Rob's glampervan was awesome! A small passenger car that drives and handles as such but has many awesome amenities if you wanna go on a road trip and have a bed, small fridge and all cooking pots and burners. There's also chairs, black out panels for privacy, mats, so everything you need to glamp in style and comfort!

We're Glampervan converts (not that we took much convincing!) and spread the good word everywhere we went this weekend. Pick up and drop off was super convenient — Rob even accommodated a slightly later drop off when we were just having too much fun to drive home yet. Felt like we just drove our home anywhere we needed to go this weekend whether it was a remote campsite or Trader Joe's and it worked well in every setting. Rob was also super helpful in planning for the trip when road conditions made us change from our original plans. Looking forward to renting again soon.

Wogie was amazing. Everything was in order and meticulously selected. I felt completely free and still nestled in the arms of luxury. Rob was very helpful and communicative. Highly recommended.

This was my second trip in the Glampervan! It was great as expected, especially over the rainy weekend. I was the envy of all my friends who had to suffer the rainy nights tents :-). As always it was well equipped and very comfortable. Can't wait for my next trip!

Everything was awesome! Rob is quick to respond, showed us the ins/outs of the (badass) vehicle, and everything worked beautifully. All we brought was food, water, towels, toiletries, phone charging cords, and... battery operated twinkle lights :) We loved the external van lights that came in handy when cooking dinner outside, all the window covers for privacy because a lot of curious passersby peeked inside, and all the USB charging stations! Couldn't have been a better first experience with both van camping and Death Valley. Thanks Rob!

I'm converted. If I could glampervan all the time I would, in fact I wish I were glampervan-ing right now.

Seriously, Rob was great the van was perfectly setup perfectly. Just when I thought I needed something I reached in and the

perfect version of that thing was pre-packed by Rob.

Van runs great, sleeps better. Rob's super appreciative about feedback on the setup and I'll def. be renting again. Can't wait to plan my next trip.

Rob's van made for an incredible adventure. He made sure everything was set up for the weekend, and i can't thank him enough. Rent with confidence!

I took this sweet van for a week for surfing up the coast from SF and I couldn't have asked for a more practical, economical (save the hotel cost) and frankly just cool. There's every conceivable amenity in there (save shower obviously) and the auxillary battery that was supposed to last 3 days actually never ran out which was a big bonus. On top of it all, for future would-be-surf-campers renting this van, I was able to fit 3 shortboards in the massive cargo box on top (biggest board at 6'4 but can probably fit close to 7 foot boards).

- Did I mention that people will walk up to you randomly to revel in your coolness as you make yourself coffee in the morning?

My third time Glampervanning! This time for a spur-of-the-moment Yosemite trip. The van was purrrrrrfect for getting out of dodge. I slept in the van my first night, camped out my second night. I'm 6' tall, and had plenty of room to stretch my legs. Rob really does think of everything. I used all the amenities right down to the soothing green tea and agave syrup I discovered in the kitchen drawer. Rob stocked me up with extra blankets to make sure I stayed cozy at night, and gave me maps and camping tips for my trip. Can't wait for my next adventure. Thanks, Rob!

We absolutely loved our time in Rob's van! Great layout, and very easy to drive. It was perfect for driving down route 1 and exploring / camping in Big Sur. We'll be renting it again!

Bodie was great for us! We went on a short climbing trip down to Pinnacles and Rob thought of it all. We were traveling in style and it made it super easy for us with all of our gear being able to hang out and cook at the campsite after a few long days! Super easy to pick up and drop off and Rob was very responsive and accommodating. Bodie was incredibly convenient, very luxurious

and comes with most of the things you usually forget. We can't wait for another trip!

We had a blast! This van is perfect to roam around, enjoy the scenery and sleep wherever you want. We had so much fun in Napa and Sonoma! We even drove along the coast and stopped for fresh oyster, really great!

Rob's Glampervan rocks! I road tripped up to the Napa Valley and felt free as the birds wheeling above the vineyards. I love that the van has plenty of built-in comfort and amenities for both day and night, so I could explore in a self-contained nirvana without ever needing to be anywhere but exactly where I was. I'll definitely be Glampervanning again, and for longer next time!

WOW! This was a fun vehicle to camp in. I used it to attend a festival with some friends. This van was positioned at the center of our camp. I brought along a shade structure to cover the side entrance. The vehicle comes with 2 chairs, a table, and some floor mats. This created a great communal space just outside my door. There are blackout shades for the whole vehicle so it stays very cool and allowed for sleeping in much longer than a heated tent would allow. The lighting inside and outside of the vehicle came in so handy for me as well as creating mood lighting for my campmates. The bed was comfortable and there was so much storage to bring extra stuff above and inside the vehicle. The best part was the built in organization of the vehicle. Clothing, kitchen equipment, food, shoe storage was all very thoughtfully placed. It made moving around and getting to things very easy. Setup and tear down was a breeze. No fussing with tents, air mattresses and coolers and the organization is done before you even leave. Not much to do except pop open a cold one, sit back enjoy the environment.

Rob was very easy to work with on pickup and drop off. He explained how everything worked, where things were located, how the marine battery worked and how to get the most out of it.

