Test and Test Information Guide Development

Teacher Certification Testing

Since 1980, Florida teacher certification candidates have been required to pass the Florida Teacher Certification Examinations (FTCE), which has consisted of tests in reading, writing, mathematics, and professional knowledge. The 1986 Florida Legislature modified the testing program by also requiring teacher candidates to pass a test in the subject area in which they wish to be certified. In addition, the Legislature substituted the Florida College-Level Academic Skills Test (CLAST) for the reading, writing, and mathematics portions of the FTCE. The 2000 Florida Legislature replaced the CLAST with the General Knowledge Test, effective July 1, 2002.

The subject area knowledge tested on the English 6–12 examination was identified and validated by committees of content specialists from within the state of Florida. Committee members included public school teachers, district supervisors, and college faculty with expertise in this field. Committee members were selected on the basis of recommendations by district superintendents, public school principals, deans of education, experts in the field, and other organizations. In developing the test, the committees used an extensive literature review, interviews with selected public school teachers, a large-scale survey of teachers, pilot tests, and their own professional judgment.

Role of the Test Information Guide

The purpose of this test information guide is to help candidates taking the subject area test in English 6–12 prepare effectively for the examination. The guide was designed to familiarize prospective test takers with various aspects of the examination, including the content that is covered and the way it is represented. The guide should enable candidates to direct their study and to focus on relevant material for review.

This test information guide is intended primarily for use by certification candidates, who may be students in a college or university teacher-preparation program, teachers with provisional certification, teachers seeking certification in an additional subject area, or persons making a career change to public school teaching. Candidates may have studied and worked in Florida or may be from out of state.

College or university faculty may also use the guide to prepare students for certification, and inservice trainers may find the guide useful for helping previously certified teachers prepare for recertification or multiple certification.

This test information guide is not intended as an all-inclusive source of subject area knowledge, nor is it a substitute for college course work in the subject area. The sample questions are representative of the content of the actual test; however, they are not actual test questions from an actual test form. Instead, the guide is intended to help candidates prepare for the subject area test by presenting an overview of the content and format of the examination.

Preparation for the Test

The following outline may help you to prepare for the examination. Adapt these suggestions to suit your own study habits and the time you have available for review.

Overview

- **Look over the organization of the test information guide.**

Section 1 discusses the development of the test and test information guide.

Section 2 (this section) outlines test preparation steps.

Section 3 offers strategies for taking the test.

Section 4 presents information about the content and structure of the test.

Section 5 lists question formats and includes sample test questions.

Section 6 provides an annotated bibliography of general references you may find useful in your review.

Section 7 identifies a source of further information.

Self-Assessment

- **Decide which content areas you should review.**

Section 4 includes the competencies and skills used to develop this subject area test and the approximate proportion of test questions from each competency area.

Review

- **Study according to your needs.**

Review all of the competencies and concentrate on areas with which you are least familiar.

Practice

- **Acquaint yourself with the format of the examination.**

Section 5 describes types of questions you may find on the examination.

- **Answer sample test questions.**

Section 5 gives you an opportunity to test yourself with sample test questions and provides an answer key and information regarding the competency to which each question is linked.

Final preparation

- **Review test-taking advice.**

Section 3 includes suggestions for improving your performance on the examination.

- **Refer to field-specific references.**

Section 6 includes an annotated bibliography listing general references keyed to the competencies and skills used to develop this subject area test.

Test-Taking Advice

- Go into the examination prepared, alert, and well rested.
- Complete your travel arrangements prior to the examination date. Plan to arrive early so that you can locate the parking facilities and examination room without rushing.
- Dress comfortably and bring a sweater or jacket in case the room is too cool.
- Take the following with you to the test site:
 - Admission ticket
 - Proper identification as described in "Identification Policy"
 - Watch
- There are many strategies for taking a test and different techniques for dealing with different types of questions. Nevertheless, you may find the following general suggestions useful.
 - Read each question and all the response options carefully before selecting your answer. Pay attention to all of the details.
 - Go through the entire test once and answer all the questions you are reasonably certain about. Then go back and tackle the questions that require more thought.
 - When you are not certain of the right answer, eliminate as many options as you can and choose the response that seems best. It is to your advantage to answer all the questions on the test, even if you are uncertain about some of your choices.
 - After completing the examination, go back and check every question. Verify that you have answered all of the questions and that your responses are correctly entered.

