**Software Update: Better picture? More control? You got it.**

---

LeEco <email@message.leeco.com>

# A CLEANER, MORE ENJOYABLE LEECO TV EXPERIENCE IS HERE.

Inspired by your feedback, our latest TV software delivers improved features: enhanced HDR viewing, a cleaner user experience, bug fixes and more.

## WHAT'S IMPROVED

[HDR Viewing](#) | [Remote Control](#) | [Sources](#) |  
[Additional Enhancements](#)

Watch for the alert, or update through your System Update app on the home screen.

---

## Vivid, more realistic content

Better HDR entertainment is on the way with enhanced gamma logic for HDR (High Dynamic Range) viewing.

---

## More control, more devices

Use your LeEco remote to control third party, CEC-supported devices, such as Apple TV™ (4th gen.), Amazon Fire™ and more.

---

Faster switching between sources

Access TV input sources faster by holding down the source button on your remote.

---

## Additional Enhancements

- I Resolved audio-video sync issues
- II Activate closed captioning by long-pressing the Settings button

- III Added option to select home screen on startup
- IV Other enhancement and general bug fixes

Your smart device experience matters to us.
