is necessary.

We can discuss this future after the necessary confirmation has been given, I will be most willing to invest in this project privately, however I would certainly have a few request, if all is in agreement.

Please in your information letter if it is possible let me know the cost, And if there are possibilities for Diamonds. We can sell around USD 120 million weekly (market value)... The stones you mentioned is all very marketable and would not be a problem, we just all need to confirm that they are there and the possibility quantity that can be mined in the coming years.

Tractors-

We have had the confirmation on the tyres, the sizes you inquired about are standard on the tractors, available, I will send the price list later today, we can start selling it is no problem. They are all available to be shipped.

Grain

The buyers are most interested in the information received from you, concerning the grain, $100 per ton is that the price that it is being sold at shipped from Mombasas?. Also is that including or excluding the profits? We have not yet discussed that detail which is important. Please in the meantime send please sample, they are waiting for it, actually it seems that they imported 10 years ago from Kenya, but for political and reasons of mis-trust stopped, after receiving good samples but the shipment that did not match the quality of the samples sent, we have to be careful and have full control since this buyer covers a great part of Europe. I gave him my word on that. They would like at least 500,000 tons per year. Also they requested the standard certificate of Quality and Stability in The Netherlands it is called The S.G.S. Certificate.

Banana's

Very interesting, our buyers are interested in approximately 1,000,000,000. Ton per year!!!
For an exclusive contract from us. Like all our buyers do we work only with exclusive and long term contracts, because of the quantities we market.

They need Cavendish sized Banana’s of 8" (20 cm) 18 kgs/box (40 lbs net).

At a minimum of 40,000 ton per week.

**Tea**

We need information on the weekly export possibility in tons for the buyers.
