

10 Years ago, the NFB was constituted in the *Subite* " (*The Sudden Death*), in the center of Without money, but with the support of a lot of passionates (all volunteers), I impulsed a lot of energy to help and to give help in the foundation of new Football Associations (federations). From my pockets...

Time after time few big Fas after having observed us, finally came in NFB. Like the strong FA of Kurdistan. They supported NFB in the organization of the last VIVA World Cup 2012 in their country. They gave also a lot of money (we must thank again Mr Nechirvan BARZANI, the Prime Minister of Kurdistan Region).

But, all the money destined to help the participation of the Fas (for example, the FA of Chagos, or Easter Island) were not spent. The former President deciding to spent this money to his travels (including Östersund...) and a non legal website with his complices. This illegal website was paid to one of their friend more than EUR 6300,00.

When I tried to ask them the details, they tried to get me out of NFB. Finally I pushed them to resignation. The pirates kept our documents, contacts, facebook official Group, and photos, copying our own Status word per word. The pirates have no imagination ! we discovered later, a lot of interesting correspondances between them on their webmails.

You know the suite of the story. We prepare the end of the pirates which had stolen us. We are right and clean in the NFB. We have the support of lot of FAs to grow the VIVA World Cup tm. These last years we played 5 editions + 1 for Women. We obtain the support from UNO and from FIFA, because WE RESPECT THE RULES and deontology. No fiesta for this birthday ! The NFB will continue in this way !

The NFB is **the original** ! He will accept other organization because the sun can shine to all. But never accept pirates and copyists.

North America & Arctic Confederation

A meeting is scheduled in Québec on next January of 2014. The goal of this idea consists to found officially the next NF North America & Arctic Confederation. Its very first mission will concern the situation regarding the official representative team allowed to be called "Quebec". The NFB, like as for FIFA want only to recognize one national team and one Football Association per entity. The NFB considers that the very official instance is the the Federation de Soccer du Québec. Affiliated in the Canadian Soccer Association. NFB could accept that the team (Club) "Les Québécois" founded in 2012, represent officially Quebec, but only if this team receive the approbation (or no opposition) from the *Federation de Soccer du Québec*. Few other projects are also on the agenda, for example, the foundation of Football Associations for Iroquois and Hurons. This meeting will be under the direction of our Liaison Officer in Québec Mr. Carlos RODRIGUEZ-LAPIERRE.

FA Isle of Man

Pirates arrives on the Isle of Man, one of the most ancient and venerable Football Association in the World !

After having hijacked NFB and Tamileelam FA, having create some real problems with Quebec, were the teams announced in the "World Championship" of Östersund, be constituted by false national teams ? If the pirates are the champions of the bad copies (because they cannot create or have authentic), they founded another FA in the Isle of Man. When will they create another ones in Brazil and France, Germany ?

The Media and sponsors will appreciate : The IOM FA wrote :

"The Isle of Man Football Association (IOM FA) would like to make the following statement in relation to coverage in both the Manx newspapers and social media regarding the establishment of an organisation entitled Manx Independent Football Association (MIFA)".

Read more on : <http://www.isleofmanfa.com/news/2013/nov/iom-fa-statement>

The NFB respects the Rules and support IOM FA.

FA CHECHNYA

Time to go back in Grozny !

When the FA Chechnya was exiled in 2005 near Nice in South of France, it was due the war. The headquarters of this FA was half destroyed by bombs and it was decided in the partnership of the UNPO to move the FA here there. Now, the situation in Chechnya is quiet and the country is in a good way of development. It's now time to be back home.

Micronations in recrudescence

Every month, more and more
Micronations write us requesting
the process for membership for
their own FA in NFB.
Then, NFB is open to all and we
read attentively all the files. But,
in fact, and in general, we never
receive nothing after the very first
contact. It's rare when we obtain
a phone number.

Then, we recommend to contact the MFA which
be founded in 2009 (Micronational Football
Association) for the micronational international
football of the World. The MFA succeding to the
former FMF (Federation Micraise de Football).
