Welcome to Reno, Nevada, the Biggest Little City in the World.

This city is teeming with endless possibilities - from its world-famous casinos to top ski resorts designed to accommodate every taste. A destination with something to offer for everyone. Gaming and family entertainment, outdoor activities, festivals, museums, fantastic cuisine, shows, art and culture. All steeped in a rich, diverse, and rugged history.

If you are prepared for a little driving, Reno is surprisingly close to some major Californian cities, such as Berkeley, Oakland, Sacramento, San Jose and even San Francisco. It is also close to destinations such as:

Lake Tahoe

Lake Tahoe is the largest alpine lake in North America. There are 15 ski resorts, 50 golf courses, thousands of biking and hiking trails, several lakes perfect for fishing and boating, and the entire length of the Truckee River, which runs right through the center of Reno's downtown. Couple those activities with Reno's hotels and casinos, plus a growing nightlife, and you have the perfect place to put up for a few days and enjoy some recreation.

Napa Valley

California's wine country is famous the world over and comprises both the Napa Valley and the Sonoma Valley. Each year, almost five million tourists now come to the Napa Valley to enjoy a vacation of vineyard hopping and wine tasting, making this one of the most popular tourism destinations in California and the United States. Most vineyards and wineries around Napa Valley actively welcome tourists, offering guided tours, information about their wines, and plenty of opportunity to sample the produce.

Yosemite National Park

Designated a World Heritage Site in 1984, Yosemite is internationally recognized for its spectacular granite cliffs, waterfalls, clear streams, Giant Sequoia groves, and biological diversity. Almost 95% of the park is designated wilderness. Located in Yosemite Valley, the Yosemite Falls is the highest in North America at 2,425-foot (739 m). is famous for its high concentration of waterfalls in a small area. Numerous sheer drops, glacial steps and hanging valleys in the park provide many places for waterfalls to exist.
