

EFFEKTOR

We develop new features in Effektor every month. Here, we present some highlights. Please get back to us if you need a more detailed feature list, or schedule an online demo to see Effektor in action.

DATA WAREHOUSE

CORE FEATURES

Hub-and-spoke, metadata-driven data warehouse architecture: snowflake EDW model, star schema data marts, business processes. ETL, OLAP cubes, Master Data Management (MDM), data security.

SUPPORTED PLATFORMS

ON PREMISE OR ON AZURE

Effektor runs on one- or two-tier setups of IIS and SQL Server, supports on premise or Azure deployments, and runs on all editions of SQL Server 2008R2-2014.

BUSINESS INTELLIGENCE

BI PORTAL

BI portal, news, portal security, OLAP cube browser, reporting services integration, balanced scorecards within the portal or as mobile visualization, business process analytics, planning.

MARKET POSITION

EVERYWHERE

As a product, Effektor is no more than five years old. It is in production on more than 40 sites. Effektor's partners are present worldwide.
