

AUTOMOTIVE PATHWAY

vintage high school

It's time to start.

COLLEGE & CAREER
READINESS

IN PARTNERSHIP WITH NCOE | NVUSD | SHUSD | CJUSD

AUTOMOTIVE TECHNOLOGY

This two-year pathway is designed to meet the Automotive Service Excellence standards, preparing students for careers in the automotive industry. Students are exposed to business and entrepreneurship as well as the operation and construction of the principal components of the automobile through projects and hands-on learning experiences that prepare them for post-secondary education and entry to a career.

Level 1: *Introduction to Automotive Technology*
(articulates to Solano Community College)

Level 2: *Advanced Automotive Technology*

WHY PATHWAYS?

A pathway allows students to explore their interests and create a better future. Members of the community—colleges, parents, students, teachers, business partners—work together to prepare students for college, career, and life.

SIGN UP
