

Children learn by example, and are empowered to change the world when they see others doing it. At this community organizing VBS, Scripture will inspire us to collective action that benefits others, and guest leaders in our community (young adults and children) will tell us stories of how they organized for change, and lead us in special projects. Guest organizations include: Little Free Pantry, LUCHA, Students for Refugees, and neighborhood youth who organize for social change. Join us for a week of community organizing, plus all the music, snacks, and games traditional for summer Vacation Bible School.