Competencies and Skills and Test Blueprint

The table on the following pages lists the competencies and skills used as the basis for the English 6–12 examination. These competencies and skills represent the knowledge that teams of teachers, subject area specialists, and district-level educators have determined to be important for beginning teachers. This table could serve as a checklist for assessing your familiarity with each of the areas covered by the test. The competencies and skills should help you organize your review. The test blueprint indicates the approximate percentage of test questions that will cover the specific competency on the exam.

Competencies are broad areas of content knowledge.

Skills identify specific behaviors that demonstrate the competencies.

Percentages indicate the approximate proportion of test questions that represent the competencies on the test.

The following excerpt illustrates the components of the table.

<i>Competency</i>	<i>Approximate percentage of total test questions (test blueprint)</i>
Competency/Skill	Approx. %
1 Knowledge of the English language and methods for effective teaching	20%
1 Identify influences on language (e.g. social, cultural, ethnic, religious, historical, regional, and gender). 2 Identify and apply various approaches to the study of language, usage, grammar, and style. 3 Apply knowledge of standard written English. 4 Identify how audience and purpose affect language. 5 Identify methods of effectively assessing language skills. 6 Identify methods and strategies for teaching English for speakers of other languages.

Test Format and Sample Questions

The English 6–12 subject area test consists of two parts: an essay and approximately 85 multiple-choice items. You will have one hour to complete your essay and one and one-half hours to answer the multiple-choice questions.

The Essay

For your essay, you will choose between two topics. The 60 minutes allotted for this section of the exam includes time to prepare, write, and edit your essay.

The essay section represents 30 percent of the total score of the exam. Your work will be scored holistically by two judges. The personal views you express will not be an issue; however, the skill with which you express those views, the logic of your arguments, and the degree to which you support your position will be very important in the scoring.

Your essay will be scored both on substance and on the composition skills demonstrated, including the following elements: ideas, focus, organization, style (diction and sentence structure), and mechanics (capitalization, punctuation, spelling, and usage).

The judges will use the categories on the following page when evaluating your essay.

Essay Scoring Categories:

- 7 The essay is unified, sharply-focused, and distinctively effective.** The ideas are rich, concrete, plentiful, appropriate, and deep-textured. The writer uses an abundance of specific, relevant details, including concrete examples that clearly support generalizations. A wide variety of sentence constructions is used. Appropriate transitional words and phrases and effective coherence techniques make the prose distinctive. Usage is uniformly sensible, accurate, and sure. The mechanics, with some exceptions of the pressure of time, are generally faultless.
- 6 The essay is unified, well-focused, and effectively written.** The ideas are appropriate, thoughtful, and logical. The writer uses ample evidence and numerous relevant and textual details to support generalizations. A variety of sentence structures is used, and the essay reflects a strong control of language. Transitions and coherence techniques are generally effective and often make the prose fluid. Usage and word choice are precise and appropriate. Mechanics are well-controlled, but there may be occasional minor errors.
- 5 The essay is unified and focused, and it is clearly, if not distinctively, written.** The writer presents a considerable quantity of relevant and specific detail in support of the subject. A variety of sentence patterns occurs, and sentence constructions indicate that the writer has facility in the use of language. Effective transitions are accompanied by sentences constructed with orderly relationships between word groups. Syntactically, the essay is clear and reliable. There may be a few errors in spelling, capitalization, and punctuation, but they are not serious.
- 4 The essay is generally unified and focused.** The ideas are mostly logical but tend to be general. The writer usually provides an adequate amount of detail in support of the subject. Sentence structure may be varied, and syntax is generally grammatical. Paragraphs are unified, and transitions, though often formulaic, are used to link major ideas. Usage and word choice are mostly accurate. Errors in spelling, capitalization, and punctuation may occur, but only a few are distracting.
- 3 The essay has some degree of unity and focus, but each could be improved.** It is reasonably clear, though not invariably so. The writer employs a limited amount of specific detail relating to the subject. Paragraphs are usually sufficiently unified and developed. Sentence variety is minimal, and constructions lack sophistication. Some transitions are used, and parts are related to each other in a fairly orderly manner. The essay is syntactically bland and, at times, awkward. Usage is generally accurate. There are some errors in spelling, capitalization, and punctuation that distract from the essay's effect if not from its sense.
- 2 The essay may have minimal unity and focus, and is incomplete, ambiguous, or vague.** The ideas are superficial and often unclear or illogical. Development is often sketchy, consisting of generalizations, lists, and/or details that may be irrelevant. There are few, if any, transitions, and paragraphs may not be related to each other. Sentence structure may be disjointed or simplistic with very limited variety. Usage and word choice are often inaccurate or inappropriate. There may be many distracting errors in spelling, capitalization, and punctuation.
- 1 The essay lacks unity and focus.** The writer includes very little, if any, specific and relevant supporting detail, but, instead, uses unsupported generalizations. Paragraphs are underdeveloped and ineffective and do not support the thesis. Sentences lack variety, usually consisting of a series of subject-verb and, occasionally, complement constructions. Transitions and coherence devices are not discernible. Usage is irregular and often questionable or wrong. There are serious errors in spelling, capitalization, and punctuation.

