THE ULTIMATE EXPERIENCE

Welcome to Mercy Street Studio, the Seacoast's premier senior and teen photography studio.

Mercy Street Studio focuses on creating a unique experience that is tailored to each individual. We specialize in bringing each of our client's inner and outer beauty to life.

Senior portraits are so much more than "getting a photo for the yearbook" (though we certainly accomplish that). It's about capturing who you were during one of the most monumental years in your life.

Erin Moore has photographed hundreds of teenagers. Her photographs have been published in magazines, on book covers, and on television. Her work is also reguarly featured on Modern Teen Style and Senior Style Guide.

She has trained under the industry's top photographers. She stays abreast of current and emerging trends, making her the area's leading teen photographer.

The result of her dedication is uniquely artistic portraits for her clients to look back on for years and generations.

Your senior year is an unforgettable year, you should have an unforgettably awesome senior portrait experience. Let's do this.
