***Understanding the
Mine Safety & Health Act (MSHA)
Wednesday July 13, 2016 - 10:00 AM***

Meet the Expert and Learn Industry Secrets

The federal Mine Safety and Health Act is often misunderstood. The Act is far reaching and impacts many businesses; not just mining companies. This webinar will provide participants with an understanding of the framework and key requirements of the Mine Safety and Health Act. Covered topics include:

- General Introduction to the Act
- Overview of the requirements of the Act and Regulations
- Enforcement of the Act

- Commonly cited violations
- How to avoid costly penalties

Bryan Goodlin **Manager of Safety Services**

Bryan Goodlin is a Manager of Safety Services for East Coast Risk Management. Prior to starting with ECRM, Bryan work for Fenner Dunlop Conveyor Services as a Regional Safety Coordinator. His experience included responsibilities for employee training, workers compensation management, program development, risk analysis & control, drug & alcohol testing program and employee safety on MSHA & OSHA governed locations.

Bryan is a graduate of Slippery Rock University with Bachelor's Degree in Safety & Environmental Management, and has received accreditation by the National Registry of Environmental Professionals as a Certified Environmental Safety Compliance Officer. He also holds designations as an accredited MSHA (underground & surface) Instructor & OSHA (construction) Outreach Trainer.

Bryan provides specialized risk management services in the areas of OSHA and MSHA Training & Compliance, Behavior Based Safety Development, Incident Investigation, Ergonomic Assessments, Job Safety Analysis (JSA), Hazardous Energy Control Procedures, Machine Guarding, Supervisor Training, and Employee Development.