I will definitely rent this van, and likely never tent camp again. Total Convert! Thanks GlamperVan!

Love the Glampervan! It is very comfortable and well equipped. Rob was great to work with and very responsive. I'm already thinking about my next adventure when I can use the Glampervan again.

Really great van and has been thoroughly thought out! Lots of fun and perfect for a trip.

My niece and I traveled out from VT to see the Dead and Company finish out the summer tour in the bay area. Using Rob's modern-day hippie van to role from show to show just made the experience all that more memorable. This thing is awesome--super comfortable, tons of room for the size (I'm 6'2" and could totally stretch out), easy to drive, and great of gas.

The fridge kept food and drink cold and the camp stove was awesome for morning coffee. Bottom line--this is a great rig from a great guy. Rob is super friendly and super easy to work with. Thanks for playing a key part in our long-strange trip! Fare you well, Rob fare you well!

WOW! How do I love Bodi? Let me count the ways:

Renting was a snap. I couldn't believe how fast it was.

Rob is great! Professional, super responsive and easy to work with.

Bodie - OMG! What a champ! My boyfriend and I rented it for a quick trip to Sequoia Nat'l Park. We loved the coffee / kitchen / galley setup, especially the little shelf in the door and the mugs. Everything was easy to find. Cubbies were clutch. Lights were perfectly placed. Mattress super comfy. The car is so adorable that other drivers are extra nice to you on the road.

My boyfriend especially liked his 2-hour nap in Bodi with the delicate breeze of the ceiling fan. Nice touch, Rob!

All in all, a stellar experience.

I love the Glampervan so much I wanna marry it. I confess I was a little nervous setting out for my first solo camping adventure, but my anxiety was quickly replaced by a tremendous sense of independence and freedom. The van is really easy to handle (and park), and everything just WORKS. I loved having my little

home "on my back," so to speak, and ready to set up in about 10 minutes wherever I should land. Every night, on climbing under the cozy sheets and duvet, I giggled like a little kid. And then, safely locked inside my little turtle shell, I slept like a stone. It's like "a room of one's own," on wheels. Try it, solo campers – you'll like it!

Oh, my. We had the most amazing experience renting this Glampervan, "Bodie". Her owner, Rob was quick to respond and even dropped off and picked up the van at our SF home. It was immaculately clean, fun to drive and even more amazing to take off the grid. Thank you, Bodie (and Rob!).

My girlfriend and I took Brodie for the weekend to a campout at American River and I'm happy to say Bodie came through with flying colors.

Typically I go car camping a few times a year so our setup is minimal. Tent, a couple chairs and the necessities and that's about it.

The amenities, comfort and attention to detail make Bodie the perfect way to take car camping to the next level.

Need interior lights to find something? Check.

Need a little ambiance while you're sitting at the table with your friends? Check.

Need to recharge your phone, iPod, iPad, laptop? Check.

Need a mat to cover the overgrown grass you want to set your campsite on? Check.

Need AC when it gets hot? Check.

Table? Chairs? Silverware? Plates? All supplied.

Bodie was easy to drive through the city and freeways and maneuver down a windy dirt road to the campground and once there was a great home base for the weekend.

In short, we absolutely loved camping with Bodie and have no problem giving it a 5 star recommendation. Would rent again!

So much fun! We were the envy of all the wannabee glampers.

Adventured all day and slept hard all night. Opened the doors and repeat. I can't wait to be a repeat glamper.

My sister Meredith came out from Austin for a sister's road trip. The trip really was incredible!!! Three nights of Hwy 1 ... Half Moon Bay, Costanoa, Bonny Dune, Santa Cruz, Capitola.

We played put put golf. Worked out. I surfed. We SUPEd. We got new tattoos. We saw dogs on the beach and an amazing sunset.

The van was so easy to drive. We took so many wrong turns that led to something so right! I love being able to camp just about anywhere! So spontaneous. The van's lighting system at night made it super easy. We felt safe with the lights on the outside of the van. Having a frig totally rocked!

Meredith, I love ya girl. That's a trip we'll always remember!! So fun!! Pix prove it

Rob's Glamper Van was amazing! My girlfriend and I took it out for a weekend of traveling around the Bay Area, and had an

incredible time. To share just one great moment, it was absolutely magical to look out on the sweeping view of the San Francisco Bay from our vantage point on Hawk Hill, all while snuggled in a cozy bed sipping our morning coffee with the rear doors open. Traveling with the Glamper Van opens up a world of incredible experiences you couldn't have any other way.

My girlfriend and I actually got engaged during our romantic road trip, and the Glamper Van was a perfect wingman, giving us access to beautiful, romantic locations : D

Rob has thoughtfully outfitted the vehicle with tons of useful camping items, from a folding table and chairs to a gas powered coffee maker! All we had to do was pack clothes and snacks, and everything else was taken care of.

The van was easy to drive and park, and we were amazed at how comfortable it was for sleeping. The mattress was a dream, and the magnetic blackout shades gave us privacy and kept the van at a comfy temperature throughout the night.

I would absolutely rent this vehicle again, and encourage others to take it for a spin themselves!
