

VIII NATIONAL SYMPOSIUM OF HEALTH GEOGRAPHY
V INTERNATIONAL FORUM OF HEALTH GEOGRAPHY
HEALTH ON THE BORDER AND THE FRONTIER(S) OF HEALTH

SECOND ANNOUNCMENT – December-2016

Presentation

The National Symposium of Health Geography brings together the academic community, managers and professionals interested in thematics related to health and geographical space. Since its first edition, which took place in 2003 in the city of Presidente Prudente, São Paulo State, Brazil, the event has significant presence of Latin American researchers. From its third edition, the event began to occur together with the International Forum of Health Geography, which broadened the participation of Europeans, North Americans, Africans and Oceanics. These biannual symposia and forums, also known as "GeoHealth", are recognized by the international scientific community for the fruitful debates that are developed by the diversity of challenges, experiences and subsidies for decision making by managers from different countries.

The interrelationship between the scientific knowledge of the health/disease processes and geographical space has as its starting point the inter and transdisciplinary approaches, with emphasis on the articulations between the disciplines of several areas of knowledge, as Collective Health, Geography, Psychology, Nutrition, Nursing, Biology, Social Sciences, Medicine, History, among others.

The realization of the event at the Federal University of Grande Dourados (Dourados, Mato Grosso do Sul state), situated in the frontier region between Brazil and Paraguay, motivated the choice of theme " Health on the Border and the Frontier(s) of Health", focus of the VIII GeoHealth. This theme considers the geographic context of Brazil's extensive international frontier and the need to broaden the understanding of health-disease processes through different frontiers of knowledge, ethnic, geographical, otherness, humanity. The expected results of the 8th edition of GeoHealth are: deepening the theoretical-practical discussions of Geography and Health, strengthening national and international networks of researchers, and exchanging experiences from different contexts.

Important dates:

- ◆ **Registration:** from 09/01/16 to 28/06/17.
- ◆ **Submission of complete work:** from 03/10/2016 to 01/15/17.
- ◆ **Publication of the approved works:** 02/28/2017.

Thematic axes:

- ◆ Epistemology and theoretical approaches in Health Geography
- ◆ Health and Environment
- ◆ Geographical Information and Geotechnologies applied to health
- ◆ Social inequalities, accessibility and regionalization of health services
- ◆ Traditional knowledge and alternatives in public health

June 27th - July 1st, 2017

HEALTH ON THE BORDER AND THE FRONTIER(S) OF HEALTH

Deadlines and Fees

Registration types	By 04/10/2017	By 05/15/2017	In the event
Undergraduate students*	R\$ 100,00	R\$ 120,00	R\$ 150,00
Postgraduate Students*	R\$ 200,00	R\$ 270,00	R\$ 350,00
Professors and other professionals	R\$ 350,00	R\$ 450,00	R\$ 550,00

* *Registration fees are subject to proof by enrollment document issued by the student's course or educational institution.*

Author Guidelines

The full papers must be in the form of scientific articles and will be submitted only by the GECEI system, available at: <http://www.geci.ibilce.unesp.br/index.jsp?idioma=en>.

Norms for submitting work to the event are the Guidelines for Authors of journal Hygeia (available at: <http://www.seer.ufu.br/index.php/hygeia/about/submissions>). The 20 best works will be published in a 2017 special edition of this journal.

The full paper must be an unpublished scientific article, related to one of the thematic axes of the event. The format is Word 97-2003, with a minimum of 10 and a maximum of 20 pages, single line spacing, font ARIAL 10, in A4 size with margins of 2.5 cm on each side. Figures and photographs must be clear (JPEG). Direct and indirect citations and references should be according to the ABNT norms (examples in the template below).
