

Spartiates Army Ability

Deep Ranks

After deployment, but before assigning initial standing orders, you may cross off 1 Green box on one of your Phalanx units to mark 1  box on another of your Phalanx units. You may only damage a unit once by Deep Ranks, but you can damage multiple units to mark both  boxes on a single unit.

During an attack after your opponent rolls to wound, you may erase the  box to change the result of one to a 6. This counts as playing a Command Card.

For reference, the Lock Shields box is the one with the four interlocking circles and the Deep Ranks box is the one with the helmet.
