

## Time to get in touch again!

What a wonderful summer it has been here in Switzerland, with the notable exception of the horrible weather on August 24th, the date of our **Summer Cocktail at the Golf de Lavaux**.

Some members and their guests arrived dripping wet as a result of the short walk to the clubhouse from the carpark!

Mr. Philippe Salamon – Director Golf de Lavaux

No wonder the putting competition had to be cancelled

Even so, the evening was very convivial and we all had fun. We enjoyed the film about how **Pierre Massard**, after serious injury, managed to relearn his golfing skills, as described in his autobiographical book **Lève-toi et Swingue!**

Mr. Pierre Massard

Mr. Philip Deslarzes

And the demonstration of how to curve the flight of the golf ball by the young, talented **Philip Deslarzes** was fascinating, especially for the golfing members of the MIB, for whom a slice or a hook is rarely deliberate!

Of course, the MIB is not just about enjoying ourselves! We are, after all, a business club, and business networking is part of our raison d'être. Do you have a business or a service to offer to other members but are too shy to shout about it? If so, you are welcome to have a three-minute slot at one of our monthly luncheons, before the main speaker: a sort of

**coup de cœur**. Just ask a member of the committee. Don't be backward in coming forward!

Alternatively, we could mention your business or service in one of these InTouch newsletters. Here's an example, from Olivier Toletti, director of the **Riviera Business Centre** and long-standing member of the MIB committee. This is what Olivier has to say about his business:

*Notre philosophie : « Nous nous occupons de votre bureau pendant que vous dirigez vos affaires ! »*

*Nous offrons des bureaux bien équipés avec une superbe vue sur le lac et les Alpes.*

*Dès votre aménagement, vous pouvez vous concentrer sur vos affaires; nous nous occupons du secrétariat et de l'administration de votre bureau.*

Your committee is already working on a scintillating programme for 2016, including conferences about art, about business, about cartoons, and even a Russian evening.

Afin de tenir à jour vos agendas, nous vous rappelons ci-après les dates de nos prochaines réunions:

- **26.10.** conférence – lunch, 11h30  
Notenstein Banque: **L'investissement durable: un outil de gestion des risques au service de la finance**
- **16.11.** conférence – lunch  
G. Bussy: **Fablab, imprimantes 3D.**
- **7.12.** Cocktail de Noël, en soirée
- **25.1.2016** Assemblée Générale
