

# Welcome to the Disease Center!

Here we list many common Diseases and some simple things to try to help improve the situation!

We are NOT Doctors or Healthcare Professionals in any way and the information given here is not to diagnose, cure or treat any disease. It is merely information that I have gathered over the years from the many books (see About Us for References) and interviews with many Doctors, Dietitians and other Healthcare Professionals.

Please consult your own Doctor or Healthcare Professional before doing anything on your own.

What you do with this information is up to you!

This List is being compiled and modified constantly. Please come back often as we up date this list.

If you have a certain Disease you would like some information on, please email us and if I have it in our library I will post it!

But please remember "We are NOT Doctors or Healthcare Professionals in any way and the information given here is not to diagnose, cure or treat any disease.