SAMPLE ESSAY TOPICS

Select **ONE** of the presented topics as the basis for your writing sample.

Topic 1:

Using any critical approach, discuss in an essay how the language and/or other elements contribute to the overall effect of the selection. Support your discussion with specific references to the text.

Alone

Lying, thinking

Last night

How to find my soul a home

Where water is not thirsty

And bread loaf is not stone

I came up with one thing

And I don't believe I'm wrong

That nobody,

But nobody

Can make it out here alone.

Alone, all alone

Nobody, but nobody

Can make it out here alone.

There are some millionaires

With money they can't use

Their wives run round like banshees

Their children sing the blues

They've got expensive doctors

To cure their hearts of stone.

But nobody

No, nobody

Can make it out here alone.

Alone, all alone

Nobody, but nobody

Can make it out here alone.

Now if you listen closely
I'll tell you what I know
Storm clouds are gathering
The wind is gonna blow
The race of man is suffering
And I can hear the moan,
'Cause nobody,
But nobody
Can make it out here alone.

Alone, all alone
Nobody, but nobody
Can make it out here alone.

— Maya Angelou

Angelou, M. (1975). Alone. In *Oh Pray My Wings Are Gonna Fit Me Well*. New York: Random House.

Topic 2:

Using any critical approach, discuss in an essay how the language and/or other elements contribute to the overall effect of the selection. Support your discussion with specific references to the text.

The Inheritance of Tools

As the saw teeth bit down, the wood released its smell, each kind with its own fragrance, oak or walnut or cherry or pine—usually pine because it was the softest, easiest for a child to work. No matter how weathered and gray the board, no matter how warped and cracked, inside there was this smell waiting, as of something freshly baked. I gathered every smidgen of sawdust and stored it away in coffee cans, which I kept in a drawer of the workbench. When I did not feel like hammering nails, I would dump my sawdust on the concrete floor of the garage and landscape it into highways and farms and towns, running miniature cars and trucks along miniature roads. Looming as huge as a colossus, my father worked over and around me, now and again bending down to inspect my work, careful not to trample my creations. It was a landscape that smelled dizzyingly of wood. Even after a bath my skin would carry the smell, and so would my father's hair, when he lifted me for a bedtime hug.

The Multiple-Choice Questions

Each of the questions in the second part of the exam will contain four response options. You will indicate your answer by selecting **A**, **B**, **C**, or **D**. The table below presents types of questions on the exam and directs you to examples of these formats among the sample items that follow.

Type of question	Sample item
Direct question Choose the response option that best answers the question.	Question 1 page 18
Sentence completion Select the response option that best completes the sentence.	Question 4 page 18
Scenario Examine a classroom situation or a student composition. Then select the response option that best answers a question, recommends a course of action, or gives the appropriate evaluation or teacher comment.	Question 6 page 19
Text Analysis Study a text and identify a literary feature, such as a figure of speech, style, form, or function, by choosing the best response option.	Question 17 page 22
Command Select the best response option.	Question 19 page 22

Sample Multiple-Choice Items

The following items represent both the form and content of questions you will encounter on the exam. These sample items cannot cover all of the competencies and skills that are tested, and they can only approximate the degree of difficulty of actual exam questions. However, these items will acquaint you with the general format of the exam.

When you practice for the essay, you should choose a place that is free of distractions. You might wish to time yourself. Plan your essay on a separate sheet of paper before you write and leave time for revising and editing.

An answer key for the multiple-choice questions follows at the end of the sample questions. The answer key includes information regarding the competency to which each question is linked.

DIRECTIONS: Read each question and select the best response.

1. The words *gothic*, *vandal*, and *turret* represent which of the following influences on language?
 - A. religious
 - B. historic
 - C. technological

Annotated Bibliography

The annotated bibliography that follows includes basic references that you may find useful in preparing for the exam. Each resource is linked to the competencies and skills found in Section 4 of this guide.

This bibliography is representative of the most important and most comprehensive texts pertaining to the competencies and skills. The Florida Department of Education does not endorse these references as the only appropriate sources for review; many comparable texts currently used in teacher preparation programs also cover the competencies and skills that are tested on the exam.
