

Adjust depending on how far apart your eyes are and focal length

This should be 5 inches when printed

This one is for smaller lenses

Add tape here for strength

Dotted line means only score and fold

Fold in and glue

This is where the lense holder is put. NOTE this is my persona lfocal length you will need to hold the lense up to the phone and see what yours is. It helps to have a frind measure.

This is ledge the phone sits on

Fold in and glue
