BlueChip Plus and **NuBlue Plus** Kentucky bluegrass (*Poa pratensis*) bring enduring performance to your lawn, park, or sports field at an affordable price. Their lush green color and plush growth crowd out weeds. **BlueChip Plus** and **NuBlue Plus** are precisely matched to Jacklin's elite line of turfgrasses. They adapt to sports field and home lawn mowing heights, with or without irrigation.

Winter Ready: **BlueChip Plus** has good cold-hardiness and performs strongly in the cool-arid region. It retains its color and vigor well into November.

Broad Adaptation: **BlueChip Plus** has been successfully used on some of the top golf courses the world over. You can have confidence **BlueChip Plus** will perform for you.

Recommended Seeding Rate:

2-3 lbs./1000 ft² (10-15 g/m²) by itself or blended with other bluegrasses. Mix **BlueChip Plus** or **NuBlue Plus** with 20% ryegrass or 80% tall fescue.

Fast Establishment: **NuBlue Plus** has improved seedling vigor and early establishment. Quick seedling establishment reduces early weed problems and is important for all bluegrass turf.

Flexible Maintenance Requirements: **NuBlue Plus** performs well under both high and low maintenance. This allows the versatile use of this economical variety in both blends and mixes for premium turf and lower maintenance. With today's higher maintenance costs, premium turf with lower inputs is a very desirable trait.
