## **Ugandan Animals:A Zoology Lesson**

By NETwork Against Malaria

Materials included:

- ✓ [Power point](#)
- ✓ [Video](#)
- ✓ [Worksheet/Quiz](#)
- ✓ [Answer Key](#)

Uganda is a beautiful country with diverse species. The presentation opens by illustrating that one of the greatest ways to protect endangered species and a country's natural resource is to protect the people of the country. Then it shows a picture and gives fun facts about many animals that call Uganda home. Contained within the presentation is a video that shows more animal species. Finally, students can complete a worksheet which can be checked using the given answer key.
