Please remove the location listed above from the Courtesy Fill service. I understand it is my responsibility to monitor my tank and call for my fuel deliveries.

**Courtesy Fill Service:** Foster Blue Water Oil offers a “Courtesy Fill Service” to qualified customers. Your deliveries will be scheduled based on your consumption of fuel in relation to the average outside temperature. Foster Blue Water Oil will calculate your deliveries to arrive when your tank gauge reads approximately 1/4. Upon completion of the delivery, the tank will be full.

**Will Call Service:** Will Call deliveries occur only at the request of the customer. We urge all “Will Call” customers to call their local office when their gauge reads 1/4. Our customer service representatives will schedule your delivery on the next designated delivery day for your route. Minimum delivery is 150 gallons.

*Foster Blue Water Oil is not liable for any damages caused because a customer runs out of fuel. Fuel consumption is the customer’s responsibility. Check your tank frequently.*
