

# ESSENTIAL EQUIPMENT GUIDES CEMENT MIXER ATTACHMENT SYSTEMS

The Mix & Go BMX Series of skid steer cement mixer attachments are built to scoop, mix and pour cement at a rate that meets or exceeds your expectations. **Excavator mounts are available.**

- MODELS**  
 BMX 100  
 BMX 250  
 BMX 450  
 BMX 600

## FEATURES:

- Galvanized side chute for assisted pouring and a safety grate installed on top.
- A hydraulically operated center chute provides the operator with excellent visibility for pouring.
- A spring assisted side gate locks the gate in place and aids in the actuation.
- The sprocket and chain drive system is completely enclosed and sealed to keep it out of harms way.
- A 5 ft. flexible hose is provided for easy pouring.
- Easy to lift grate lid makes cleaning with water easy.
- Integrated top bag cutter to make cement bag splitting and dumping easy.
- Steel paddle/auger style drive is suitable for concrete and grout. It mixes just about anything.
- Precision laser cut parts, CNC forming and robotic welding creates a high quality finished product.
- Pad mounting holes for excavators to connect to so this becomes a dual purpose product with just a few turns of a wrench.
- Drive system is reversible so that you can mix and dispense using your hydraulics.

## PRIME MOVER

MODEL	BMX-100	BMX-250	BMX-450	BMX-600
