

#### Rotos

Botox is used to reduce or eliminate the appearance of facial wrinkles caused by facial movements and aging. Botox relaxes the facial muscle and has been used for over 10 years. Injections are administered directly into the skin to and results are maximized between 3-6 days.

Treatment areas: forehead, between the brow, around the eyes (crow's feet), around the mouth, chin, and neck area.

**Botox** 

\$10.50/unit

### **Dermal Fillers**

Fillers are used to restore youthful volume to skin, soften wrinkles, and fill creases to almost any aspect of the face. We specialize in accentuating your best features for a natural look. Fillers are injected directly into the skin and results are almost immediate.

Juvaderm Ultra \$325 / \$575 Restylanne \$550 Radiesse \$775

## **Accentuating Fillers**

Using Botox, Fillers, or both, Dr. Ashley accentuates and sculpts your best features for a natural look in the following services:

Liquid Brow Lift \$375 Liquid Lips \$325 Liquid Facelift Consultation

Upper Eyelid Lift

\$1750

Blepharoplastys can revitalize worn out eyes. By removing sagging skin, fat, and/or muscle the eyes appear youthful and bright again. This surgery is done in office under local anesthesia and downtime is about one week.

### **Earlobe Rejuvenation**

\$275-

Earlobe Rejuvenation will correct the sagging skin on the earlobe caused by aging or heavy earrings. This procedure in done in office and has only a few days downtime. Earrings can be worn after 4 months.

\$10/tag

Eliminate skin tags for smooth skin.

Laticce

\$115

Latisse is an FDA approved treatment for inadequate eyelashes, creating longer, thicker, and fuller eyelashes.

## **HCG Diet Regimen**

\$750

The HCG Diet regimen is a 25 day commitment for rapid weight loss. HCG hormone injections are administered daily and a strict diet must be followed. Results are fabulous when clients stay on track. We are always here for support and guidance.

### Sclerotherapy Vein Treatment

\$445

Sclerothearpy is used to treat spider veins by injecting a solution into the skin to eventually fade away visible veins. Two to four treatments are recommended for maximum results and there is virtually no downtime.

### Scar and Stretch Mark Reduction \$195

Skin Needling is used to treat small areas that are in need of collagen stimulation to reduce the appearance of scars and small areas of stretch marks.

## Non-Surgical Facelift Consultation

The Non-Surgical Facelift uses Botox to relax facial muscles that cause wrinkles, while Fillers are used to plump volume depleted areas or accentuate features such as cheek bones, lips, eyes, and the chin. Specific laser treatments are then selected to target your skin needs from pigmentation correction to restoring skin texture through skin resurfacing. Exilis treatments are used to tighten loose skin, reshape and reduce fat deposits. Downtime varies due to the customization of this treatment.

## Hand Rejuvenation

Consultation

The Hand Rejuvenation treatment restores youthful volume with fillers while reducing both sun and age spots with an added photo laser treatment.

## **B-Complex Injection**

B Vitamins are easily depleted from the body. This cocktail of B Vitamins, including B-12, boost metabolism, boost energy levels and strengthen the immune system.

B-12 Injection \$25 B-Complex Injection \$30

# Cosmelan RX MedMasque \$445

The Cosmelan Treatment is a high powered, multi-ingredient treatment by prescription only that effectively reduces hyperpigmentation and age spots. This is a two part treatment and the first part is administered in office while the second step is applied by the client at home.
