

KER33

McCONAGHY

The Ker 33 is looking to lay down a new benchmark in the racer/cruiser division and with the huge success of Ker Design over the years and McConaghy's unrivalled build quality, it is no surprise that orders have already been placed.

The philosophy behind the 33 was to highlight the design, build expertise and techniques that this duo has to offer. Noting the success of the 30-35ft racer/cruisers currently on the market that have been performing on the IRC scene both inshore and offshore, we felt there was clearly the demand for another boat to fit within this category, particularly one with this much potential.
