3-4 LBS/1,000 square feet for new establishment

1-2 LBS/1,000 square feet for overseeding

Corsair Kentucky Bluegrass incorporates the most recent advancements in turfgrass breeding technology and brings it to the market place.

Corsair has exhibited high resistance to rust and powdery mildew. It also provides a dark green color, fine leaf texture and excellent density year around during the growing season. This grass is ideally suited for home lawns, commercial properties, parks, sod production, golf course roughs and sports fields.

Corsair...setting a new standard for quality and performance in Kentucky Bluegrass.
